EGO Power+ WDV0904

EGO Power+ 9 Gallon Wet/Dry Vacuum Instruction Manual

Brand: EGO Power+

Model: WDV0904

PRODUCT OVERVIEW

The EGO POWER+ 9 Gallon Wet/Dry Vacuum is engineered for powerful and efficient cleaning. Featuring a brushless motor, it delivers 110 CFM of suction for a 100-inch lift, making it suitable for various cleaning tasks. Its design incorporates convenient onboard storage for accessories and multiple power modes for versatile operation.

KEY FEATURES

- **Brushless Motor:** Delivers 110 CFM of powerful suction for 100-inch lift.
- **Onboard Storage:** Conveniently stores nozzles, extensions, and hose for easy organization.
- **Extended Runtime:** Operates up to 60 minutes on ECO mode, 30 minutes on high, or 20 minutes on turbo with the included 56V 5.0Ah ARC Lithium™ battery.
- **Large Capacity:** Features a 9-gallon tank capacity.
- **Filter Cleaning Function:** Maintains filter cleanliness for maximum suction and efficiency.
- **Multiple Power Modes:** Includes Low, High, and Turbo modes, controllable onboard or via a wireless remote.
- **Comprehensive Accessories:** Comes with two extension tubes, a crevice nozzle, round brush dust nozzle, large floor nozzle and brush bar, rubber bar, and a 1-7/8-inch compact floor nozzle and hose.

SETUP

Unboxing and Initial Assembly

Upon unboxing, ensure all components are present. The main unit comes largely pre-assembled. You will need to attach the filter and connect the hose and desired accessories.

OPERATING INSTRUCTIONS

Powering On and Mode Selection

To power on the unit, press the power button located on the control panel. Once powered on, you can select between Low, High, and Turbo modes using the speed button. The Turbo mode provides maximum suction for demanding tasks.

Wireless Remote Control

The included wireless remote allows for convenient control of the vacuum's power modes and on/off function from a distance. This is particularly useful when cleaning large areas or inside vehicles.

Wet and Dry Operation

The vacuum is designed for both wet and dry clean-up. For dry vacuuming, ensure the filter is properly installed. For wet vacuuming, the filter cleaning function helps maintain efficiency. Always empty the tank after wet use to prevent odors and maintain hygiene.

MAINTENANCE

Filter Cleaning

Regularly use the integrated filter cleaning function to dislodge debris from the filter, ensuring optimal suction performance. For thorough cleaning, remove the filter and tap it against a hard surface or rinse it with water if heavily soiled (allow to dry completely before reinstallation).

Tank Emptying

After each use, especially after wet vacuuming, empty the 9-gallon tank. The drain plug at the bottom of the unit facilitates easy liquid disposal. For dry debris, detach the motor head and dispose of contents responsibly.

TROUBLESHOOTING

If the vacuum experiences reduced suction, check the filter for clogs and use the filter cleaning function. Ensure the tank is not full and the hose and attachments are free of obstructions. Verify the battery is fully charged and properly seated. For persistent issues, consult the full user manual or contact EGO Power+

customer support.

SPECIFICATIONS

Feature	Specification
Brand	EGO Power+
Model Name	Wet/Dry Vacuum (WDV0904)
Special Feature	Wet/Dry
Filter Type	Cloth
Is Cordless?	Yes
Capacity	9 Gallons
Wattage	560 watts
Runtime (with 5.0Ah battery)	Up to 60 minutes (ECO), 30 minutes (High), 20 minutes (Turbo)
Maximum Suction	110 CFM (100-inch lift)
Hose Length	1-7/8-inch diameter hose
Product Dimensions	24.41"L x 16.54"W x 24.61"H
Item Weight	35.4 pounds
Controller Type	Remote Control
Number of Speeds	3 (Low, High, Turbo)
