Nachukan B0CMJBC4TP

Nachukan Portable Heated Hand Muff User Manual

Model: B0CMJBC4TP

INTRODUCTION

Thank you for purchasing the Nachukan Portable Heated Hand Muff. This device is designed to provide warmth and comfort to your hands during cold weather. It features USB heating for convenience and is made from soft, skin-friendly materials. Please read this manual carefully before using the product to ensure safe and optimal performance.

SAFETY INFORMATION

- Do not use the hand muff if it is wet or damp.
- Do not puncture, cut, or disassemble the heating element.
- Keep out of reach of children and pets when in use.
- Do not use while sleeping or in situations where you cannot monitor the temperature.
- Only use a 5V USB power source. Do not exceed the specified voltage.
- Disconnect from power when not in use or before cleaning.
- If you experience any discomfort or overheating, discontinue use immediately.

PRODUCT OVERVIEW

The Portable Heated Hand Muff is a plush, thickened pouch designed to keep your hands warm. It integrates a USB-powered heating element for efficient warmth.

Components:

- Main Hand Muff Unit (Red, Plush Polyester Fiber)
- Integrated USB Heating Element
- USB Power Cable (attached or included)

Image: Front view of the Nachukan Portable Heated Hand Muff in red, featuring soft white plush cuffs on both ends.

Image: A close-up view showing the USB power cable neatly tucked into a zippered pocket on the side of the hand muff, ready for connection.

SETUP

1. **Unpack:** Carefully remove the hand muff from its packaging.
2. **Locate USB Cable:** Find the integrated USB power cable, usually stored in a small zippered pocket on the side of the muff.
3. **Connect to Power:** Plug the USB cable into a compatible 5V USB power source, such as a power bank, computer USB port, or a USB wall adapter (not included).
4. **Placement:** Once connected, the heating element will begin to warm up. You can now place your hands inside the muff.

OPERATING INSTRUCTIONS

The Nachukan Portable Heated Hand Muff is designed for simple operation.

1. **Power On:** Once connected to a 5V USB power source, the heating element will automatically activate and begin to

warm. There is no separate power button.

2. **Insert Hands:** Place both hands into the muff through the plush openings. The internal heating element will provide warmth.
3. **Power Off:** To turn off the heating, simply disconnect the USB cable from the power source.

Image: A person wearing a winter coat is shown holding the red heated hand muff, demonstrating its use in an outdoor, cold environment.

Heated Hand Muff

Different from the traditional electric hot water bag, does not contain a drop of water, no water safer

Image: A woman is shown relaxing in bed, using the heated hand muff to keep her hands warm, highlighting its comfort and versatility for indoor use.

MAINTENANCE

Cleaning Instructions:

- **Disconnect Power:** Always ensure the hand muff is disconnected from any power source before cleaning.
- **Spot Clean Only:** Due to the integrated heating element, the hand muff should not be submerged in water or machine washed. Spot clean only with a damp cloth and mild detergent.
- **Air Dry:** Allow the hand muff to air dry completely before reconnecting to power or storing. Do not use a dryer or direct heat.
- **Storage:** Store in a cool, dry place away from direct sunlight when not in use.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Hand muff not heating.	Not connected to power, or power source is insufficient.	Ensure USB cable is securely plugged into a working 5V USB power source. Try a different USB port or power bank.
Intermittent heating.	Loose connection or faulty USB cable/port.	Check all connections. Try a different USB cable if detachable, or a different power source.
Muff feels too hot.	Prolonged use or incorrect power source.	Immediately disconnect from power. Ensure you are using a standard 5V USB power source. Allow to cool before re-use.
