SETUP

The Macally Wired Keyboard offers plug-and-play functionality, requiring no additional drivers for most Mac operating systems. Simply connect the keyboard to your device using the appropriate USB port.

Connecting the Keyboard

1. Identify the available USB port on your Mac device. The keyboard features a dual-port plug compatible with both USB-A and USB-C ports.

2. For USB-A ports, use the standard USB-A connector.

3. For USB-C ports, connect the USB-C adapter attached to the cable.

4. Insert the appropriate connector firmly into the USB port on your Mac. The keyboard will be automatically recognized and ready for use.

OPERATING INSTRUCTIONS

Key Features

- **Oversized Key Print:** The keyboard features print 4x larger than on traditional keyboards, making it easier to locate any key and type confidently.

Easy to See Keys.
Extra large print keycaps make it easier to locate each key, **4x larger** than traditional key print

Figure 3: Easy to See Keys with Extra Large Print

- **Backlit Keys:** The keys are equipped with clear LED backlighting, offering 3 levels of brightness. This allows for comfortable typing in various lighting conditions.

Sleek & Comfortable.

Low profile design to help save desk space + integrated kickstand to improve typing comfort.

Figure 4: Clear Backlit Keys with Adjustable Brightness

To adjust the backlight brightness, use the dedicated brightness control keys (usually F1 and F2, indicated by sun icons) on the top row of the keyboard.

- **MacOS Layout with Shortcut Keys:** The keyboard features a familiar 107-key MacOS layout, including 16 shortcut keys designed to streamline your workflow.

Function Keys and Shortcuts

The top row of keys (F1-F15) provides quick access to various Mac functions. These include:

- F1/F2: Backlight brightness adjustment
- F3: Mission Control
- F4: Launchpad
- F7/F8/F9: Media playback controls (Previous, Play/Pause, Next)
- F10/F11/F12: Volume controls (Mute, Volume Down, Volume Up)
- Eject key (top right): Eject disc or media
- Power key (top right): Sleep/Wake or Power Off (functionality may vary by Mac model)

To use the standard F1-F15 functions instead of the media/shortcut functions, you may need to press the **Fn** key in conjunction with the desired function key, or adjust your keyboard settings in macOS System Preferences.

MAINTENANCE

To ensure the longevity and optimal performance of your Macally keyboard, follow these simple maintenance

guidelines:

- **Cleaning:** Use a soft, lint-free cloth slightly dampened with water or a mild, non-abrasive cleaner to wipe down the keys and surface of the keyboard. Avoid excessive moisture.
- **Dust Removal:** Use compressed air to remove dust and debris from between the keys. Hold the can upright to prevent propellant from spraying onto the keyboard.
- **Avoid Spills:** Keep liquids away from the keyboard to prevent damage to internal components.
- **Storage:** When not in use for extended periods, store the keyboard in a clean, dry environment away from extreme temperatures.

TROUBLESHOOTING

If you encounter issues with your Macally keyboard, please refer to the following common solutions:

Problem	Solution
Keyboard is not responding.	Ensure the USB cable is securely connected to your Mac's USB port. Try connecting the keyboard to a different USB port on your Mac. Restart your Mac. Test the keyboard on another computer if possible to rule out a computer-specific issue.
Backlight is not working or is too dim/bright.	Use the F1 (dimmer) and F2 (brighter) keys to adjust the backlight intensity. Ensure your Mac is powered on and the keyboard is receiving power.
Some keys are not functioning correctly.	Check for any debris or obstructions under the non-functioning keys. Use compressed air to clean. If the issue persists, contact Macally customer support.

SPECIFICATIONS

Feature	Detail
Model Number	UCABLZKEYLPSG
