Voice-tank GY-L7

Voice-tank Magnetic Wireless Charger Stand

MODEL: GY-L7

Introduction

Thank you for choosing the Voice-tank Magnetic Wireless Charger Stand. This manual provides essential information for the safe and efficient use of your new charging device. Please read these instructions carefully before use and retain them for future reference.

Product Overview

Key Features:

- **15W Fast Magnetic Wireless Charging:** Delivers efficient and secure power to compatible devices.
- **Wide Compatibility:** Designed for iPhone 12, 13, 14, 15, 16, and 17 series (including Pro, Air, Plus, Max, mini models) and AirPods 2, 3, Pro, and Pro 2.
- **Strong Magnetic Alignment:** Equipped with an upgraded N52 strong magnet for automatic and firm device attachment.
- **360° Rotation:** Allows for flexible viewing angles in both portrait and landscape modes.
- **Multiple Intelligent Protection:** Features built-in smart chipset for overcurrent, overvoltage, and overheating protection, along with radiation-free magnetic isolation sheets.
- **Sleep-Friendly LED Indicator:** A soft LED light indicates charging status and can be turned off with a touch for undisturbed rest.
- **Durable Construction:** Made from Aluminum, ABS Plastic, and Rubber.

What's in the Box:

- Magnetic Charging Stand x1
- USB C-C Charging Cable x1
- User Manual x1

Setup Instructions

1. **Connect the Power Cable:** Insert the provided USB C-C charging cable into the USB-C port at the base of the charging stand.
2. **Connect to Power Source:** Connect the other end of the USB C-C cable to a compatible power adapter (not included). A 10-30W power adapter is recommended for optimal fast charging performance.
3. **Power On:** Once connected to a power source, the LED indicator light at the base will illuminate, indicating the stand is ready for use.

Operating Instructions

1. **Charging an iPhone:** Gently place your compatible iPhone (iPhone 12-17 series) onto the magnetic charging pad. The strong N52 magnet will automatically align your device for optimal charging.
2. **Charging AirPods:** Place your AirPods (2/3/Pro/Pro 2) charging case onto the designated charging area at the base of the stand.
3. **Adjusting Viewing Angle:** The magnetic charging pad for the iPhone supports 360° rotation. Adjust your device to your preferred portrait or landscape orientation for viewing content or making video calls while charging.
4. **LED Indicator Light:** The LED light at the base indicates the charging status. If you prefer a dark environment, simply touch the light bulb icon on the base to turn the LED indicator off. Touch it again to turn it back on.

Safety Information

Your Voice-tank Magnetic Wireless Charger Stand is designed with multiple safety features to protect your devices and ensure safe operation:

- **Intelligent Protection:** Built-in smart chipset guards against overcurrent, overvoltage, and overheating. Charging automatically stops if the temperature rises too high.
- **Radiation Shielding:** Features radiation-free magnetic isolation sheets for user safety.
- **Foreign Object Detection (FOD):** Automatically detects foreign metal objects on the charging surface to

prevent damage and ensure safe charging.

- **Heat Dissipation:** Multiple heat-dissipation holes at the base ensure efficient cooling and stable performance during extended use.
- **Certifications:** FCC & RoHS certified for family safety.

Troubleshooting

Problem	Possible Cause	Solution
Device not charging or charging slowly.	• Incompatible power adapter. • Device not properly aligned. • Non-Mag-Safe case interfering with magnetic connection. • Foreign object on charging surface.	• Ensure a 10-30W power adapter is used. • Re-position the device to ensure proper magnetic alignment. • Use a Mag-Safe compatible case or remove the case for charging. Non-magnetic cases thicker than 2mm may reduce efficiency. • Remove any foreign metal objects from the charging surface.
LED indicator light is off or flickering.	• Light has been manually turned off. • Power connection issue.	• Touch the light bulb icon on the base to toggle the LED light on/off. • Check if the USB-C cable is securely connected to both the stand and the power adapter. Try a different power outlet or adapter.
Device or charger feels hot during charging.	• Normal operation (slight warmth). • Overheating protection activated.	• A slight warmth is normal. If it becomes excessively hot, charging will automatically stop. • Ensure the charger is placed in a well-ventilated area. Remove any cases that might trap heat.

Specifications

Feature	Detail
---------	--------

Feature	Detail
Model Number	GY-L7
Brand	Voice-tank
Connectivity Technology	Magnetic-Wireless
Connector Type	USB Type C
Wattage	15 Watts (Max)
Output Current	2 Amps
Output Voltage	9 Volts
Compatible Devices	iPhone 12/13/14/15/16/17 Series, AirPods 2/3/Pro/Pro 2
Material	Aluminum, ABS Plastic, Rubber
Item Weight	0.17 Kilograms
Special Features	15W Fast wireless charging, Smart protection, Sleep-friendly light, 360° rotation

Maintenance

- **Cleaning:** Use a soft, dry cloth to clean the surface of the charging stand. Do not use abrasive cleaners or immerse the device in water.
- **Storage:** Store the charger in a cool, dry place away from direct sunlight and extreme temperatures.
- **Cable Care:** Avoid bending or kinking the USB-C cable excessively to prevent damage.

Warranty and Support

The Voice-tank Magnetic Wireless Charger Stand (Model GY-L7) comes with a**360-day limited warranty** from the date of purchase. This warranty covers manufacturing defects under normal use. For warranty claims, technical support, or any inquiries, please contact Voice-tank customer service through the retailer where you purchased the product or visit the official Voice-tank store on Amazon: [Voice-tank Amazon Store](#).
