BoxWave Wall Charger Direct (45W)

BoxWave Wall Charger Direct (45W) Instruction Manual

Model: Wall Charger Direct (45W)

INTRODUCTION

The BoxWave Wall Charger Direct (45W) is a versatile wall plug adapter designed to provide efficient and safe charging for a wide range of USB Type-C compatible devices. Featuring Power Delivery (PD) technology, this charger intelligently adjusts its output to meet the specific power requirements of your device, ensuring optimal charging speed and safety. It includes a durable, integrated 5-foot USB Type-C cable for direct connection.

SAFETY INFORMATION

Please read and follow these safety guidelines to prevent damage to the product or injury to yourself:

- Do not expose the charger to water, moisture, or extreme temperatures.
- Do not attempt to disassemble, repair, or modify the charger.
- Ensure the charger is plugged into a standard wall outlet with the correct voltage.
- Avoid using the charger in poorly ventilated areas or covering it during use to prevent overheating.
- The integrated Power Delivery (PD) technology is designed to protect your device from overcharging, overcurrent, and short-circuiting.
- Regularly inspect the cable for any signs of damage or fraying. Discontinue use if damage is observed.

Image: Diagram illustrating the internal safety features of the charger, including protection against short-circuit (SCP), high temperature (HP), over-power (OPP), input over-voltage (Input OVP), output over-voltage (Output OVP), input over-current (Input OCP), and output over-current (Output OCP).

PACKAGE CONTENTS

- 1 x BoxWave Wall Charger Direct (45W) with integrated 5-foot USB Type-C cable

SETUP

Setting up your BoxWave Wall Charger Direct (45W) is straightforward:

1. Locate a standard wall power outlet.
2. Plug the charger's AC prongs into the wall outlet.
3. Connect the integrated USB Type-C cable to the charging port of your compatible device (e.g., laptop, smartphone, tablet).
4. Ensure a secure connection at both the wall outlet and your device.

OPERATING INSTRUCTIONS

Once connected, the charger will automatically begin charging your device. The Power Delivery (PD) technology will detect your device's power requirements and deliver the optimal charging current up to 45W. No manual adjustments are required.

- The charger is designed for universal compatibility with many USB Type-C enabled devices that support PD charging.
- Charging speed may vary depending on your device's battery level and its maximum supported charging input.
- Disconnect the charger from the device and the wall outlet when not in use or when the device is fully charged.

MAINTENANCE

To ensure the longevity and optimal performance of your BoxWave Wall Charger Direct (45W):

- **Cleaning:** Disconnect the charger from the power outlet before cleaning. Wipe the exterior with a soft, dry cloth. Do not use liquid cleaners or abrasive materials.
- **Storage:** Store the charger in a cool, dry place away from direct sunlight and extreme temperatures.
- **Cable Care:** Avoid sharp bends or excessive pulling on the integrated cable. The strain relief feature helps protect against fraying, but proper handling is still recommended.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Device not charging.	Loose connection, faulty outlet, incompatible device.	Ensure the charger is securely plugged into the wall and the USB Type-C cable is firmly connected to your device. Try a different wall outlet. Verify your device supports USB Type-C PD charging.

Problem	Possible Cause	Solution
Slow charging.	Device not fully supporting 45W PD, background apps, cable issue.	While the charger provides up to 45W, your device may only draw less. Close unnecessary applications on your device. Ensure the cable is not damaged.
Charger feels warm.	Normal operation, heavy load.	It is normal for chargers to become warm during operation, especially under heavy load. If it becomes excessively hot or emits smoke/odor, immediately unplug it and discontinue use.

SPECIFICATIONS

Model	Wall Charger Direct (45W)
Brand	BoxWave
Input	100-240V~50/60Hz 1A
Output	5V=3A / 15.0V=2.6A (45W Max Power Delivery)
Connectivity	USB Type-C (integrated cable)
Cable Length	5 feet (approx. 1.5 meters)
Material	Polycarbonate
Item Weight	3.3 ounces (approx. 93.5 grams)
Compatible Devices	Devices supporting USB Type-C Power Delivery (e.g., laptops, smartphones, tablets)
