## 4. Maintenance

---

### 4.1 Cleaning

- Wipe the remote control with a soft, dry cloth.
- Do not use abrasive cleaners, solvents, or alcohol, as these can damage the surface and labels.

### 4.2 Battery Replacement

- Replace batteries when the remote control's response becomes sluggish or stops working.
- Always replace both batteries at the same time with new alkaline batteries of the same type (AAA).
- Do not mix old and new batteries, or different types of batteries.
- Remove batteries if the remote control will not be used for an extended period to prevent leakage.

### 4.3 Storage

- Store the remote control in a cool, dry place away from direct sunlight and extreme temperatures.

## 5. Troubleshooting

---

If the remote control is not functioning as expected, please try the following steps:

- **Remote not responding:**
  - Ensure there is a clear line of sight between the remote control and the speaker system. Obstacles can block the infrared signal.
  - Check the batteries. Replace them with new AAA alkaline batteries if they are old or depleted.
  - Verify that the batteries are inserted with the correct polarity.
- **Limited range:**
  - Ensure the batteries are fresh. Weak batteries can reduce the remote's effective range.
  - Minimize interference from strong light sources (e.g., direct sunlight, fluorescent lights) that might affect infrared signals.
