

LOVMOR Individual Pull Out Cabinet Organizer

LOVMOR 2-Tier Pull-Out Cabinet Organizer Instruction Manual

Model: Individual Pull Out Cabinet Organizer (25.5"W x 21.5"D)
Brand: LOVMOR

INTRODUCTION

This manual provides comprehensive instructions for the assembly, installation, operation, and maintenance of your LOVMOR 2-Tier Pull-Out Cabinet Organizer. Please read all instructions carefully before beginning installation to ensure proper setup and safe use of the product.

PRODUCT FEATURES

- **Space Maximization:** Designed to optimize storage in base cabinets, providing easy access to items.
- **Smooth and Durable Operation:** Features heavy-duty 100 lbs full-extension ball-bearing slides for quiet and effortless gliding.
- **Adjustable Tiers:** Both upper and lower shelves offer 2 height adjustment options for versatile storage.
- **Independent Operation:** Upper and lower wire baskets can be opened and closed independently.
- **Robust Construction:** Made from stainless steel, offering rust resistance and durability.
- **Easy Installation:** Includes a mounting template and necessary hardware for straightforward setup.

DIMENSIONS AND CABINET REQUIREMENTS

The LOVMOR 2-Tier Pull-Out Cabinet Organizer has the following dimensions:

Product Dimensions: 21.5"D x 25.5"W x 15"H

To ensure proper fit, your cabinet must meet the following minimum interior dimensions:

Minimum Cabinet Inner Width: 28" (measured from hinge)

Minimum Cabinet Inner Depth: 22"

Minimum Cabinet Inner Height: 16"

Size Detail

Note: Both of upper and lower shelf has 2 height adjustment option

PACKAGE CONTENTS

Please verify that all components are present before beginning assembly:

- 2-Tier Pull-Out Frame
- Upper Wire Basket
- Lower Wire Basket
- Full-Extension Ball-Bearing Glides (pre-attached to frame)
- Mounting Template
- Screws for Installation

SAFETY INFORMATION

- Always ensure the cabinet organizer is securely mounted to prevent tipping or instability.

- Do not exceed the maximum recommended load capacity of 100 pounds.
- Keep small parts and packaging materials away from children to prevent choking hazards.
- Wear appropriate safety gear, such as gloves and eye protection, during installation.
- If using power tools, follow the manufacturer's safety guidelines.

INSTALLATION GUIDE

Assembly of the pull-out cabinet organizer is required. Follow these steps for a successful installation:

1. **Prepare the Cabinet:** Ensure the cabinet interior is clean and clear of any obstructions. Verify that your cabinet meets the minimum dimension requirements.
2. **Assemble the Frame:** Attach the side supports to the base frame using the provided screws. Ensure all connections are secure.
3. **Attach Glides:** The full-extension ball-bearing glides are typically pre-attached. If not, follow the specific instructions for attaching them to the frame.
4. **Position Mounting Template:** Place the provided mounting template on the floor of your cabinet. Fold the template along the dotted line to fit the front edge of the cabinet.
5. **Mark and Drill Pilot Holes:** Use the template to mark the locations for the pilot holes. Pre-drill 6 holes (2.5mm) as indicated on the template.
6. **Secure the Frame:** Position the assembled organizer frame inside the cabinet, aligning the screw holes with the pre-drilled holes. Secure the frame to the cabinet floor using the provided screws.
7. **Insert Baskets:** Slide the upper and lower wire baskets onto the glides. Ensure they click securely into place. Test the smooth operation of both baskets.

OPERATION

To use your LOVMOR 2-Tier Pull-Out Cabinet Organizer, simply pull the desired basket forward. The full-extension glides allow the baskets to slide completely out of the cabinet, providing full visibility and easy access to all stored items. Push the basket back into the cabinet until it is fully recessed.

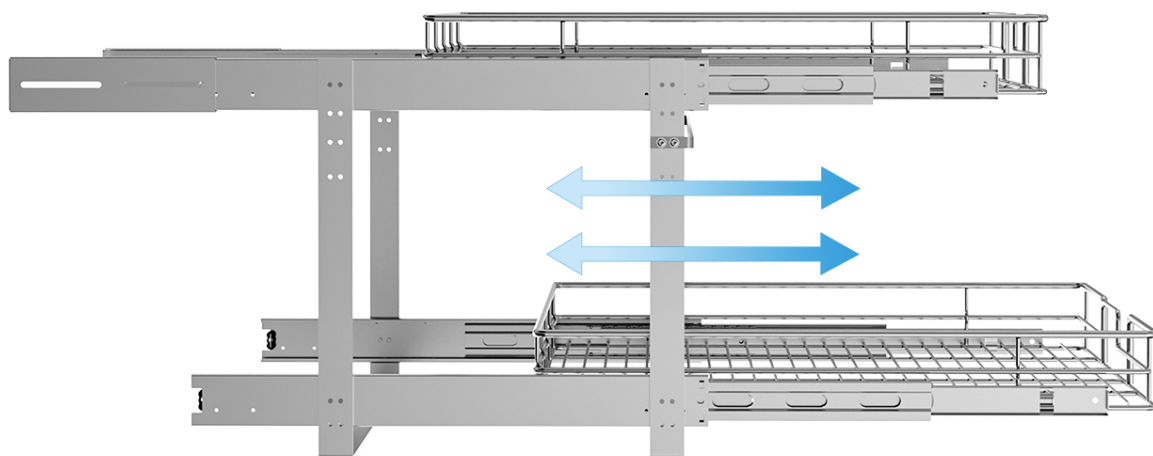

Figure 5: Full Extension Feature. The shelves pull out completely for easy reach.

MAINTENANCE

To maintain the longevity and smooth operation of your cabinet organizer:

- **Cleaning:** Wipe down the stainless steel baskets and frame with a soft, damp cloth and mild detergent. Avoid abrasive cleaners or scouring pads that could scratch the surface.
- **Glide Lubrication:** Periodically check the ball-bearing glides for any debris. If the glides become stiff, apply a small amount of silicone-based lubricant to ensure continued smooth operation.
- **Inspection:** Regularly inspect all screws and connections to ensure they remain tight. Tighten any loose fasteners as needed.

TROUBLESHOOTING

- **Baskets not sliding smoothly:** Check for any obstructions on the glides or within the cabinet. Ensure the glides are clean and free of debris. Lubricate the glides if necessary. Verify that the frame is installed level and securely.
- **Organizer feels wobbly:** Ensure all mounting screws are tightened securely to the cabinet floor. Check that the frame assembly is firm and all internal screws are tight.
- **Baskets not locking in place:** Ensure the baskets are fully pushed back into the cabinet until they engage with the soft-close mechanism (if applicable). Check for any bent wires or misaligned glides.

SPECIFICATIONS

Brand	LOVMOR
Model Number	Individual Pull Out Cabinet Organizer
Product Dimensions	21.5"D x 25.5"W x 15"H
