Portronics POR-1995

Portronics Luxcell Mini 10K Advanced 10000 mAh Nano Power Bank User Manual

Model: POR-1995 | Brand: Portronics

1. INTRODUCTION

Thank you for choosing the Portronics Luxcell Mini 10K Advanced Power Bank. This ultra-compact and portable power bank is designed to provide reliable and fast charging for your devices on the go. With its 10,000 mAh capacity and 22.5W max output, it ensures your devices stay powered throughout the day. Please read this manual carefully before using the product to ensure proper operation and to maximize its lifespan.

The Portronics Luxcell Mini 10K Power Bank, a compact and portable device, designed for on-the-go charging.

2. PACKAGE CONTENTS

Please check the box for the following items:

- Portronics Luxcell Mini 10K Power Bank (1N)
- Charging Cable (Type C to Type C) (1N)
- User Manual (1N)

3. PRODUCT OVERVIEW

The Portronics Luxcell Mini 10K Power Bank features a sleek design with a transparent casing, allowing you to view its internal components. It is equipped with multiple ports and indicators for convenient use.

- **Mach USB-A Output Port:** Delivers up to 22.5W output for fast charging compatible devices.
- **Type-C PD 3.0 Port:** Functions as both an input (for charging the power bank) and an output (for charging devices) with up to 20W Power Delivery.
- **LED Battery Indicator:** Transparent display shows the remaining power level of the power bank.
- **Wake Up Button:** Activates the power bank and checks the battery status.

4. SETUP AND FIRST USE

Before using your Portronics Luxcell Mini 10K Power Bank for the first time, it is recommended to fully charge it.

1. Charging the Power Bank:

Connect the provided Type-C to Type-C cable (or any compatible Type-C cable) to the Type-C PD 3.0 port on the power bank and the other end to a compatible wall adapter (not included). The LED indicator will show the charging progress. Charge the power bank for approximately 3 hours before its initial use to ensure optimal performance.

2. Checking Battery Level:

Press the 'Wake Up' button once to view the current battery level on the LED indicator.

5. OPERATING INSTRUCTIONS

The Portronics Luxcell Mini 10K Power Bank allows you to charge your devices efficiently.

1. Charging a Single Device:

Connect your device's charging cable to either the Mach USB-A output port or the Type-C PD 3.0 output port on the power bank. The power bank will automatically begin charging your device.

2. Charging Two Devices Simultaneously:

You can charge two devices at once by utilizing both the Mach USB-A and Type-C PD 3.0 output ports. Connect each device to its respective port. The power bank will intelligently distribute power to both devices.

Versatile Dual Charging Powerhouse

Charge **2 Devices**
at Once

The power bank supports simultaneous charging of two devices, demonstrating its dual port functionality.

Universal Compatibility

Android Smartphones & Tablets

The power bank is compatible with a wide range of devices, including Android smartphones and tablets, ensuring versatile charging options.

6. MAINTENANCE AND CARE

To ensure the longevity and optimal performance of your power bank, follow these maintenance guidelines:

- Keep the power bank away from extreme temperatures, direct sunlight, and humid environments.
- Avoid dropping or subjecting the power bank to strong impacts.
- Do not disassemble, modify, or attempt to repair the power bank yourself.
- Clean the power bank with a soft, dry cloth. Do not use harsh chemicals or abrasive materials.
- Store the power bank in a cool, dry place when not in use for extended periods.

7. TROUBLESHOOTING

If you encounter any issues with your Portronics Luxcell Mini 10K Power Bank, please refer to the following common solutions:

- **Power Bank Not Charging:**
Ensure the charging cable is securely connected to both the power bank's Type-C input port and the wall adapter. Verify that the wall adapter is functioning correctly and connected to a live power outlet.
- **Device Not Charging from Power Bank:**
Check if the power bank has sufficient charge. Press the 'Wake Up' button to activate the power bank. Ensure your device's charging cable is properly connected to the power bank's output port and your device. Try using a different cable or port.
- **Slow Charging:**
Ensure your device and cable support fast charging. Some devices or cables may limit charging speed. Check if the power bank itself is fully charged.
- **LED Indicator Not Lighting Up:**
Press the 'Wake Up' button. If it still doesn't light up, the power bank might be completely discharged or require servicing.

For further assistance, please contact Portronics customer support.
