

Puig 21650H

Puig NG Touring Windshield for Suzuki GSX-8S (2023 Model)

Model: 21650H

INTRODUCTION

This instruction manual provides detailed guidance for the proper installation, use, and maintenance of your Puig NG Touring Windshield, specifically designed for the Suzuki GSX-8S 2023 motorcycle model. Please read this manual thoroughly before beginning installation to ensure correct assembly and safe operation.

SAFETY INFORMATION

Warning: Improper installation can lead to serious injury or damage to your motorcycle. If you are unsure about any step, consult a qualified motorcycle mechanic.

- Always wear appropriate safety gear, including eye protection, during installation.
- Ensure the motorcycle is stable and securely supported before beginning work.
- Do not overtighten fasteners, as this can strip threads or crack components. Refer to your motorcycle's service manual for specific torque values if available.
- Regularly inspect the windshield and mounting hardware for any signs of wear, damage, or looseness.
- Keep all small parts out of reach of children.

PACKAGE CONTENTS

Verify that all components are present before starting the installation:

- Puig NG Touring Windshield (1 unit)
- Mounting Hardware Kit (all necessary brackets, screws, washers, and spacers)
- Installation Instructions (this manual)

Note: The specific contents of the mounting hardware kit may vary slightly. Refer to the included diagram for a complete list of parts.

INSTALLATION GUIDE

- Preparation:** Park the motorcycle on a level surface and ensure it is stable. Turn off the engine and remove the key. Gather all tools required (e.g., Allen wrenches, screwdrivers).
- Identify Mounting Points:** Locate the designated mounting points on your Suzuki GSX-8S. These are typically around the headlight assembly or handlebar area.
- Attach Brackets:** Secure the provided mounting brackets to the motorcycle using the specified hardware. Do not fully tighten at this stage.

Image 1: Front view of the Suzuki GSX-8S with the Puig NG Touring Windshield. This image illustrates the general appearance of the installed windshield and its integration with the motorcycle's front fairing and headlight area.

- Position Windshield:** Carefully align the Puig NG Touring Windshield with the attached brackets.

Image 2: Top-down view showing the Puig NG Touring Windshield positioned relative to the handlebars and instrument cluster. This perspective helps visualize the rider's view and the windshield's coverage.

- Secure Windshield:** Attach the windshield to the brackets using the remaining hardware. Ensure proper alignment and fitment.

Image 3: Side profile of the Suzuki GSX-8S featuring the Puig NG Touring Windshield. This view highlights the aerodynamic shape and how the windshield extends upwards from the motorcycle's front, offering wind protection.

- Final Tightening:** Once the windshield is correctly positioned, progressively tighten all fasteners. Do not overtighten. Check for any play or looseness.
- Post-Installation Check:** Gently shake the windshield to ensure it is securely mounted. Verify that it does not interfere with steering, controls, or any other motorcycle components.

CARE DURING USE

While the windshield is designed for durability, proper care during use will extend its lifespan and maintain clarity:

- Avoid direct impact with hard objects.
- Do not hang heavy items from the windshield or its mounting points.
- Periodically check all mounting bolts for tightness, especially after riding on rough terrain.

MAINTENANCE AND CLEANING

To keep your Puig NG Touring Windshield in optimal condition:

- **Cleaning:** Use only mild soap and water with a soft, non-abrasive cloth. Avoid harsh chemicals, ammonia-based cleaners, or abrasive materials, as these can scratch or damage the acrylic surface.
- **Drying:** Gently pat dry with a clean, soft cloth to prevent water spots.
- **Inspection:** Regularly inspect the windshield for cracks, deep scratches, or other damage. Check all mounting hardware for corrosion or looseness.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Windshield is loose or vibrates excessively.	Mounting bolts are not sufficiently tightened.	Check and tighten all mounting bolts. Do not overtighten.
Windshield appears scratched or hazy.	Improper cleaning agents or abrasive materials used.	Clean only with mild soap and water using a soft cloth. For existing scratches, specialized acrylic polish may be used for minor imperfections.
Difficulty aligning during installation.	Brackets or windshield not correctly positioned.	Loosen all fasteners, reposition components, and then progressively tighten. Ensure the motorcycle is stable.

PRODUCT SPECIFICATIONS

- Brand:** Puig
- Model:** NG Touring Windshield
- Part Number:** 21650H
- Compatible Motorcycle:** Suzuki GSX-8S (2023 model)
- Material:** 3mm PMMA (Acrylic)
- Color:** Smoky
- Item Weight:** Approximately 2.67 pounds (1.21 kg)
- Package Dimensions:** Approximately 16.46 x 14.06 x 6.77 inches (41.8 x 35.7 x 17.2 cm)

WARRANTY AND SUPPORT
