## 2. SAFETY INFORMATION

- All foam and upholstered surfaces meet flammability standards.
- Keep the sofa away from open flames or high heat sources to prevent fire hazards.
- Supervise children and pets around the sofa to avoid risks of entrapment or injury.
- Ensure all components are securely fastened during assembly and periodically check for tightness.
- Do not stand or jump on the sofa. It is designed for seating and lounging.

## 3. SETUP AND ASSEMBLY

---

Your WJShome Cloud Modular Sectional Sofa is designed for easy assembly. Each module is shipped in its own box. Follow these steps to assemble your sofa:

1. **Unpack Components:** Carefully remove all parts from their packaging. Ensure all components are present before starting assembly.

2. **Attach Backrest:** For each seat module, screw the long screws into the pre-reserved holes in the backrest, about one-third of the depth. Then, align and insert these screws into the corresponding holes on the seat base.
3. **Secure Backrest:** From the bottom of the seat base, tighten the nuts onto the screws. Tighten each nut repeatedly and gradually to ensure firmness and stability.
4. **Install Legs:** Attach the sofa legs to the bottom of each module.
5. **Apply Slipcovers:** Drape the slipcovers over each assembled module, ensuring a snug fit. Smooth out any wrinkles.
6. **Place Cushions:** Position the seat and back cushions onto the modules. Fluff cushions as needed to achieve desired comfort and appearance.

## 5. CARE AND MAINTENANCE

---

Proper care will extend the life and appearance of your sofa.

### 5.1 Cleaning Instructions

- The covers for each module are removable for easy maintenance.
- The upholstery cleaning code is **W**, indicating that only water-based cleaning agents should be used.
- For minor spills, blot immediately with a clean, dry cloth.
- For deeper cleaning, remove the covers and follow the care instructions on the fabric label. Typically, this involves gentle machine washing or hand washing with a mild detergent.
- Allow covers to air dry completely before reapplying to prevent shrinkage or damage.

### 5.2 General Care

- Regularly fluff and rotate cushions to maintain their shape and even out wear.
- Vacuum the sofa periodically using a soft brush attachment to remove dust and debris.
- Avoid direct sunlight exposure for prolonged periods to prevent fading of the fabric.

## 6. TROUBLESHOOTING

---

If you encounter any issues with your sofa, please refer to the following common solutions:

- **Loose Components:** If any part of the sofa feels wobbly, check all screws and nuts from the assembly section and tighten them as necessary.
- **Cushion Settling:** It is normal for down and foam-filled cushions to settle over time. Regularly fluffing and rotating them will help restore their loft and shape.
- **Fabric Wrinkles:** Minor wrinkles in the slipcovers can often be smoothed out by hand or by gently steaming the fabric.

For issues not covered here or if problems persist, please contact WJShome customer support for assistance.
