KEMOVE K98SE (Red Switch)

KEMOVE K98SE Mechanical Gaming Keyboard User Manual

Model: K98SE (Red Switch)

INTRODUCTION

Thank you for choosing the KEMOVE K98SE Mechanical Gaming Keyboard. This manual provides detailed instructions for setting up, operating, and maintaining your new keyboard. Designed for efficiency and performance, the K98SE features a compact 98-key layout, durable mechanical switches, and customizable backlighting to enhance your gaming and typing experience.

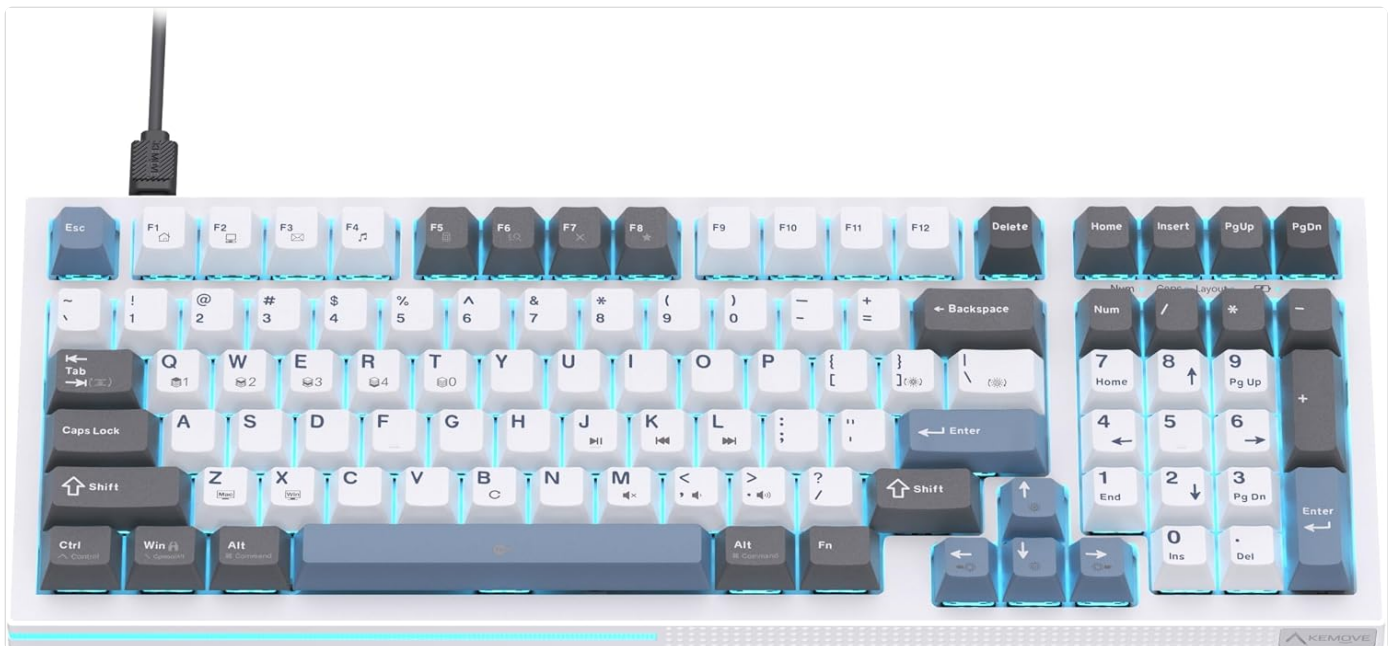

Figure 1: KEMOVE K98SE Mechanical Gaming Keyboard Overview

This image displays the KEMOVE K98SE mechanical keyboard in white and grey, featuring a compact layout with a visible USB-C cable connected at the top. The keys are backlit with an ice blue light, highlighting the full keyboard layout including the numeric pad.

SETUP

Package Contents

- KEMOVE K98SE Mechanical Gaming Keyboard
- USB-C Cable

- Keycap Puller
- User Manual

Connecting Your Keyboard

The KEMOVE K98SE keyboard connects via a reliable USB-C wired connection.

1. Locate the USB-C port on the back or side of your K98SE keyboard.
2. Insert one end of the provided USB-C cable into the keyboard's USB-C port.
3. Insert the other end of the USB-C cable into an available USB port on your computer (laptop or desktop).
4. The keyboard will be automatically recognized by your operating system. No additional drivers are typically required for basic functionality.

OPERATING INSTRUCTIONS

Keyboard Layout and Keys

The K98SE features a 96% compact layout with 98 keys, designed to maximize space efficiency while retaining essential keys for various tasks. This includes a full set of letters, numbers, and function keys, along with a dedicated numeric keypad.

96% Layout

98 Keys, No Excess, Full Functionality.

Net weight: 2.3 lbs

Figure 2: KEMOVE K98SE 96% Compact Layout

This image illustrates the 96% compact layout of the KEMOVE K98SE keyboard, highlighting its 98-key configuration. Dimensions are provided: 15.35 inches in length, 5.70 inches in width, and 1.4 inches in height, with a net weight of 2.3 lbs. The diagram emphasizes that the layout offers full functionality without excess keys.

Mechanical Switches (Red Switch)

Your K98SE keyboard is equipped with pre-lubed Red Switches, known for their linear feel and quiet operation, making them ideal for both gaming and typing. These switches offer a fast response and no lag, with a durable lifespan of 50 million keystrokes.

50 Million
Keystroke life

Fast response
& No lag

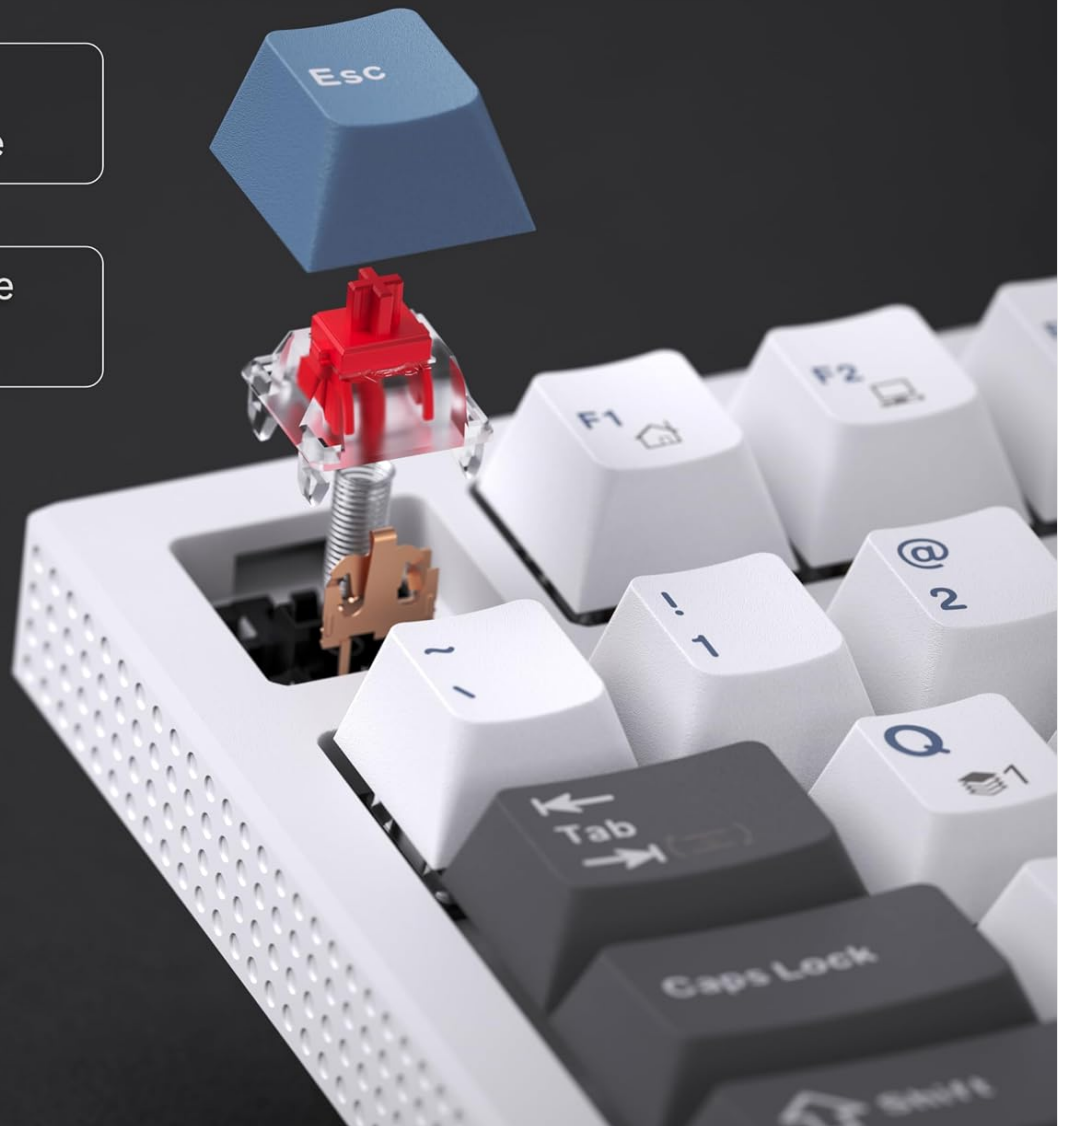

Figure 3: Pre-lubed Red Switch Detail

This close-up image shows a disassembled keycap and a pre-lubed Red Switch on the KEMOVE K98SE keyboard. Text overlays indicate "50 Million Keystroke life" and "Fast response & No lag," highlighting the durability and performance characteristics of the Red Switches.

Backlight Control

The K98SE features an ice blue backlight with 15 built-in lighting modes, allowing you to customize the visual experience. There is also a side light strip for additional ambient lighting.

- **Changing Lighting Modes:** Refer to the keyboard's function key combinations (usually Fn + a specific key) for cycling through the 15 lighting modes.
- **Adjusting Brightness:** Use designated Fn key combinations to increase or decrease backlight brightness.
- **Side Light Strip:** The side light strip often synchronizes with the main backlight or has its own control options.

Figure 4: Ice Blue Backlight in Use

This image shows the KEMOVE K98SE keyboard on a desk, illuminated by its ice blue backlight. A computer monitor and a gaming mouse are also visible, suggesting a typical gaming setup. The image highlights the "Ice Blue Backlight" and mentions "Built-in 15 lighting modes" and a "Side Light Strip."

Customization Software

Unlock the full potential of your K98SE keyboard using the dedicated KEMOVE software. This software allows for extensive customization, including:

- **Key Set:** Remap keys and assign custom functions.
- **Light Set:** Create and manage custom lighting effects beyond the built-in modes.
- **Function Set:** Configure advanced functions and shortcuts.
- **Music Rhythm:** Synchronize lighting effects with audio.
- **Macros:** Record and assign complex key sequences for gaming or productivity.
- **Profiles:** Save up to 5 distinct profiles for different applications or users, allowing quick switching between configurations.

Please visit the official KEMOVE website to download the latest version of the customization software.

Design Your Own Custom Keyboard

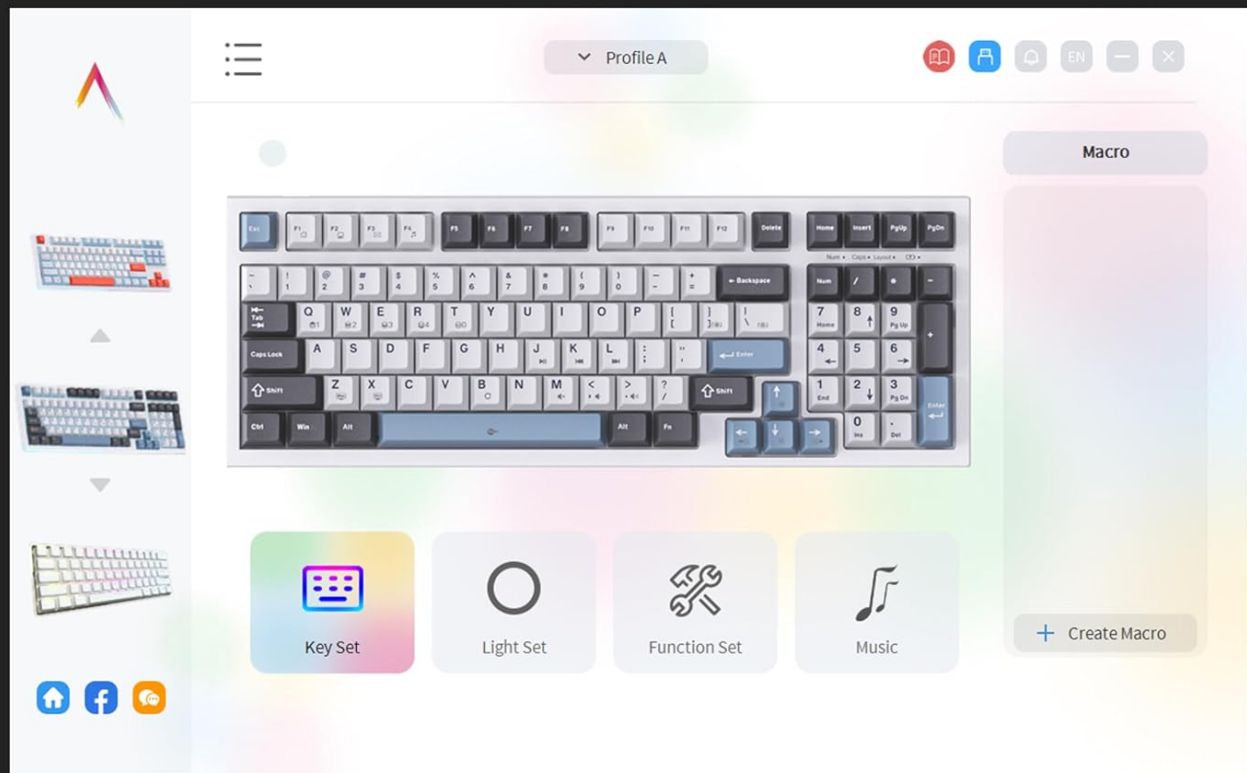

Figure 5: KEMOVE Customization Software Interface

This image displays the graphical user interface of the KEMOVE software, titled "Design Your Own Custom Keyboard." It shows options for "Key Set," "Light Set," "Function Set," "Music," and "Macro," along with a section for managing "5 Profiles." The interface allows users to personalize various aspects of their keyboard.

Ergonomics and Features

The K98SE is designed for a comfortable typing experience, featuring an ergonomic design and folding feet to adjust the typing angle. It also includes advanced features for enhanced performance:

- **Full Anti-Ghosting:** Ensures that every keypress is registered accurately, even during rapid, simultaneous key presses, crucial for gaming.
- **Double-shot Keycaps:** The key legends are molded into the keycap plastic, preventing them from fading or wearing off over time.
- **Folding Feet:** Adjustable feet on the underside of the keyboard allow you to set your preferred typing angle for improved comfort.

Figure 6: Comfortable Using Experience

This image shows a user's hands typing on the KEMOVE K98SE keyboard, emphasizing a comfortable usage experience. Icons below the keyboard highlight key features: "Full Anti-Ghosting," "Double-shot Keycap," "Folding feet," and "Ergonomic Design."

MAINTENANCE

General Cleaning

- **Dust Removal:** Use a can of compressed air to blow away dust and debris from between the keycaps.
- **Surface Cleaning:** Wipe the surface of the keyboard with a soft, slightly damp, lint-free cloth. Avoid using harsh chemicals or abrasive materials.
- **Keycap Cleaning:** For deeper cleaning, use the provided keycap puller to carefully remove keycaps. Clean them with mild soap and water, then ensure they are completely dry before reattaching.

Switch Maintenance

The Red Switches are pre-lubed for optimal performance and longevity. Regular maintenance primarily involves keeping them free of dust and debris. Avoid disassembling the switches unless you are experienced with keyboard modification, as this can void your

warranty.

TROUBLESHOOTING

Common Issues and Solutions

- **Keyboard Not Responding:**
 - Ensure the USB-C cable is securely connected to both the keyboard and the computer.
 - Try connecting the keyboard to a different USB port on your computer.
 - Restart your computer.
 - Test the keyboard on another computer to rule out system-specific issues.
- **Backlight Not Working or Flickering:**
 - Check if the backlight is turned off or set to minimum brightness using the Fn key combinations.
 - If using customization software, ensure no conflicting settings are applied.
 - Try resetting the keyboard to factory defaults (refer to the software or advanced manual for specific key combinations).
- **Keys Not Registering or Double-Typing:**
 - Ensure the keycap is properly seated on the switch.
 - Clean around the affected switch to remove any debris.
 - If the issue persists, it may indicate a faulty switch. Contact customer support.

For more complex issues or advanced troubleshooting, please refer to the comprehensive online manual or contact KEMOVE customer support.
