watnature 38.7-inch Tall Urn Fountain

watnature 38.7-inch Tall Outdoor/Indoor Water Urn Fountain User Manual

Model: 38.7-inch Tall Urn Fountain

Important Safety Information

Please read all instructions carefully before assembling, installing, or operating your fountain. Keep this manual for future reference.

- **Electrical Safety:** Always disconnect the power supply before performing any maintenance or assembly. Ensure the power cord is not damaged and is placed where it cannot be tripped over or damaged. Use a ground fault circuit interrupter (GFCI) for outdoor use.
- **Water Safety:** Use clean water only. Do not allow children or pets to drink from the fountain. Regularly check water levels to prevent pump damage.
- **Placement:** Place the fountain on a level, stable surface to prevent tipping. Ensure the fountain is not exposed to extreme weather conditions that could cause damage.
- **Handling:** The fountain is made of resin and fiberglass. Handle with care to avoid cracks or breakage.

Product Overview

The watnature 38.7-inch Tall Water Urn Fountain features a modern jar design with contemporary curves and integrated LED lights. Constructed from durable resin and fiberglass, it is designed for both indoor and outdoor use, providing a calming ambiance with its circulating water flow.

Package Contents

Verify that all components are present before beginning assembly:

- Fountain Unit (Urn structure)
- Water Pump
- LED Lights (pre-installed or separate)
- Power Adapter
- Instruction Manual

Assembly and Setup

1. **Unpack Components:** Carefully remove all items from the packaging and place them on a clean, flat surface. Inspect for any damage.
2. **Position the Fountain:** Place the fountain unit in your desired location, ensuring it is on a stable, level surface and near a suitable power outlet.
3. **Connect the Pump:** Locate the water pump and the tubing inside the fountain. Connect the pump to the end of the tubing. Ensure a secure fit.
4. **Connect LED Lights:** If the LED lights are not pre-installed, connect them according to the diagram provided with the light kit. Ensure all electrical connections are dry and secure.
5. **Add Water:** Fill the fountain reservoir with distilled or clean tap water. Ensure the water level is sufficient to completely submerge the pump. Do not overfill.
6. **Adjust Water Speed (Optional):** The pump may have an adjustable flow control switch. Set it to a medium flow initially.
7. **Plug In:** Connect the power adapter to the fountain's power cord, then plug the adapter into a standard electrical outlet. The fountain should begin operating.

Operating Instructions

- **Power On/Off:** Plug the power adapter into an electrical outlet to turn the fountain on. Unplug it to turn the fountain off.
- **Adjust Water Flow:** The pump includes an adjustable flow control. Turn the dial on the pump to increase or

decrease the water flow rate. It is recommended to start with the pump about halfway open to prevent excessive splashing.

- **LED Lights:** The integrated LED lights will illuminate automatically when the fountain is powered on, enhancing the visual appeal, especially in low-light conditions.

Maintenance

- **Water Level:** Check the water level daily, especially in warm weather, and refill as needed to ensure the pump remains fully submerged. Low water levels can damage the pump.
- **Cleaning:** Periodically clean the fountain and pump to prevent mineral buildup and algae growth. Disconnect power, drain the water, and use a soft brush and mild soap to clean surfaces. Rinse thoroughly.
- **Pump Cleaning:** Disassemble the pump (refer to pump manufacturer's instructions if available) and clean any

debris from the impeller and intake screen.

- **Winterization (Outdoor Use):** Before freezing temperatures, disconnect power, drain all water from the fountain and pump. Clean and dry the pump, then store it indoors. Cover the fountain or store it indoors to protect it from ice damage.

Troubleshooting

Problem	Possible Cause	Solution
Fountain not running	No power; Pump clogged; Low water level	Check power connection and GFCI. Clean pump impeller and intake. Add water to submerge pump.

Problem	Possible Cause	Solution
Water flow is weak	Pump clogged; Water level too low; Flow control set too low	Clean pump. Add water. Adjust pump flow control to a higher setting.
Excessive splashing	Water flow too high; Uneven surface	Adjust pump flow control to a lower setting. Ensure fountain is on a level surface.
LED lights not working	Loose connection; Damaged lights	Check all light connections. If lights are damaged, contact customer support for replacement.
Water leakage	Hairline crack; Improper assembly; Seal issue	Inspect fountain for visible cracks. Ensure all connections are tight. If a crack is found, contact customer support.

Specifications

Brand: watnature

Model: 38.7-inch Tall Urn Fountain

Product Dimensions: 13.5"L x 11.4"W x 38.7"H

Material: Resin and Fiberglass

Color: Blue

Power Source: Corded Electric

Special Features: Fade Resistant, Lighted, Rust Resistant, UV Resistant, Weather Resistant
