SETUP AND ASSEMBLY

The LUMISOL Convertible Sleeper Sofa Bed arrives in multiple packages and requires assembly. All necessary tools and detailed instructions are included. It is recommended that two people perform the assembly.

Carefully unpack all components. Attach the plastic feet to the base of the sofa sections. For the pull-out section, attach the wheels. While pilot holes may not be present, guides indicate the correct placement for screwing in the wheels with a screwdriver.

Step 2: Connect Sofa Sections

Align the sofa sections and connect them using the pre-installed brackets. One bracket slides in from the top to secure the sections together. The chaise section can be placed on either the left or right side to suit your room layout. Having an additional person to help lift and align the sections is beneficial.

Step 3: Attach Back Cushions

Slide the backrests into the bracket holes in the base. The back cushions attach using zippers for a secure fit.

- **Difficulty extending sleeper bed:** Ensure no obstructions are present beneath the pull-out section. Check that the straps are pulled evenly.
