Kohler 10541-2MB

KOHLER K-10541-2MB Traditional 18-inch Grab Bar User Manual

PRODUCT OVERVIEW

The KOHLER K-10541-2MB Traditional 18-inch Grab Bar is designed to provide safe and sturdy support in bathroom environments. Featuring smooth, rounded contours, this ADA-compliant grab bar is suitable for various bathroom decors. Its 18-inch length offers a comfortable grip, and its high-quality metal construction ensures long-term durability and reliability. The Vibrant Brushed Moderne Brass finish is engineered to resist corrosion and tarnishing.

SAFETY INFORMATION

Important: Read all instructions before installation and use. Failure to follow these instructions may result in injury or product damage.

- Ensure the grab bar is installed securely into structural blocking or wall studs. Do not install into drywall alone.

- Verify the wall structure can support the weight of the user and the forces applied to the grab bar.
- Regularly inspect the grab bar for any signs of looseness, damage, or wear. Tighten fasteners as needed.
- This product is intended for support and balance assistance only. Do not use it for climbing or as a swing.
- Keep children away from the installation area during setup.

PACKAGE CONTENTS

The package for the KOHLER K-10541-2MB Grab Bar includes:

- One (1) KOHLER K-10541-2MB Traditional 18-inch Grab Bar
- Installation template
- Mounting hardware (screws, anchors if applicable)

Color/Finish:	Vibrant Brushed Moderne Brass
Item Weight:	1.65 pounds
Product Dimensions:	20.79"L x 2.8"W
Style:	Traditional
UPC:	195711030207

SETUP AND INSTALLATION

Proper installation is critical for the safety and functionality of your grab bar. If you are unsure about any step, it is recommended to consult a qualified professional.

1. **Prepare the Area:** Determine the desired mounting location. Ensure there are wall studs or adequate structural blocking behind the wall surface at the chosen height and spacing for the grab bar. Use a stud finder to locate studs.
2. **Mark Mounting Holes:** Use the provided installation template to mark the precise locations for drilling holes. Ensure the marks are level.
3. **Drill Pilot Holes:** Drill pilot holes at the marked locations using a drill bit appropriate for your wall material and mounting hardware.
4. **Install Mounting Hardware:** Insert any necessary wall anchors (if not mounting directly into studs) and then align the grab bar with the drilled holes.
5. **Secure the Grab Bar:** Fasten the grab bar securely to the wall using the provided screws. Ensure all screws are tightened firmly. Do not overtighten.
6. **Test Stability:** After installation, apply firm, downward pressure to the grab bar to ensure it is rigidly mounted and does not move.

Note: Installation tools are included with the product to assist with this process.

OPERATING INSTRUCTIONS

The KOHLER K-10541-2MB Grab Bar is designed for straightforward use. Simply grasp the bar firmly to provide support and stability when entering, exiting, or moving within the shower, bathtub, or other bathroom areas. Always ensure a secure grip before applying weight.

MAINTENANCE

To maintain the appearance and functionality of your KOHLER grab bar:

- **Cleaning:** Clean the grab bar regularly with a soft, damp cloth and mild soap. Avoid abrasive cleaners, harsh chemicals, or scouring pads, as these can damage the Vibrant Brushed Moderne Brass finish.
- **Finish Protection:** KOHLER finishes are designed to resist corrosion and tarnishing. Promptly wipe away any water spots or residue to preserve the finish.
- **Inspection:** Periodically check all mounting screws to ensure they remain tight. If any looseness is detected, re-tighten immediately to prevent accidents.

TROUBLESHOOTING

If you encounter any issues with your grab bar, consider the following:

- **Grab Bar Feels Loose:** This is the most critical issue. Immediately cease using the grab bar if it feels loose. Check all mounting screws and tighten them firmly. If the problem persists, the installation may need to be re-evaluated by a professional to ensure it is secured to adequate structural support.
- **Finish Appears Dull:** Ensure you are cleaning the grab bar with appropriate mild cleaners and a soft cloth. Hard water spots or soap residue can dull the finish. Refer to the Maintenance section for proper cleaning instructions.

WARRANTY AND SUPPORT

For specific warranty information regarding your KOHLER K-10541-2MB Traditional 18-inch Grab Bar, please refer to the documentation included with your purchase or visit the official Kohler website. For technical assistance, replacement parts, or further support, please contact Kohler customer service directly.
