Bewinner DLP Link 3D Glasses User Manual

Model: Bewinnercoky9nq0bd

INTRODUCTION

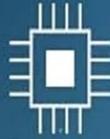

Thank you for choosing Bewinner DLP Link 3D Glasses. These active shutter 3D glasses are designed to provide an immersive 3D viewing experience with compatible DLP Link projectors. Featuring a high 144Hz refresh rate, they ensure clear images without ghosting or flickering. The lightweight design offers comfort for extended viewing sessions.

Compatible with All DLP Projectors

Can't support Blue-tooth projects, like Epson, Sony

DLP

WHAT'S INCLUDED

The package includes the following items:

- Bewinner DLP Link 3D Glasses (2 pairs)
- Micro USB Data Cable (2 cables)
- Glasses Cleaning Cloth (2 cloths)
- Storage Pouch (2 pouches)

Image: Contents of the package, including two pairs of glasses and accessories.

SETUP

1. **Charging the Glasses:** Before first use, fully charge the 3D glasses using the provided Micro USB data cable. Connect the cable to the charging port on the glasses and a standard USB power source. The charging indicator will show the charging status. A full charge provides approximately 45 hours of continuous usage.
2. **Powering On:** Press the power button located on the glasses to turn them on.
3. **Pairing with Projector:** The glasses are designed to automatically synchronize with DLP Link compatible projectors. Ensure your projector is set to output a DLP Link 3D signal.

Image: Charging the 3D glasses and battery life information.

OPERATING INSTRUCTIONS

1. **Wearing the Glasses:** Place the glasses comfortably on your face.
2. **Automatic Synchronization:** Once powered on and within range of a DLP Link 3D projector displaying 3D content, the glasses will automatically synchronize to display the 3D effect.
3. **Left/Right Eye Rotation:** If the 3D effect does not appear correctly (e.g., image looks inverted or distorted), press the power button again briefly. This action rotates the left/right eye view, which can correct synchronization issues and optimize the 3D experience.
4. **Automatic Standby and Power-Off:** For energy efficiency, the glasses feature an automatic 5-second standby mode when no 3D signal is detected and will power off after 5 minutes of inactivity.

Left/Right One Button Switching

Very convenient, no need to operate the projector

Left eye mode

Right eye mode

Brighter and Clearer

DLP 3D glasses with high light transmittance and high contrast ratio, the picture is more clear and splendid.

Image: Enhanced brightness and clarity of the 3D image.

Enjoy an immersive 3D Movie with your AWOL VISION

Problem	Solution
No 3D effect or distorted image	<p>Ensure the glasses are powered on.</p> <p>Verify your projector is a DLP Link compatible model and is outputting a 3D signal.</p> <p>Briefly press the power button on the glasses again to rotate the left/right eye view. This often resolves synchronization issues.</p> <p>Ensure there are no obstructions between the glasses and the projector's 3D emitter.</p>
Glasses do not turn on	<p>Charge the glasses using the Micro USB cable. The battery might be depleted.</p> <p>Ensure the charging cable and power source are functioning correctly.</p>
Short battery life	<p>Ensure the glasses are fully charged before use.</p> <p>Battery performance may decrease over time with repeated charging cycles.</p>

SPECIFICATIONS

- **Model:** Bewinnercoky9nq0bd
- **Compatibility:** All DLP Link Projectors
- **Refresh Rate:** Up to 144Hz
- **Technology:** Active Shutter
- **Battery Life (Usage):** Approximately 45 hours
- **Battery Life (Standby):** Approximately 180 days
- **Automatic Features:** 5-second standby, 5-minute power-off
- **Dimensions:** 8.98 x 5.47 x 3.31 inches (Package)
- **Weight:** 7.7 ounces (Item)
- **Manufacturer:** Bewinner
