

Chemical Guys ACC504

Chemical Guys ACC504 Mr. Sprayer Foamer: User Instruction Manual

MODEL: ACC504

Brand: Chemical Guys

Introduction

The Chemical Guys Mr. Sprayer Foamer is designed to simplify your cleaning tasks by delivering a continuous mist of cleaning foam. This tool is suitable for various applications, including automotive care, outdoor cleaning, and gardening. Its unique pump and lock system, combined with an adjustable nozzle, allows for tailored foam application, from a gentle mist to a thick foam stream.

What's in the Box

- 50oz HDPE bottle
- Foaming sprayer assembly
- Foaming nozzle
- 4 replacement parts

Setup

The Mr. Sprayer Foamer is designed for easy, tool-free assembly and disassembly for cleaning and maintenance.

1. **Assembly:** Ensure all components, including the foaming sprayer assembly, foaming nozzle, and straw, are securely attached to the 50oz HDPE bottle.
2. **Filling:** Unscrew the top pump assembly. Fill the bottle with your desired foaming product and water mixture. Do not overfill. The large opening facilitates easy filling.

3. **Pressurizing:** Securely reattach the pump assembly. Pump the handle several times to build pressure inside the bottle. The pump mechanism is designed to reduce finger fatigue.

Operating Instructions

The Mr. Sprayer Foamer is designed for versatile use across various cleaning tasks.

1. **Pumping and Spraying:** After pressurizing, press the trigger to release a continuous mist of foam. The trigger can be locked for extended spraying without constant squeezing.
2. **Adjustable Nozzle:** The nozzle can be adjusted to switch between a fine mist and a thick foam stream, allowing you to customize the foam application based on the cleaning area and desired coverage.
3. **Versatile Application:** Use the foamer for cleaning wheels, tires, leather, fabric, floor mats, undercarriage, and other outdoor or gardening applications.

SIMPLY PUMP ***& SPRAY***

Video 2: Shows the application of foam using a pump foam sprayer on various parts of a car, including wheels and body panels.

Maintenance

Proper maintenance ensures the longevity and optimal performance of your Mr. Sprayer Foamer.

- **Rinsing:** After each use, empty any remaining product and fill the bottle with clean water. Pump and spray the clean water through the nozzle to flush out any residue.
- **Cleaning Nozzle:** Periodically check the nozzle for clogs. Disassemble the nozzle and rinse thoroughly with water if necessary.
- **Storage:** Store the foamer in a cool, dry place away from direct sunlight. Release any remaining pressure before storing.

Troubleshooting

| Problem | Possible Cause | Solution |
|-----------------------------|---|--|
| Weak or no foam | Insufficient pressure; Clogged nozzle; Incorrect product dilution | Pump more to build pressure; Clean the nozzle; Adjust product-to-water ratio. |
| Leaking from pump or nozzle | Loose connections; Damaged O-rings/seals | Tighten all connections; Replace O-rings/seals using provided replacement parts. |
| Difficulty pumping | Air valve issue; Pump mechanism obstruction | Check the air release valve; Ensure pump rod moves freely. |

Specifications

- **Manufacturer:** Chemical Guys
- **Brand:** Chemical Guys
- **Model:** Mr. Sprayer Foamer
- **Item Weight:** 1.1 pounds
- **Product Dimensions:** 6.38 x 6.38 x 11.63 inches
- **Item Model Number:** ACC504
- **Manufacturer Part Number:** ACC504
