Legami My Super Power Portable Charger, Kitty - User Manual

Model: POW0024

1. INTRODUCTION

Thank you for purchasing the Legami My Super Power Portable Charger. This device is designed to provide convenient portable power for your electronic devices. Please read this manual carefully before use to ensure proper operation and to maximize the lifespan of your product.

This portable charger features a 4800 mAh capacity, an integrated lithium-ion battery with overcharge protection, and a USB Type-C connection for charging the power bank and your devices. Its compact design makes it suitable for travel, including being cabin approved for air travel.

2. IMPORTANT SAFETY INSTRUCTIONS

To prevent damage to the product or injury to yourself or others, please observe the following safety precautions:

- Do not expose the power bank to water, moisture, or extreme temperatures.
- Keep the device away from direct sunlight, heat sources, and open flames.
- Do not attempt to disassemble, repair, or modify the power bank. This will void the warranty and may cause harm.
- Avoid dropping or subjecting the device to strong impacts.
- Do not use the power bank if it is visibly damaged, swollen, or leaking.
- Keep out of reach of children.
- Dispose of the product responsibly according to local regulations for electronic waste.

- **Charging Port:** Used to recharge the power bank itself.
- **Output Port:** Used to connect and charge your external devices.
- **Indicator Lights:** (If applicable, typically show battery level or charging status. No specific details provided, so general description.)

5. SETUP: CHARGING THE POWER BANK

Before first use, fully charge your Legami My Super Power Portable Charger. It takes approximately 4 hours to fully charge the power bank.

1. Connect the supplied USB Type-C cable to the charging port on the power bank.
2. Connect the other end of the USB Type-C cable to a compatible USB power adapter (not included) or a

computer's USB port.

3. The indicator lights (if present) will illuminate or flash to show that the power bank is charging.
4. Once fully charged, all indicator lights will typically be solid, or the lights will turn off. Disconnect the power bank from the power source.

6. OPERATING: CHARGING YOUR DEVICES

To charge your smartphone or other compatible electronic devices:

1. Ensure the portable charger is adequately charged.
2. Connect your device's charging cable (or the supplied USB Type-C cable if compatible) to the output port of the power bank.
3. Connect the other end of the cable to your device.
4. Your device should begin charging automatically. Monitor your device's screen for charging indication.
5. Once your device is fully charged, disconnect it from the power bank.

7. CARE AND MAINTENANCE

Proper care will extend the life of your portable charger:

- **Cleaning:** Use a soft, dry cloth to clean the surface of the power bank. Do not use harsh chemicals or abrasive cleaners.
- **Storage:** Store the power bank in a cool, dry place away from direct sunlight and extreme temperatures. If storing for extended periods, charge the power bank to about 50% every three months to maintain battery health.
- **Battery Life:** The integrated lithium-ion battery has a limited number of charge cycles. Over time, its capacity will gradually decrease.

8. TROUBLESHOOTING

If you encounter issues with your portable charger, refer to the following common problems and solutions:

Problem	Possible Solution
Power bank is not charging	Ensure the charging cable is securely connected to both the power bank and the power source. Try a different USB power adapter or USB port. Verify the power source is active.
Device is not charging from power bank	Ensure the power bank is charged. Check that the cable connecting the power bank to your device is secure and functional. Try a different cable or device.
Slow charging	Ensure you are using a high-quality charging cable. Some devices may charge slower due to their input requirements or the power bank's output specifications.
Power bank gets warm during use	It is normal for the power bank to become slightly warm during charging or discharging. If it becomes excessively hot, disconnect it immediately and contact customer support.
