6. MAINTENANCE

To ensure the longevity and optimal performance of your VersaCheck software, consider the following maintenance tips:

- **Software Updates:** Regularly check for and install software updates to benefit from new features, security enhancements, and bug fixes.
- **Data Backup:** Periodically back up your financial data and check templates to prevent data loss.
- **System Scans:** Ensure your computer's antivirus and anti-malware software is up-to-date and performs regular scans.

7. TROUBLESHOOTING

If you encounter issues with your VersaCheck X1 Silver software, try the following steps:

- **Installation Issues:** If the software fails to install, ensure your system meets the minimum requirements and temporarily disable any antivirus software that might interfere with the installation process. Re-enable antivirus after installation.
- **Printing Problems:** Verify your printer is correctly connected, has sufficient ink/toner, and the correct paper

type is loaded. Check printer settings within the VersaCheck software.

- **Software Not Responding:** Close and restart the application. If the issue persists, restart your computer.
- **Error Messages:** Note down any error messages displayed and refer to the online support resources or contact customer support for specific guidance.
- **Print Credits:** If you are unable to print due to insufficient print credits, ensure you have purchased VersaCheck Check Refills (not ValueChex) which include additional print codes.
