AutoSky ADC-777

AutoSky 4K Dash Cam Car Camera User Manual

Model: ADC-777 | Brand: AutoSky

1. Introduction

This manual provides detailed instructions for the installation, operation, and maintenance of your AutoSky 4K Dash Cam Car Camera. Designed to capture every detail of your journeys, this dash cam offers advanced features for enhanced security and peace of mind on the road.

Key features include crystal-clear 4K Ultra HD recording, built-in WiFi and GPS for smart tracking, enhanced night vision technology, G-Sensor for impact detection, and seamless loop recording. A 64GB memory card is included to get you started immediately.

2. What's in the Box

Upon unboxing your AutoSky 4K Dash Cam, verify that all components listed below are present:

- AutoSky 4K Dash Cam Unit
- Car Mount
- Car Charger
- User Manual
- Cable Clip (multiple)
- Warranty Card
- 64GB MicroSD Card

3. Setup and Installation

3.1 Inserting the Memory Card

Locate the microSD card slot on the dash cam. Gently insert the included 64GB microSD card until it clicks into place. Ensure the card is inserted correctly to prevent damage and ensure proper recording.

3.2 Mounting the Dash Cam

Clean the chosen area on your windshield thoroughly. Attach the car mount to the dash cam, then firmly press the mount onto the windshield. Adjust the camera angle to ensure a clear view of the road ahead, avoiding obstruction of your driving view.

3.3 Power Connection

Connect the car charger to the dash cam's power input and plug the other end into your vehicle's 12V power outlet (cigarette lighter socket). Use the provided cable clips to neatly route the power cable along the windshield trim to avoid interference with driving.

4. Operating Instructions

4.1 Powering On/Off

The dash cam will automatically power on and begin recording when your vehicle's ignition is turned on. It will power off automatically when the ignition is turned off.

4.2 4K Ultra HD Recording

The AutoSky Dash Cam records in stunning 4K Ultra HD resolution, capturing license plates and intricate details with unparalleled precision. This ensures clear and reliable video evidence.

4.3 G-Sensor for Impact Detection

The built-in G-Sensor automatically detects sudden impacts or collisions. When an event is detected, the dash cam instantly locks and safeguards the relevant footage, preventing it from being overwritten during loop recording.

4.4 Seamless Loop Recording

When the memory card reaches full capacity, the dash cam's loop recording feature seamlessly overwrites the oldest unlocked files with new recordings. This ensures continuous and worry-free recording without manual intervention.

4.5 Enhanced Night Vision

Drive with confidence at night thanks to advanced sensors that deliver sharp, clear video even in low-light conditions. The enhanced night vision technology illuminates the road for improved visibility in recordings.

4.6 Built-in WiFi and GPS with Mobile App Control

Connect your dash cam to your smartphone via the dedicated mobile app using built-in WiFi. This allows you to view live footage, download recordings, and share files with ease. The integrated GPS records your speed and location, providing crucial data for your journeys.

5. Maintenance

- **Cleaning:** Regularly wipe the camera lens with a soft, lint-free cloth to ensure clear recordings. Avoid abrasive cleaners.
- **Memory Card:** Format the microSD card periodically (e.g., once a month) using the dash cam's settings to maintain optimal performance and prevent data corruption.
- **Firmware Updates:** Check the AutoSky website or mobile app for any available firmware updates to ensure your dash cam has the latest features and bug fixes.

6. Troubleshooting

- **Camera not powering on:** Ensure the car charger is securely connected to both the dash cam and the vehicle's power outlet. Check the vehicle's 12V outlet for power.
- **Recording issues:** Ensure the microSD card is properly inserted and has sufficient free space. Try formatting the card. If issues persist, try a different compatible microSD card.
- **WiFi connection problems:** Ensure the dash cam's WiFi is enabled. Restart both the dash cam and your smartphone. Refer to the app's connection guide for detailed steps.
- **GPS signal loss:** Ensure the dash cam has a clear view of the sky. Obstructions like tinted windows or metallic coatings can interfere with GPS signals.

For more detailed troubleshooting or technical support, please refer to the full user manual or contact AutoSky customer service.

7. Specifications

Feature	Detail
Product Dimensions	1.5 x 3.75 x 3 inches
Item Weight	12.3 ounces
Connectivity Technology	Wi-Fi
Special Features	Built-In WiFi, G-Sensor, Parking Monitor, App Control, Built-In GPS
