SteFik Robot Vacuum Replacement Parts Kits User Manual

Compatible for LIECTROUX C30B & XR500 Vacuum Cleaner

INTRODUCTION

This user manual provides essential information for the installation, operation, and maintenance of your SteFik Robot Vacuum Replacement Parts Kits. These parts are specifically designed for compatibility with LIECTROUX C30B and XR500 Robot Vacuum Cleaners. Proper use and maintenance of these replacement parts will ensure optimal performance and longevity of your vacuum cleaner.

PACKAGE CONTENTS

Please verify that all components listed below are present in your package:

- Side Brush x 4 pieces
- Central Brush x 2 pieces
- HEPA Filter x 2 pieces
- Primary Filter x 2 pieces
- Big Mop x 3 pieces

Image: Overview of the SteFik Robot Vacuum Replacement Parts Kit. This image displays two central brushes, four side brushes, two HEPA filters, two primary filters, and three mop cloths, all laid out on a white background.

SETUP AND INSTALLATION

Before installing any replacement parts, ensure your LIECTROUX C30B or XR500 vacuum cleaner is powered off and unplugged from its charging base.

1. Side Brush Installation

1. Turn the robot vacuum cleaner upside down.
2. Locate the existing side brushes. Depending on the model, they may be secured with a screw.
3. Remove the old side brushes.
4. Align the new side brushes with the corresponding slots and press firmly until they click into place, or secure with the screw if applicable.

2. Central Brush Installation

1. Turn the robot vacuum cleaner upside down.
2. Locate the central brush cover, usually secured by clips or latches.
3. Open the central brush cover and remove the old central brush.
4. Clean any debris from the brush compartment.

5. Insert the new central brush, ensuring the ends align with the designated slots.
6. Close the central brush cover securely.

3. HEPA and Primary Filter Installation

1. Open the dustbin compartment of your robot vacuum cleaner.
2. Remove the dustbin.
3. Locate the filter assembly within the dustbin. The primary filter is typically a mesh screen, and the HEPA filter is a pleated paper filter.
4. Remove the old filters.
5. Insert the new primary filter first, followed by the new HEPA filter, ensuring they are seated correctly.
6. Reinstall the dustbin into the vacuum cleaner.

4. Mop Cloth Installation

1. Locate the mop attachment or water tank on your robot vacuum cleaner.
2. Remove the old mop cloth if present.
3. Attach the new mop cloth to the designated area, usually via Velcro or a sliding mechanism. Ensure it is securely fastened.

OPERATING INSTRUCTIONS

These replacement parts are designed to restore or enhance the cleaning performance of your LIECTROUX C30B or XR500 robot vacuum cleaner. Once installed, operate your vacuum cleaner according to its original manufacturer's instructions.

- **Efficient Cleaning:** The new side brushes, central brush, and mop cloths contribute to improved floor cleaning and overall efficiency.
- **Precise Filtration:** The high-efficiency HEPA and primary filters are designed to capture tiny particles, improving air quality in your home.
- **Multi-functional Use:** The mop cloths enable effective wet cleaning of hard floors.

MAINTENANCE AND CARE

Regular maintenance of these replacement parts is crucial for optimal performance and longevity of your robot vacuum cleaner.

1. Brushes

- **Central Brush:** Regularly check the central brush for tangled hair or debris. Use the cleaning tool provided with your vacuum (if applicable) or scissors to cut and remove any tangled material. It is recommended to clean the central brush weekly, or more frequently depending on usage.
- **Side Brushes:** Inspect side brushes for wear, bending, or tangles. Clean them regularly to ensure they can effectively sweep debris into the vacuum's path. Replace if bristles are significantly worn or damaged.

2. Filters

- **HEPA and Primary Filters:** Tap the filters gently over a trash can to remove accumulated dust and debris. Do not wash HEPA filters with water as this can damage the filter material. Primary filters may be rinsed with water if specified by your vacuum's manual, but ensure they are completely dry before reinstallation. Filters should be cleaned after every few uses and replaced every 1-3 months, depending on usage and environment.

3. Mop Cloths

- After each use, remove the mop cloth and rinse it thoroughly with water. Allow it to air dry completely before reattaching or storing. For heavily soiled cloths, machine washing on a gentle cycle may be appropriate, but check your vacuum's manual for specific recommendations.

TROUBLESHOOTING

This section addresses common issues related to the replacement parts. For general vacuum cleaner issues, refer to your LIECTROUX C30B or XR500 user manual.

Problem	Possible Cause	Solution
Reduced cleaning performance (brushes)	Brushes tangled with hair/debris; brushes worn out.	Clean brushes thoroughly; replace worn brushes with new ones from the kit.
Reduced suction power	Filters clogged with dust; filters incorrectly installed.	Clean filters by tapping out dust; ensure filters are correctly seated in the dustbin. Replace filters if heavily soiled or damaged.
Mop not effectively cleaning	Mop cloth dirty or not properly attached.	Clean the mop cloth; ensure it is securely attached to the mop attachment.
Parts do not fit	Incorrect model compatibility.	Verify your vacuum cleaner model is LIECTROUX C30B or XR500. These parts are specifically designed for these models.

SPECIFICATIONS

Attribute	Detail
Product Name	SteFik Robot Vacuum Replacement Parts Kits
Compatible Models	LIECTROUX C30B, LIECTROUX XR500
Package Dimensions	1.18 x 0.79 x 0.39 inches
Item Weight	1.76 ounces
Manufacturer	zhangmeifengf
Country of Origin	China
Number of Pieces	1 (referring to the kit as one unit)

WARRANTY INFORMATION

According to the product specifications, there is **No warranty** provided for this product. Please inspect the package contents upon arrival.

For return or replacement inquiries, please refer to the retailer's return policy where the product was purchased. Typically, a return policy allows for returns within 30 days of purchase, subject to the retailer's terms and conditions.
