2. SAFETY INFORMATION

Please read and follow these safety guidelines to ensure the well-being of your pets and household.

- **Anti-Tip Kit:** Always attach the cat tree to a wall using the included anti-tip kit. This is crucial for stability, especially for active cats or multi-cat households.
- **Pompom and Elastic Band Safety:** If your cat attempts to chew or ingest the pompom toys or elastic bands, remove them immediately and keep them out of reach to prevent choking hazards.
- **Rounded Corners:** The platforms are designed with rounded corners to minimize the risk of injury to both pets and humans.

- **Placement:** Place the cat tree on a flat, stable surface. Avoid placing it near windows without proper securing, or in high-traffic areas where it could be easily bumped.
- **Regular Inspection:** Periodically check all screws and connections to ensure they remain tight and secure. Loose parts can compromise stability.

3. PACKAGE CONTENTS

Before assembly, verify that all components listed below are present in your package:

- 1 x Feandrea Cat Tree (disassembled components)

- 1 x Accessory Kit (screws, tools, etc.)
- 1 x Anti-Tip Kit (wall anchor, strap)
- 1 x Instruction Manual (this document)

4. SETUP AND ASSEMBLY

Assembly of the Feandrea Cat Tree UPCT193X01 typically requires two people and approximately 1 hour. Follow the step-by-step diagrams provided in the included accessory kit instructions for detailed guidance.

General Assembly Steps:

1. Unpack all components and verify against the package contents list.
2. Identify all parts and hardware. It is recommended to lay them out in an organized manner.
3. Begin by assembling the base structure, ensuring all connections are secure but not overtightened initially.
4. Proceed with attaching the vertical posts and platforms according to the numerical sequence in the diagram.
5. Install the cat caves, hammocks, and other accessories as indicated.
6. Once the main structure is complete, securely tighten all screws.
7. Install the anti-tip kit by attaching the strap to the cat tree and securing it to a wall stud or using a suitable wall anchor.

5. OPERATING AND USAGE

The Feandrea Cat Tree provides a variety of features designed to meet your cat's natural instincts for play, rest, and exploration.

- **Observing:** The top perch offers an elevated vantage point for cats to survey their surroundings.
- **Playing:** Integrated pompoms and a sisal rope provide interactive play opportunities.
- **Sleeping:** Two enclosed caves offer private, secure spaces for rest, with one cave being particularly spacious for larger cats.
- **Lounging:** Two soft baskets provide comfortable spots for napping and relaxation.
- **Scratching:** Four sisal-covered posts allow cats to satisfy their natural urge to scratch, helping to protect your furniture.
- **Grooming:** A self-groomer is included for convenient self-care.
- **Exploration:** A tunnel provides an additional element for play and hiding.

6. MAINTENANCE

Regular cleaning and maintenance will extend the life of your cat tree and ensure a hygienic environment for your pets.

- **Cushion Cleaning:** The plush cushions are removable and washable. For daily care, brush them to remove loose fur. For deep cleaning, remove and hand wash or machine wash on a gentle cycle with mild detergent. Air dry completely before reattaching.
- **Surface Cleaning:** The veneered surfaces can be wiped clean with a damp cloth to remove hair and dirt. Avoid harsh chemicals that may damage the finish or be harmful to pets.
- **Sisal Posts:** Inspect sisal scratching posts for wear. While durable, heavily worn posts may need

replacement over time to maintain their effectiveness.

- **General Inspection:** Periodically check for any loose parts, frayed ropes, or damaged components. Tighten screws as needed.

7. TROUBLESHOOTING

This section addresses common issues you might encounter with your cat tree.

- **Cat Tree Wobbles:** Ensure all screws are securely tightened. Verify that the anti-tip kit is properly installed and anchored to a wall stud or appropriate wall anchor. Place the tree on a level surface.
- **Creaking Noises:** Creaking can occur if connections are not fully tightened. Re-tighten all assembly

screws. If the issue persists, ensure the tree is not under uneven stress from an unlevel floor.

- **Cats Not Using Scratching Posts:** Try enticing your cat with catnip sprayed on the sisal posts. Ensure the posts are stable and do not wobble when scratched.
- **Hanging Toys Damaged/Removed:** The hanging toys are designed for play but may be removed by active cats. These can be replaced with similar cat-safe toys if desired.
- **Difficulty Reaching Top Levels (for larger cats):** Some larger or less agile cats may find certain jumps challenging. Consider adding a small, stable step stool nearby or repositioning the tree to allow easier access from adjacent furniture if necessary.
