Aililan Rechargeable Hand Warmers (Model W001) - Instruction Manual

Model: W001 | Brand: Aililan

INTRODUCTION

The Aililan Rechargeable Hand Warmers provide portable warmth with a magnetic 2-in-1 design, three heat settings, and a long-lasting rechargeable battery. These hand warmers are designed for comfort and convenience in cold conditions.

WHAT'S IN THE BOX

- Two Hand Warmers
- One-to-two charging cable
- Instruction manual

PRODUCT FEATURES

The Aililan Hand Warmers offer several key features for optimal performance:

- **2-in-1 Magnetic Design:** The hand warmers can be used as a single unit or separated into two independent heating devices, held together by magnetic attraction for easy storage and portability.
- **Three-Second Quick Heat:** Rapid heating ensures warmth is available almost instantly.
- **Rechargeable Battery:** Equipped with a 5200mAh battery (total for the pair), providing up to 12 hours of warmth.
- **Three Temperature Levels:** Adjustable heat settings (105.8°F - 114.8°F - 125.6°F) to suit different comfort needs.
- **Compact and Portable:** Small size (3.33 x 1.8 x 0.69 inches) and lightweight (2.08 ounces per unit) for easy carrying in pockets or gloves.

SETUP

1. **Initial Charge:** Before first use, fully charge both hand warmers using the provided one-to-two charging cable. Connect the USB-A end to a compatible power adapter (not included) and the two USB-C ends to each hand warmer.
2. **Charging Indication:** During charging, the indicator lights will be blue. All three indicators will be blue when fully charged.

OPERATING INSTRUCTIONS

1. **Power On/Off:** Press and hold the power button on the top of the hand warmer for three seconds to turn it ON or OFF. When powered on, the indicator lights will show orange.
2. **Adjusting Heat Levels:** Each short press of the power button will cycle through the three heat levels:
 - **Level 1 (Low):** 105.8°F (one orange light) - Up to 12 hours of use.
 - **Level 2 (Medium):** 114.8°F (two orange lights) - Up to 9.5 hours of use.
 - **Level 3 (High):** 125.6°F (three orange lights) - Up to 7 hours of use.

3. **Checking Battery Level:** Double-tap the power button to check the current battery level. The indicator lights will temporarily turn blue to show the charge status (1-3 lights indicating 30%-60%-100% respectively).

CHARGING

The Aililan Hand Warmers are rechargeable via the included one-to-two USB-C charging cable. This allows both units to be charged simultaneously from a single USB power source.

- Connect the USB-C ends of the cable to the charging ports on each hand warmer.
- Connect the USB-A end to a compatible USB power adapter (e.g., wall charger, computer USB port, power bank).
- Charging time is approximately 3.3 hours for a full charge.

BATTERY LEVEL ALERT

To check the power level, double-tap the power button. The indicator lights will briefly illuminate blue to show the remaining battery capacity:

- One blue light: Approximately 30% battery remaining.

- Two blue lights: Approximately 60% battery remaining.
- Three blue lights: 100% battery remaining (fully charged).

When the hand warmer's battery is low during use, the indicator lights on both sides of the power button will blink to signal that it needs recharging.

SAFETY INFORMATION

- Always ensure the hand warmers are fully charged before initial use.
- Select an appropriate heat level to avoid discomfort or burns, especially with prolonged skin contact.
- Keep the hand warmers away from open flames or other heat sources.
- Do not puncture, disassemble, or expose the battery to extreme temperatures.
- Supervise children when using the device.

MAINTENANCE

- Clean the surface of the hand warmers with a soft, dry cloth. Do not use abrasive cleaners or immerse in water.
- Store the hand warmers in a cool, dry place when not in use.
- Charge the devices periodically if stored for extended periods to maintain battery health.

TROUBLESHOOTING

If you encounter issues with your Aililan Hand Warmers, consider the following:

- **Device not turning on:** Ensure the battery is charged. Press and hold the power button for at least 3 seconds.
- **Not heating sufficiently:** Check the selected heat level. Ensure the device is fully charged.
- **Charging issues:** Verify the charging cable is securely connected to both the hand warmer and the power source. Try a different USB power adapter.
