Guardian Angel ACC-ACA-C

Guardian Angel USB-C Fast Charger (Model ACC-ACA-C) Instruction Manual

PRODUCT OVERVIEW

The Guardian Angel USB-C Fast Charger (Model ACC-ACA-C) is a compact AC adapter designed for efficient and safe charging of your Guardian Angel devices, including both Elite and Micro Series. It also supports fast charging for any other device equipped with a USB Type-C port. This charger includes a power block and a USB Type-C charging cable.

Key Features:

- **Compatibility:** Specifically designed for Guardian Angel Elite and Micro Series devices, and universally compatible with any device using a USB Type-C port.
- **Fast Charging:** Delivers efficient power for quick charging.
- **Safety Features:** Equipped with built-in protections against short circuits, over-current, over-heat, and over-voltage to ensure device safety.
- **Compact Design:** Lightweight and portable for easy transport and storage.

SETUP INSTRUCTIONS

Follow these steps to set up your Guardian Angel USB-C Fast Charger:

1. **Unpack:** Carefully remove the USB-C power adapter and charging cable from its packaging.
2. **Connect Cable:** Insert the larger USB-A end of the charging cable into the USB port on the power adapter. Ensure

it is firmly seated.

3. **Power Connection:** Plug the power adapter into a standard wall electrical outlet (AC 100-240V).
4. **Device Connection:** Insert the USB Type-C end of the charging cable into the charging port of your Guardian Angel device or other compatible electronic device.

The device should begin charging automatically. Refer to your device's manual for specific charging indicators.

OPERATING INSTRUCTIONS

Using the Guardian Angel USB-C Fast Charger is straightforward:

- Ensure the charger is properly connected to a power source and your device as described in the "Setup Instructions".
- The charger will automatically detect your device and deliver the appropriate charging current up to its maximum output.
- Once your device is fully charged, you may disconnect it from the charger. It is safe to leave the charger plugged into the wall outlet when not in use, though it is recommended to unplug it for energy conservation.

MAINTENANCE AND CARE

To ensure the longevity and optimal performance of your charger, follow these maintenance guidelines:

- **Cleaning:** Disconnect the charger from the power outlet before cleaning. Use a soft, dry cloth to wipe the surface of the power adapter and cable. Do not use liquid cleaners or abrasive materials.
- **Storage:** Store the charger in a cool, dry place away from direct sunlight and extreme temperatures.
- **Handling:** Avoid bending or twisting the cable excessively, especially near the connectors, to prevent internal wire damage. Do not drop the charger or expose it to strong impacts.
- **Water Exposure:** This charger is not waterproof. Keep it away from water and high humidity.

TROUBLESHOOTING

If you encounter issues with your Guardian Angel USB-C Fast Charger, try the following solutions:

- **Device Not Charging:**
 - Ensure the power adapter is securely plugged into a working electrical outlet.
 - Verify that the USB-C cable is firmly connected to both the power adapter and your device.
 - Try using a different electrical outlet.
 - Inspect the USB-C cable and connectors for any visible damage. If damaged, replace the cable.
 - Test the charger with another compatible device to determine if the issue is with the charger or your device.
- **Slow Charging:**
 - Ensure your device supports fast charging and that the cable used is capable of fast charging.
 - Avoid using your device extensively while it is charging, as this can slow down the charging process.
 - Check if the device's charging port is clean and free of debris.
- **Charger Feels Warm:**
 - It is normal for the charger to become slightly warm during operation. If it becomes excessively hot, disconnect it immediately and contact support.
 - Ensure the charger is in a well-ventilated area and not covered by anything that could trap heat.
