

VOCOLinc VT2202

VOCOLinc Air Tag Tracker User Manual

Model: VT2202 | Brand: VOCOLinc

1. INTRODUCTION

The VOCOLinc Air Tag Tracker is a compact Bluetooth key finder designed to help you locate lost items quickly and efficiently. Compatible exclusively with Apple's Find My app, this device leverages the extensive Find My network to track your belongings both nearby and far away. Its lightweight design, replaceable battery, and IP65 water resistance make it a reliable companion for everyday items such as keys, wallets, bags, and luggage.

This manual provides essential information on setting up, operating, and maintaining your VOCOLinc Air Tag Tracker to ensure optimal performance and longevity.

2. KEY FEATURES

- **Find Far Away:** Utilizes the Apple Find My network to locate items outside Bluetooth range.
- **Find Nearby:** Bluetooth range up to 60 meters (200 feet) with an 80-100 dB built-in speaker for audible alerts.
- **Compact and Lightweight:** Dimensions of 3.6cm x 3.6cm x 0.75cm (1.4in x 1.4in x 0.29in) and a weight of only 10g.
- **Easy Pairing:** Simple setup process via the Apple Find My app.
- **IP65 Water Resistant:** Provides protection against water splashes and dust.
- **Replaceable Battery:** Powered by a CR2032 coin cell battery, easily replaceable when low.
- **Left-Behind Alerts:** Receive immediate notifications if your item disconnects from your iOS device's Bluetooth range.
- **iOS Compatibility:** Works exclusively with iOS devices (iPhone, iPad, Mac). Not compatible with Android.
- **Share Item Functionality (iOS 17+):** Share item location with up to 5 borrowers.

3. SETUP GUIDE

3.1 Package Contents

Verify that your package contains the following items:

- VOCOLinc Air Tag Tracker (2 pieces)
- CR2032 Batteries (pre-installed or included)
- User Manual (this document)

3.2 Compatibility

The VOCOLinc Air Tag Tracker is compatible only with iOS devices (iPhone, iPad, Mac) running iOS 14.5 or later. It does not function with Android devices.

3.3 Initial Pairing

Follow these steps to pair your VOCOLinc Air Tag Tracker with your iOS device:

1. Ensure your iOS device has Bluetooth enabled and the Find My app is accessible.
2. Open the **Find My** app on your iOS device.
3. Tap on the **"Items"** tab at the bottom of the screen.
4. Tap **"Add Item"** (usually a "+" icon) and then select **"Other Supported Item"**.
5. Press and hold the button on your VOCOLinc Air Tag Tracker for approximately 10 seconds until you hear a confirmation sound. This resets the tag and prepares it for pairing.
6. Follow the on-screen instructions in the Find My app to complete the pairing process.
7. Once paired, you can name your item and assign an emoji to it for easy identification.

4. OPERATING INSTRUCTIONS

4.1 Locating Items Nearby (Bluetooth Range)

When your VOCOLinc Air Tag Tracker is within Bluetooth range (up to 60 meters or 200 feet) of your iOS device, you can use the Find My app to locate it:

1. Open the **Find My** app.
2. Go to the **"Items"** tab.
3. Select the VOCOLinc Air Tag Tracker you wish to locate.
4. Tap **"Play Sound"**. The tracker will emit a loud sound (80-100 dB) to help you pinpoint its location.
5. Alternatively, you can ask Siri to find your item by saying, for example, "Hey Siri, find my keys."

Image: An iPhone screen showing the Find My app interface with a map and options to "Play Sound" and get "Directions" for a tracked item. Below, a VOCOLinc tracker attached to keys is shown emitting sound waves, indicating it's being located nearby.

4.2 Locating Items Far Away (Find My Network)

If your item is lost outside of Bluetooth range, the Apple Find My network can help you locate it:

1. Open the **Find My** app.
2. Go to the **"Items"** tab.
3. Select the VOCOLinc Air Tag Tracker associated with your lost item.
4. The app will display the item's last known location on a map.
5. If the item is detected by another device on the Find My network, its updated location will appear.
6. You can also enable **"Notify When Found"** to receive an alert when your item is located by the network.

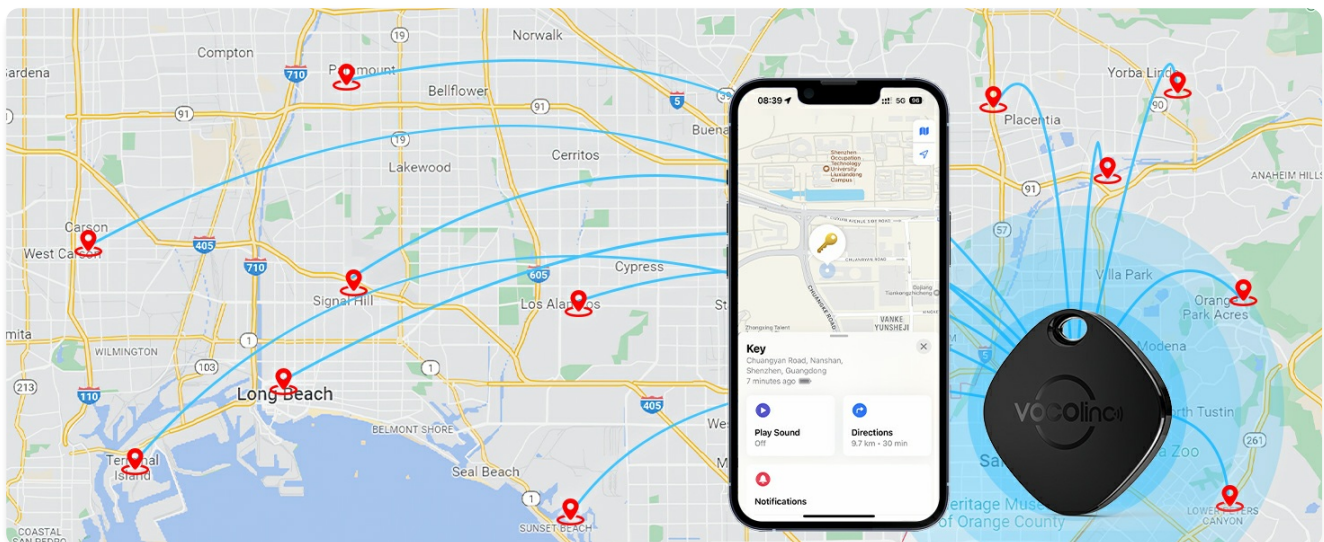

Image: A map showing the global Apple Find My network with numerous iOS devices (represented by small red pins) contributing to locating a VOCOLinc Air Tag Tracker, which is highlighted on the map. An iPhone displays the Find My app with the tracker's location.

4.3 Left-Behind Alerts

The VOCOLinc Air Tag Tracker can notify you if you leave an item behind:

- In the Find My app, select your tracker.
- Under "Notifications," enable **"Notify When Left Behind"**.
- You can also set up "New Location" exceptions where you don't want to be notified (e.g., your home).

- If your item disconnects from your iOS device's Bluetooth range, you will receive an immediate notification on your device.

Image: A visual representation of the "Left Behind" alert feature. An iPhone displays a notification stating "Your 'Key' was left behind 20 minutes ago." Below, a VOCOLinc tracker attached to keys is shown on a table, while a person walks away from a door, illustrating the scenario where the item is forgotten.

4.4 Sharing Items (iOS 17+)

With iOS 17 or later, you can share your VOCOLinc Air Tag Tracker with others:

- Ensure your iOS device is updated to iOS 17 or newer.
- In the Find My app, select the item you wish to share.
- Tap **"Share This Item"** and follow the prompts to invite up to 5 people.
- Shared users can view the item's location on a map without receiving tracking notifications when the item moves with them.

5. MAINTENANCE

5.1 Battery Replacement

The VOCOLinc Air Tag Tracker uses a standard CR2032 coin cell battery, which is replaceable. The Find My app will notify you when the battery is low.

To replace the battery:

1. Locate the small groove on the side of the tracker.
2. Carefully open the tracker by twisting the two halves or using a small tool to pry it open at the groove.
3. Remove the old CR2032 battery.
4. Insert a new CR2032 battery with the positive (+) side facing up.
5. Align the two halves of the tracker and press them firmly together until they click into place.

Utilizzare "Dov'è " per associare, non Bluetooth.

			
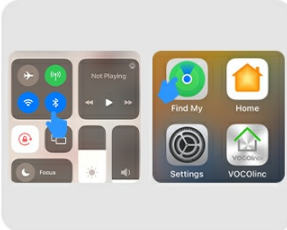

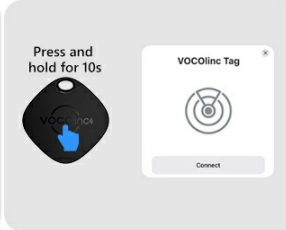

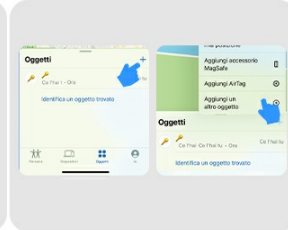

1: attiva l'app "Trova la mia" e "Bluetooth".	2. Tocca "Aggiungi elemento" situato nella parte inferiore del menu "Elemento", quindi seleziona "Altri elementi supportati"	3. Premere e tenere premuto il pulsante per 10 secondi per ripristinare il tag VOCOLinc e associarlo al telefono una volta che il ripristino ha avuto esito positivo.	4. Per l'abbinamento successivo con altri elementi, toccare "+" e poi "Aggiungi altro elemento" per accoppiare.

Image: A diagram illustrating how to replace the CR2032 battery in the VOCOLinc Air Tag Tracker. It shows the tracker opened with the battery slot and a new CR2032 battery being inserted.

5.2 Cleaning and Care

- Wipe the tracker with a soft, dry cloth to remove dust and dirt.
- Avoid using harsh chemicals or abrasive cleaners.
- While the tracker is IP65 water resistant, avoid submerging it in water or exposing it to strong jets of water.

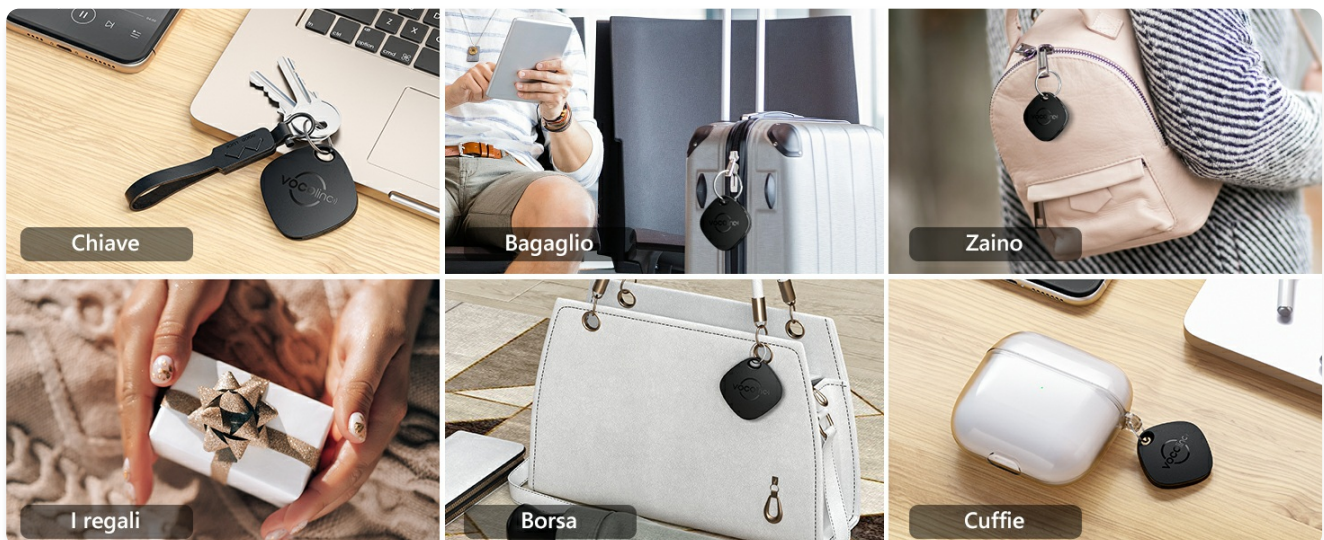

Image: A VOCOLinc Air Tag Tracker attached to keys, placed near a sink with water splashing, demonstrating its IP65 water resistance.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
Cannot pair the tracker.	Bluetooth is off; iOS version is too old; tracker not in pairing mode; battery low.	Ensure Bluetooth is on. Update iOS to 14.5+. Press and hold the tracker button for 10 seconds to enter pairing mode. Replace battery.
Tracker not making sound.	Tracker is out of Bluetooth range; battery is dead.	Move closer to the tracker. Replace the battery.
Location not updating.	Tracker is out of range of any Find My network device; tracker battery is dead.	Ensure the tracker is in an area where it can be detected by other iOS devices. Replace the battery.
Left-behind alerts not working.	Feature not enabled in Find My app; location services disabled for Find My.	Enable "Notify When Left Behind" in the Find My app. Ensure Location Services are enabled for Find My.
