SETUP GUIDE

1. Charging the Mouse

Before first use, fully charge the mouse. Connect the provided USB-C to USB-A charging cable to the mouse's charging port and a power source (e.g., computer USB port, USB wall adapter). A full charge takes approximately 2-3 hours and provides up to 60 days of standby time or 5 days of working time.

500mAh
Charging Mouse

Energy Storage Strength Support Charging While Using

Energy-saving low-power chip, support charging while using, always Give a strong endurance strength

2. Connecting the Mouse

Your Guiheng mouse supports two connection modes: 2.4G Wireless via USB receiver and Bluetooth 5.2.

2.1. 2.4G Wireless Connection

1. Locate the USB receiver stored in the compartment at the bottom of the mouse.
2. Plug the USB receiver into an available USB port on your computer or device.
3. Turn on the mouse using the power switch located on the bottom. Ensure the switch is set to the 2.4G mode (usually indicated by a specific icon or position).
4. The mouse should automatically connect to your device. No additional drivers are required.

Image: The underside of the mouse, clearly showing the storage slot for the USB receiver.

2.2. Bluetooth Connection

1. Turn on the mouse and switch the mode selector on the bottom to the Bluetooth mode (usually indicated by a Bluetooth icon).
2. On your device (laptop, tablet, phone), go to Bluetooth settings.
3. Search for new devices. The mouse should appear as "Guiheng Mouse" or a similar name.
4. Select the mouse to pair. Once paired, the mouse is ready for use.

To switch between connected devices (e.g., between 2.4G and Bluetooth, or between two Bluetooth devices), simply press the mode switch button at the bottom of the mouse.

OPERATING YOUR MOUSE

Basic Functions

The mouse features standard left and right click buttons, and a scroll wheel that also functions as a middle click. The silent click design ensures a quiet user experience, reducing 90% of click noise.

DPI Adjustment

The mouse features an adjustable DPI (Dots Per Inch) setting, allowing you to change cursor sensitivity.

Press the DPI button (usually located behind the scroll wheel) to cycle through available DPI settings. This allows you to customize the mouse's responsiveness to your preference for different tasks.

LED Lighting

The mouse is equipped with colorful LED lighting effects that change randomly while in use. These breathing lights create a dynamic and visually appealing atmosphere. Please note that the LED colors cannot be set to a specific static color.

MAINTENANCE AND CARE

- **Cleaning:** Use a soft, dry cloth to clean the mouse. For stubborn dirt, slightly dampen the cloth with water or a mild cleaning solution. Avoid harsh chemicals or abrasive materials.
- **Battery Care:** To prolong battery life, avoid fully discharging the mouse frequently. Recharge it when the battery indicator is low. Do not expose the mouse to extreme temperatures.
- **Storage:** When not in use for extended periods, turn off the mouse to conserve battery. Store the USB receiver inside its designated slot to prevent loss.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Mouse not responding	Low battery; Incorrect connection mode; USB receiver not plugged in (2.4G); Bluetooth not paired.	Charge the mouse; Ensure correct mode (2.4G/BT) is selected; Re-insert USB receiver; Re-pair Bluetooth.
Cursor movement is erratic or slow	Low battery; Dirty optical sensor; Unsuitable surface; DPI setting too low.	Charge the mouse; Clean the optical sensor; Use on a smooth, non-reflective surface; Adjust DPI setting.
LED lights not working	Mouse is off or in sleep mode; Malfunction.	Turn on or wake up the mouse; If problem persists, contact support.
Cannot switch between devices	Incorrect button press.	Ensure you are pressing the mode switch button on the bottom of the mouse.
