## LOUISWARE NLEDG-001

# LOUISWARE LED Flashlight Gloves

Model: NLEDG-001 (Battery-Upgrade Version)

Instruction Manual

## 1. INTRODUCTION

Thank you for choosing LOUISWARE LED Flashlight Gloves. These gloves are designed to provide convenient, hands-free illumination for various tasks, enhancing visibility in low-light conditions. The integrated LED lights on the thumb and index finger allow for precise lighting exactly where you need it, making them ideal for repairing, DIY projects, fishing, camping, and other activities.

## 2. SAFETY INFORMATION

- Do not look directly into the LED lights to avoid eye strain or temporary vision impairment.
- Keep batteries out of reach of children. If swallowed, seek immediate medical attention.
- Ensure correct battery polarity during installation to prevent damage to the device.
- Do not expose the gloves to extreme temperatures or open flames.
- While the gloves are designed to be daily waterproof, avoid prolonged submersion in water.

## 3. PACKAGE CONTENTS

- 1 Pair of LOUISWARE LED Flashlight Gloves (batteries installed)
- 2 x CR2016 Button Batteries (extra)

## 4. SETUP AND BATTERY INSTALLATION

Your LOUISWARE LED Flashlight Gloves come with batteries pre-installed. If replacement is needed, follow these steps:

1. Locate the battery compartment on the back of the glove, typically covered by a plastic cap with an ON/OFF switch.
2. Carefully unscrew the small screw on the battery compartment cover using a suitable screwdriver.
3. Remove the cover and the old CR2016 button batteries.

4. Insert two new CR2016 button batteries, ensuring the positive (+) side faces upwards.
5. Replace the cover and secure it with the screw.

**Figure 1: Easy Battery Replacement.** This image illustrates the correct method for replacing the CR2016 button batteries in your LOUISWARE LED Flashlight Gloves. The left side shows the correct orientation and insertion of the battery, while the right side shows an incorrect method where the battery is placed directly on the circuit board without the proper housing.

## 5. OPERATING INSTRUCTIONS

To use your LED Flashlight Gloves:

1. Slide your hand into the glove. The elastic fabric and adjustable wrist strap ensure a comfortable and secure fit.
2. Locate the ON/OFF button on the back of the glove, near the wrist.
3. Press the button once to turn on the LED lights. The lights are positioned on the thumb and index finger to illuminate your work area.
4. Press the button again to turn off the LED lights.

The gloves provide a strong, focused light at your fingertips, making tasks in dark or confined spaces much easier. They are also daily waterproof, suitable for various environments.

**Figure 2: Strong Light at Your Fingertips.** This image demonstrates the bright illumination provided by the LED lights on the glove, highlighting its utility during activities like night fishing.

# FREE UP YOUR HANDS No Flashlight Anymore

Figure 3: Free Up Your Hands. This image illustrates the hands-free convenience of the LED flashlight gloves, allowing a user to work on plumbing without needing to hold a separate flashlight.

## Applications

These gloves are versatile for both indoor and outdoor use:

# FOR OUTDOOR USE

**Figure 4: For Outdoor Use.** This collage shows the gloves being used in various outdoor settings, including camping, fishing, walking a dog, cycling, and running, demonstrating their utility for nighttime activities.

# FOR INDOOR USE

**Figure 5: For Indoor Use.** This collage illustrates the gloves' usefulness for indoor tasks such as intricate repairs, reading in low light, soldering, and working on computer components.

## Product Videos

### LOUISWARE LED Flashlight Gloves - Applications and Features

This video demonstrates various applications of the LOUISWARE LED Flashlight Gloves, including working, fishing, reading, and repairing. It also shows the easy battery replacement process and highlights the hands-free design.

### LED Flashlight Gloves, Hands Free Lights for repairs & DIY

Your browser does not support the video tag.

This video showcases the LED flashlight gloves providing hands-free illumination for repairs and DIY tasks, emphasizing their practical use in various scenarios.

## 6. MAINTENANCE

- **Cleaning:** Gently wipe the gloves with a damp cloth. Do not machine wash or tumble dry, as this may damage the electronic components.
- **Storage:** Store the gloves in a cool, dry place away from direct sunlight when not in use.

- **Battery Replacement:** Refer to Section 4 for detailed instructions on replacing the CR2016 button batteries.

## 7. TROUBLESHOOTING

- **Lights not turning on:**
  - Check if the batteries are correctly installed with the positive (+) side facing up.
  - Replace the batteries with new CR2016 button batteries.
  - Ensure the ON/OFF switch is fully pressed.
- **Lights are dim:**
  - The batteries may be low. Replace them with new CR2016 button batteries.
- **Glove does not fit comfortably:**
  - Adjust the wrist strap for a more secure or looser fit. The elastic material is designed to accommodate various hand sizes.
