Lift-Top Mechanism

The coffee table features a high-quality metal gas support mechanism for smooth and quiet lifting. To raise the tabletop, gently pull it upwards from the front edge. To lower it, push the tabletop down until it rests securely in its closed position. The mechanism is designed to support up to 166 lbs when in use. The lifting direction can be adjusted based on your preference and room layout during assembly.

Storage Compartments

- **Hidden Compartment:** Located directly beneath the lift-top, this compartment is ideal for storing blankets, snacks, electronic products, or other items you wish to keep out of sight.
- **Open Storage Shelf:** Positioned below the hidden compartment, this shelf provides easily accessible storage for items like laptops, books, or decorative pieces.
- **Drawers:** The two lower drawers offer additional organized storage for smaller items such as chess sets, remote controllers, or small ornaments.

LED Light Strip

The integrated RGB LED light strip can be controlled via a dedicated remote control or through a mobile application. This allows you to select from multiple colors and 29 flashing modes to customize the lighting ambiance.

MAINTENANCE

To maintain the appearance and functionality of your coffee table, follow these guidelines:

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these may damage the finish.
- **Stain Resistance:** Please note that the table is not stain resistant. Promptly clean any spills to prevent staining.
