VRURC T1173

VRURC Portable Charger User Manual

Model: T1173

INTRODUCTION

Thank you for choosing the VRURC Portable Charger. This 10000mAh 22.5W fast-charging USB-C battery pack is designed for convenience and versatility, featuring built-in cables for a wide range of devices. This manual provides essential information for safe and efficient use of your portable charger.

PRODUCT FEATURES

- **Built-in 4 Cables:** Includes 3 output cables (USB-C, Micro USB, Apple/Lightning) and 1 fast-charging input cable (USB-A) for broad device compatibility.
- **Fast Charging:** Delivers 20W fast charging, capable of charging a phone to 60% in approximately 30 minutes. Supports charging up to 4 devices simultaneously.

- **Fast Re-charge:** Recharge the power bank in just 2.5 hours via the built-in USB Type-C cable (QC/PD 3.0 at 18W) or in 6 hours using the built-in USB Type-A cable.
- **Airline-Approved Safety:** Designed to meet aviation safety standards with intelligent safeguards against overcharge, overvoltage, overcurrent, short-circuits, and overtemperature.
- **Pocket Size:** Compact dimensions (3.6 x 3.23 x 0.7 inches) and lightweight (6.87 Oz/195g) for easy portability.
- **LED Digital Display:** Provides an accurate power level indication, showing charge percentage even at 1%.
- **Charge Small Devices:** Suitable for charging low-current devices such as MP3 players, cameras, AirPods, Bluetooth headphones, and sports watches.

SETUP

Charging the Portable Charger

Before first use, fully charge your VRURC Portable Charger. There are two methods to recharge the power bank:

1. **Via Built-in USB Type-C Cable:** Connect the built-in USB Type-C cable to a compatible 18W QC/PD 3.0 power adapter. This method allows for a full recharge in approximately 2.5 hours.
2. **Via Built-in USB Type-A Cable:** Connect the built-in USB Type-A cable to a standard USB power source. This method will fully recharge the power bank in approximately 6 hours.

The LED digital display will show the charging progress, indicating 100% when fully charged.

Image: Visual guide demonstrating the three different ways to recharge the power bank: via USB-C input, built-in USB-C cable, and built-in USB-A cable.

OPERATING INSTRUCTIONS

Charging Your Devices

The VRURC Portable Charger offers multiple ways to charge your electronic devices:

- **Using Built-in Cables:**
 - **USB-C Cable:** Pull out the built-in USB-C cable and connect it to your USB-C compatible device (e.g., iPhone 15/16, Samsung Galaxy S series, Android tablets).
 - **Apple/Lightning Cable:** Pull out the built-in Apple/Lightning cable and connect it to your Apple devices (e.g., iPhone 8-14 series, older iPads, AirPods).
 - **Micro USB Cable:** Pull out the built-in Micro USB cable and connect it to devices requiring a Micro USB connection.
- **Using USB Ports:**
 - **USB-C Output Port:** Use your own USB-C to USB-C cable to connect to the power bank's USB-C output port for fast charging compatible devices.
 - **USB-A Output Port:** Use your own USB-A cable to connect to the power bank's USB-A output port for charging various devices.

The power bank can charge up to 4 devices simultaneously using a combination of its built-in cables and output ports.

Checking Battery Level

Press the power button located on the side of the portable charger. The LED digital display will illuminate, showing the remaining battery percentage from 0% to 100%.

LED Display

Accurately shows the power, even 1%

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the surface of the portable charger. Do not use liquid cleaners or aerosols.
- **Storage:** Store the device in a cool, dry place away from direct sunlight and extreme temperatures. Avoid high humidity.
- **Battery Care:** To prolong battery life, fully charge the power bank at least once every three months if not in regular use.
- **Avoid Drops:** Protect the device from drops and impacts, which can damage internal components.

TROUBLESHOOTING

- **Device not charging:**
 - Ensure the portable charger has sufficient power (check LED display).
 - Verify that the built-in cable or external cable is securely connected to both the power bank and your device.
 - Try a different cable or port to rule out a faulty connection.
- **Slow charging:**
 - Ensure your device supports fast charging and that you are using a compatible cable/port.
 - Charging multiple devices simultaneously may reduce individual charging speeds.
 - Check if the power bank itself is fully charged.
- **LED display not working:**
 - Press the power button firmly.
 - If the device is completely drained, the display may not light up immediately. Charge the power bank for a few

minutes and try again.

- **Power bank not recharging:**

- Ensure the charging cable is properly connected to a working power source.
- Try a different power adapter or wall outlet.
- Verify the built-in USB-A or USB-C input cable is not damaged.

SPECIFICATIONS

Feature	Detail
Model Number	T1173
Battery Capacity	10000 Milliamp Hours (mAh)
Product Dimensions	3.6 x 3.23 x 0.71 inches
Item Weight	6.3 ounces (195g)
Input (USB-C)	18W (QC/PD 3.0)
Output (USB-C, USB-A, Built-in Cables)	20W Fast Charging (Max)
Built-in Cables	USB-C, Micro USB, Apple/Lightning, USB-A (input)
Special Features	Auto Shut-Off, Digital Display, Fast Charging, Lightweight, Slim, Pocket Size, Over Charging Protection, Airline-Approved

SAFETY INFORMATION

Your VRURC Portable Charger is equipped with intelligent safeguards to ensure safe operation. Please observe the following:

- Do not expose the device to water, fire, or extreme temperatures.
- Avoid disassembling, crushing, or puncturing the device.
- Keep out of reach of children.
- Dispose of the product responsibly according to local regulations.
- The device is airline-approved for carry-on luggage.
