### 4. SETUP AND ASSEMBLY

Assembly is required for this product. It is recommended for one person to assemble the table. A screwdriver is the only tool recommended for assembly, in addition to any included Allen wrench.

#### Assembly Steps:

1. **Unpack:** Carefully remove all components from the packaging. Lay them out on a clean, soft surface (e.g., a blanket or carpet) to prevent scratches.
2. **Identify Parts:** Match each component to the parts list in your assembly guide. Ensure all hardware is present.
3. **Follow Instructions:** Refer to the step-by-step, numbered instructions provided in your product's specific assembly guide. These instructions will detail the order and method for attaching the metal frame to the engineered wood shelves.
4. **Secure Connections:** Hand-tighten all screws and bolts initially. Once all components are in place, go back and fully tighten all fasteners with the provided Allen wrench and your screwdriver. Do not overtighten.
5. **Attach Foot Pads:** Screw the adjustable foot pads into the bottom of the metal frame.
6. **Final Check:** Gently shake the assembled table to ensure it is stable. Adjust the foot pads as needed to eliminate any wobbling.
