OPERATING INSTRUCTIONS

Hanging Clothes

Utilize the top rod for hanging garments such as shirts, dresses, coats, and pants. The anti-slip stoppers at each end of the rod prevent hangers from sliding off.

Using the Storage Shelf

The bottom mesh shelf is ideal for storing shoes, storage boxes, bags, or other accessories, maximizing your storage space.

Moving the Rack

To move the rack, unlock the two lockable casters. Gently push or pull the rack to its desired location. Once positioned, lock the casters to secure the rack in place.

MAINTENANCE

- **Cleaning:** Wipe down the metal frame and mesh shelf with a soft, damp cloth. Avoid abrasive cleaners that may damage the finish.
- **Regular Checks:** Periodically check all screws and connections to ensure they remain tight. Retighten if necessary to maintain stability.
- **Load Capacity:** Do not exceed the maximum load capacity of 82 pounds to prevent damage or instability.

TROUBLESHOOTING

Rack is Wobbly

Ensure all screws and connections are fully tightened. Verify that the vertical support bars are correctly inserted into the base.

Casters Not Rolling Smoothly

Check for any debris or lint caught in the caster wheels. Clean them if necessary. Ensure the casters are properly attached and not cross-threaded.

Clothes Sliding Off

Confirm that the anti-slip stoppers on the ends of the hanging rod are securely in place.
