Fafeicy Industrial Audible Visual Alarm (Model: Fafeicyv4tg7uqopw) Instruction Manual

This manual provides essential information for the safe and effective use of your Fafeicy Industrial Audible Visual Alarm. Please read thoroughly before installation and operation.

Product Overview

The Fafeicy Industrial Audible Visual Alarm is a robust safety device designed for critical environments. It features a powerful 115dB siren and a high-brightness LED strobe light, providing both audible and visual warnings. Constructed from durable aluminum alloy and PVC, it boasts an IP65 rating for water and weather resistance, making it suitable for various indoor and outdoor applications.

Safety Information

- Ensure power is disconnected before installation or maintenance.
- Install the device in a location where the sound and light warnings are clearly visible and audible to all personnel.
- Do not modify the device.
- Use only with the specified power supply (US Plug 110V).
- Keep away from flammable materials.

Package Contents

- 1 x Fafeicy Industrial Audible Visual Alarm

Setup

1. Mounting

The alarm is designed for wall installation. Use appropriate fasteners for your mounting surface. The device is lightweight and compact, allowing for flexible placement.

Image: Side view of the alarm unit, highlighting the pre-drilled mounting holes on the red metal bracket.

2. Power Connection

Connect the alarm to a standard US 110V power outlet. Ensure the power source matches the device's requirements (110V, 50-60Hz).

Video: Demonstration of plugging in the industrial alarm and its immediate activation, showing the strobe light and sound.

Operating Instructions

1. Activation

Once connected to power, the alarm will activate according to its internal settings. The LED strobe light will flash, and the siren will sound.

2. Volume Adjustment

The alarm features a single tone with a maximum sound power of 115dB. Some models may include a volume adjustment knob. Refer to the specific model for details.

Video: A demonstration of the alarm's sound and light output, showcasing its effectiveness and volume adjustment.

3. Strobe Light Function

The high-brightness LED strobe provides a clear visual warning, complementing the audible alarm. It is energy-

efficient and designed for long-term operation.

Maintenance

- **Regular Inspection**: Periodically check the device for any physical damage, loose connections, or obstructions to the horn or light.
- **Cleaning**: Wipe the exterior with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- **Environmental Protection**: The IP65 rating ensures protection against dust and water jets. However, avoid submerging the device.

Troubleshooting

No Power/No Light/No Sound

- Check the power connection and ensure the outlet is functional.
- Verify the power switch (if present) is in the "ON" position.
- Inspect the power cord for damage.

Weak Sound/Light

- Ensure the device is not obstructed.
- Check for any debris in the horn.
- Confirm the power supply is stable.
