PWRMobile H304

PWR Travel PRO 5-in-1 Power Bank User Manual

Model: H304

INTRODUCTION

The PWR Travel PRO 5-in-1 Power Bank is a compact and versatile portable charging solution designed to keep your devices powered on the go. With a robust 10,000mAh battery capacity, it offers multiple charging options including built-in cables, 15W wireless charging, and 20W USB-C fast charging. This manual provides essential information for the safe and efficient use of your power bank.

WHAT'S IN THE BOX

Please check the contents of your package to ensure all items are present:

- 1x Travel Pro 5-in-1 Power Bank
- 3x International Adapters (EU, AU, UK/ASIA - US adapter is built-in)
- 1x Quick Start User Guide

SETUP

Before first use, it is recommended to fully charge your PWR Travel PRO Power Bank.

Charging the Power Bank

1. **Using the Built-in Wall Plug:** Extend the built-in US wall plug. Plug the power bank directly into a standard wall outlet.
2. **Using International Adapters:** If you are in a region requiring a different plug type (EU, AU, UK/ASIA), select the appropriate adapter from the box. Slide the adapter onto the built-in US plug until it clicks securely into place. Then, plug the power bank into the wall outlet.
3. The digital display on the power bank will show the charging status and battery percentage. Charge until it reaches 100%.

Wireless Charging

Endless Adventure

10,000 mAh

Stay connected without limits with PWR Mobile. Our power bank offers seamless wireless charging, ensuring your devices stay powered wherever you roam. With a long-lasting battery never worry about losing connection when you need it most.

OPERATING INSTRUCTIONS

The PWR Travel PRO offers multiple ways to charge your devices.

Wired Charging

The power bank features built-in USB-C and Lightning cables, as well as a USB-A output port.

1. **Using Built-in Cables:** Pull out the integrated USB-C or Lightning cable from its storage slot. Connect the appropriate cable directly to your device's charging port.
2. **Using USB-A Output:** If your device requires a USB-A connection, use your own USB-A charging cable. Plug one end into the USB-A output port on the power bank and the other end into your device.
3. The power bank will automatically begin charging your device. The digital display will show the remaining battery percentage.

Wireless Charging (Qi Compatible)

The power bank supports 15W wireless charging for Qi-compatible devices.

1. Ensure the power bank is sufficiently charged.
2. Place your Qi-compatible device (e.g., smartphone, earbuds case) directly onto the wireless charging pad located on the top surface of the power bank.
3. Align your device centrally on the pad for optimal charging. The power bank's digital display may indicate wireless charging activation.

Ultimate Convenience **Charge 5 Devices** Simultaneously

Stay fully charged on the go with PWR Mobile.

Our power bank lets you charge up to 5 devices simultaneously, ensuring you're always connected. With built-in cables and wireless charging, it's the ultimate travel companion.

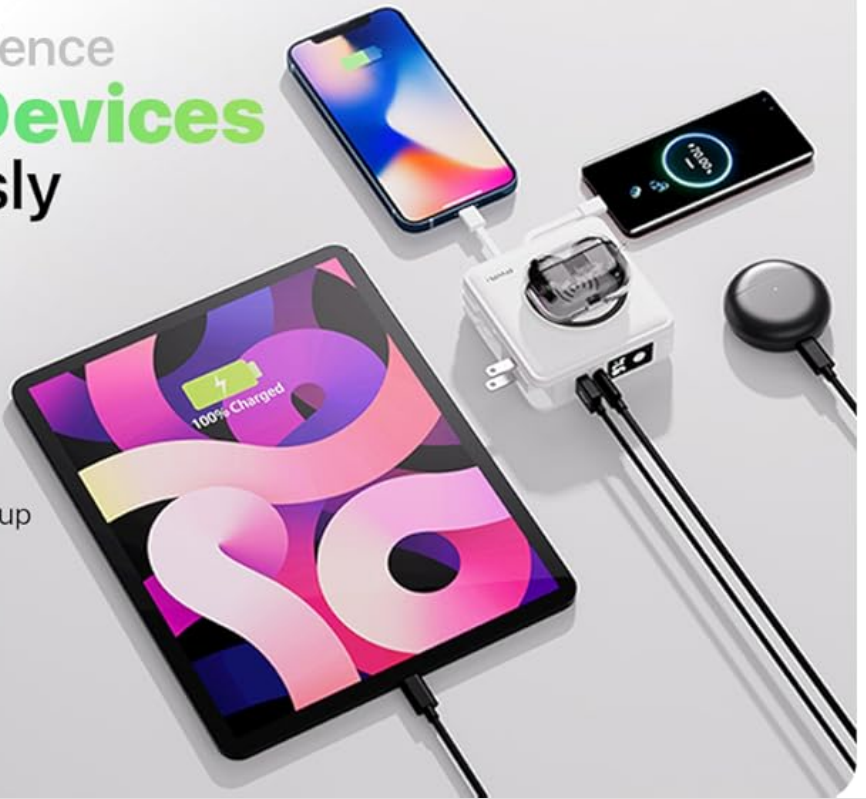

Image: A collage of three images illustrating the wireless charging capability, including a phone being charged wirelessly, the power bank charging a phone both wirelessly and via cable, and a close-up of the wireless charging pad.

Charging Multiple Devices Simultaneously

The PWR Travel PRO can charge up to 5 devices concurrently using a combination of its built-in cables, USB-A port, and wireless charging pad.

Charge 5 devices

at the same time

PWR+

Empowering your journey

Unlock Limitless Power on the Go

Your Ultimate Travel Companion.

Elevate every journey with our innovative power solutions designed for modern travelers. Experience seamless charging, global compatibility and unrivaled reliability.

Join us and empower your adventures today.

Image: A visual representation of the power bank's ability to charge five devices at once, highlighting its versatility for various electronic gadgets.

Note: Charging multiple devices simultaneously may affect the charging speed for individual devices, especially if they require high power input.

Digital Display

The integrated digital display provides real-time information about the power bank's battery level and charging status. A percentage indicates the remaining battery capacity.

MAINTENANCE

Proper care and maintenance will extend the lifespan of your power bank.

- **Cleaning:** Use a soft, dry cloth to wipe the surface of the power bank. Do not use liquid cleaners or abrasive materials.
- **Storage:** Store the power bank in a cool, dry place away from direct sunlight, extreme temperatures, and humidity.
- **Battery Care:** To maintain battery health, fully charge the power bank at least once every three months if not in regular use. Avoid fully depleting the battery frequently.
- **Handling:** Do not drop, disassemble, or attempt to repair the power bank yourself. This can damage the device and void the warranty.

TROUBLESHOOTING

If you encounter issues with your PWR Travel PRO Power Bank, please refer to the following common solutions:

Problem	Possible Cause / Solution
---------	---------------------------

Problem	Possible Cause / Solution
Power bank is not charging.	<p>Ensure the power bank is securely plugged into a working wall outlet.</p> <p>Verify the wall outlet is active by testing with another device.</p> <p>Check if the correct international adapter is firmly attached (if applicable).</p>
Device is not charging from the power bank.	<p>Ensure the power bank has sufficient charge (check digital display).</p> <p>Verify the charging cable (built-in or external) is securely connected to both the power bank and your device.</p> <p>Try a different charging cable or port on the power bank.</p> <p>For wireless charging, ensure your device is Qi-compatible and correctly aligned on the charging pad. Remove any thick cases that might interfere.</p>
Slow charging speed.	<p>Charging multiple devices simultaneously can reduce individual charging speeds.</p> <p>Ensure your device supports fast charging protocols (e.g., PD 20W for USB-C) to utilize the power bank's full capabilities.</p> <p>Check if the cable used is suitable for fast charging.</p>
Wireless charging is inconsistent or not working.	<p>Ensure your device is centered on the wireless charging pad.</p> <p>Remove any metal objects, credit cards, or very thick cases from your device.</p> <p>Some devices, like Apple Watch, may not be supported by the wireless charging pad.</p> <p>Ensure the power bank's digital display is active before placing the device on the pad.</p>
Power bank does not support pass-through charging.	<p>This model is designed to charge devices from its internal battery. It does not support charging itself and external devices simultaneously from a wall outlet. Charge the power bank fully first, then use it to charge your devices.</p>

SPECIFICATIONS

Feature	Detail
Model Number	H304
Battery Capacity	10,000 Milliamp Hours (mAh)
