TROUBLESHOOTING

- **Connection Failure:** Ensure the official original controller is connected to the Monster adapter. Third-party

controllers may not be compatible for initial authentication.

- **Input Lag/Unresponsiveness:**
 - Check all cable connections for secure fit.
 - Ensure the Monster adapter firmware is updated to the latest version via the GEEKVICE App.
 - For PS5, verify that the network cable is securely connected and the console is on the same local network.
 - Test with different keyboards and mice from the compatible list on the official website.
- **App Connection Issues:**
 - Ensure your mobile device's Bluetooth is enabled and the app has necessary permissions.
 - Restart the GEEKVICE App and the Monster adapter.
- **Specific Game Issues:** Some games may have anti-cheat systems that detect adapter usage. This is not a defect of the product.
- **"Left stick repeat pressing up motion":** If you experience this bug, restart the adapter to restore normal functionality. Ensure firmware is up to date.

If issues persist, please contact AIMZENIX customer support for one-on-one assistance.
