## Mepplzian Black Medicine Cabinet with Lighted

# Mepplzian LED Medicine Cabinet User Manual

Model: Black Medicine Cabinet with Lighted (24x30 Inch)

## INTRODUCTION

Welcome to your new Mepplzian LED Medicine Cabinet. This manual provides detailed instructions for the safe installation, operation, and maintenance of your new bathroom cabinet. Please read this manual thoroughly before installation and use, and retain it for future reference.

## SAFETY INFORMATION

Observe the following safety guidelines to prevent injury or damage to the product:

- Standard safety warnings apply, including weight limits, proper mounting, and potential electrical hazards.
- Ensure all electrical connections are performed by a qualified electrician if you are unsure or unfamiliar with electrical wiring.
- Do not overload shelves. The maximum weight limit for the shelves is 15 kg (approximately 33 lbs).
- Avoid using abrasive cleaners on the mirror or cabinet surfaces, as this can cause damage.
- Keep children away from the product during installation and ensure they do not play with the cabinet.
- The frame of this cabinet is made of FSC-certified wood, indicating responsible forest management.

## PACKAGE CONTENTS

Verify that all components are present and undamaged before beginning installation:

- Medicine Cabinet x1
- Instruction Manual x1
- Hardware Accessories (screws, wall anchors, etc.)

## PRODUCT SPECIFICATIONS

Brand	Mepplzian
Model Name	Black Medicine Cabinet with Lighted

Feature	Detail
Size	1 Door-Black (24x30 Inch)
Product Dimensions	5.31"D x 27.55"W x 19.68"H (Note: Product title states 24x30, specifications show slightly different dimensions. Please refer to the physical product for exact measurements.)
Special Feature	Illuminated, Defogging, Brightness Adjustable, 4-Color Light
Mounting Type	Wall Mount
Room Type	Bathroom
Door Style	Mirrored
Weight Limit	15 Kilograms (approx. 33 lbs)
Number of Shelves	3
Item Weight	29.1 Pounds
Frame Material	Engineered Wood (E1MDF board)
Assembly Required	Yes
Country/Region Of Origin	China

## SETUP AND INSTALLATION

This medicine cabinet is designed for wall-mounted installation. For electrical connections, professional installation is recommended.

### Before You Begin

- Carefully unpack all components and inspect for any damage.
- Ensure all listed package contents are present.
- Gather necessary tools: drill, level, measuring tape, screwdriver, pencil.

### Installation Steps

- 1. Location Selection:** Choose a suitable location in your bathroom. Ensure the wall can support the cabinet's weight and that the area is away from direct water spray. Measure the detailed size of the cabinet and the intended installation area before marking.
- 2. Marking and Drilling:** Mark the desired mounting height and positions for the mounting hardware on the wall. Use a level to ensure accuracy. Drill pilot holes according to the hardware instructions.
- 3. Secure Mounting Hardware:** Insert wall anchors (if required) and securely fasten the mounting brackets or screws into the wall.
- 4. Cabinet Mounting:** Carefully lift the cabinet and align it with the secured mounting hardware. Attach the cabinet to the wall, ensuring it is level and stable.
- 5. Electrical Connection:**
  - **IMPORTANT:** Turn OFF power to the installation area at the circuit breaker before proceeding.

- Connect the cabinet's electrical wiring to your home's electrical system. If you are not familiar with electrical wiring, consult a qualified electrician.
- Note that the product may come with a non-standard power connector. An adapter or professional wiring might be required for compatibility with standard US electrical outlets.

**6. Internal Assembly:** If any internal shelves or components require assembly, follow the specific instructions provided in the included manual.

# PRODUCT DIMENSIONS

Multilayer storage space

## Dimension

23.6x 5.3 x 29.9in

## Load Bearing

66lbs

## Material

Particle Board

Figure 2: An illustration detailing the dimensions of the medicine cabinet (23.6" W x 29.9" H x 5.3" D) and the internal shelf spacing (9.2" between shelves). It also indicates a load bearing capacity of 66 lbs and particle board material.

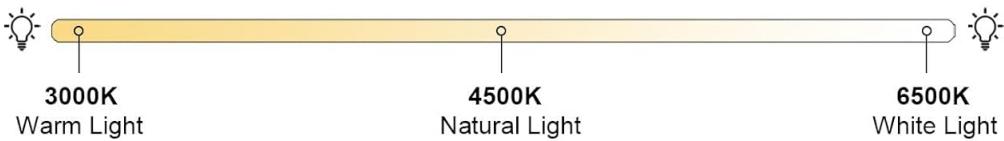

## OPERATING INSTRUCTIONS

### LED Lighting

The cabinet features adjustable LED lighting with multiple color temperatures and dimmable brightness, controlled via a touch switch on the mirror surface.

- **Power On/Off:** Tap the touch switch on the mirror surface to turn the lights on or off.
- **Color Temperature Adjustment:** Tap the switch repeatedly to cycle through the available color temperatures: 3000K (Warm Light), 4500K (Natural Light), and 6500K (White Light).
- **Brightness Adjustment:** Long press the touch switch to adjust the light intensity (dimming) to your preferred level.
- **Memory Function:** If the light is turned off and then turned on again after more than 10 seconds, the mirror will recall the last used color and brightness settings.

### 3 COLOR TEMPERATURE DIMMER FUNCTION

- Turn on the light and wait(>10s) turn off and turn on the light again the mirror can remember last color and brightness.

Figure 3: This diagram illustrates the three available color temperature settings (Warm, Natural, White) and the brightness memory function of the LED lighting.

### Defogging Function

The integrated defogger quickly clears condensation from the mirror surface, ensuring a clear reflection even in humid conditions.

- **Activate Defogger:** Lightly touch the dedicated defogger switch on the mirror surface.
- The defogger will activate, rapidly clearing any fog from the mirror.

## INTELLIGENT DEFOGGING FUNCTION

Figure 4: A split image showing a foggy mirror 'Before' and a clear mirror 'After' using the intelligent defogging function, with an icon indicating fast defogging.

### Storage

The cabinet provides three layers of storage space for various bathroom essentials, helping to keep your vanity tidy.

- Utilize the shelves to organize skincare products, cosmetics, toothpaste, toothbrushes, mouthwash, shampoo, and other daily necessities.
- Ensure items are placed securely and do not exceed the shelf weight capacity of 15 kg (33 lbs).

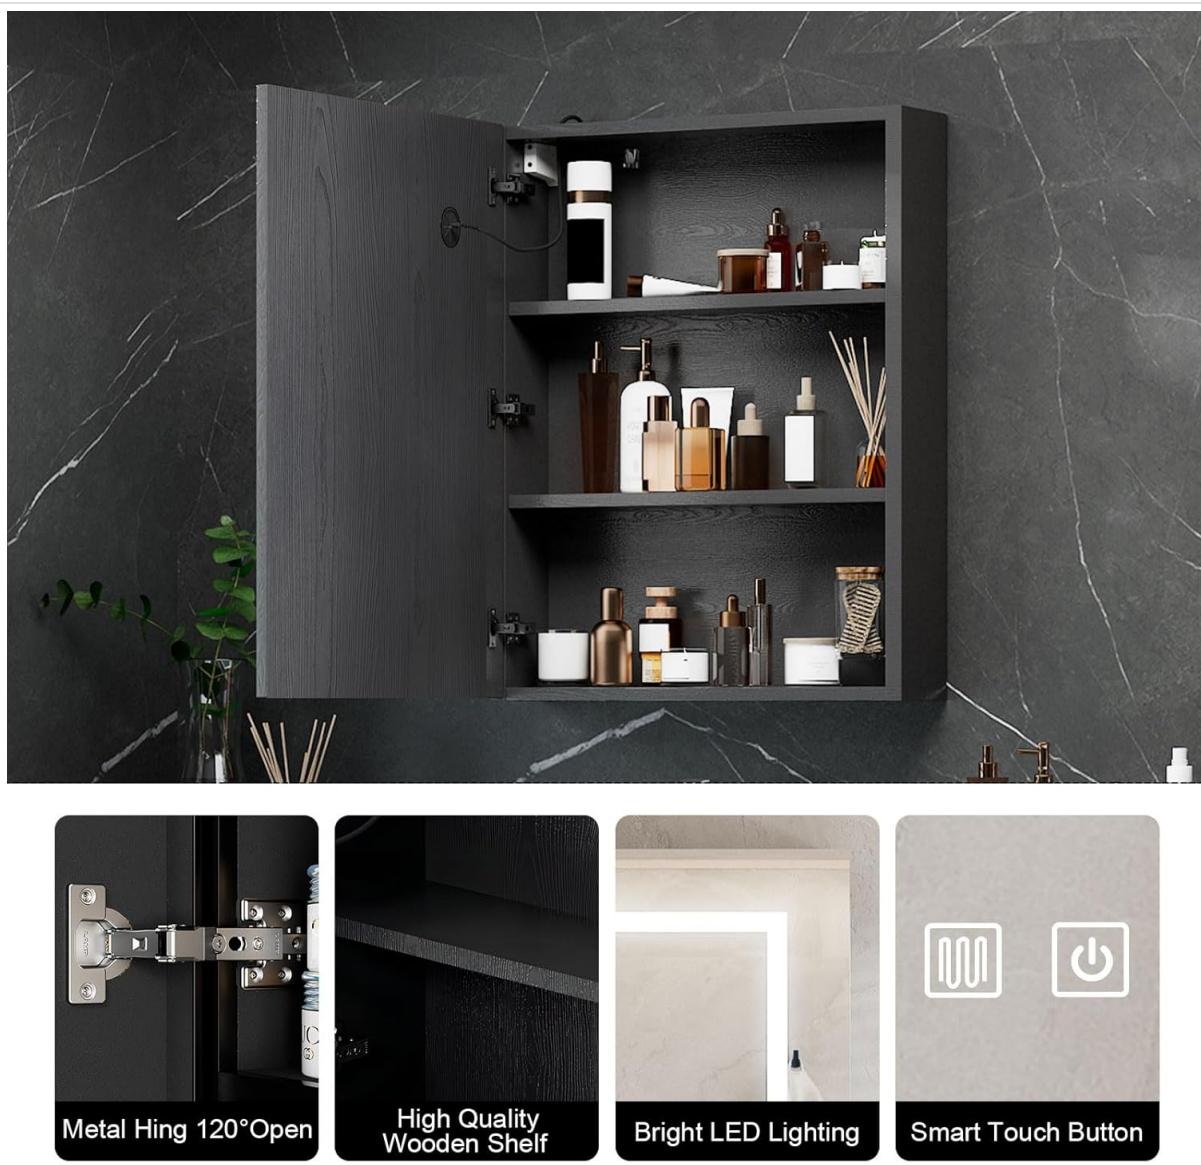

Figure 5: The medicine cabinet door is open, revealing three internal shelves filled with various bathroom products, demonstrating its storage capacity.

## MAINTENANCE AND CARE

Proper care will ensure the longevity and appearance of your medicine cabinet.

- **Cleaning the Mirror:** Use a soft, lint-free cloth and a non-abrasive glass cleaner. Spray the cleaner onto the cloth, not directly onto the mirror, to prevent liquid from seeping into the edges.
- **Cleaning the Cabinet:** Wipe surfaces with a soft, damp cloth and mild soap. Dry immediately with a clean, dry cloth. Avoid harsh chemicals, abrasive materials, or excessive moisture, which could damage the finish or engineered wood.
- **Electrical Components:** Ensure the cabinet is disconnected from power at the circuit breaker before cleaning any electrical parts or the mirror surface near electrical components.
- **Hinges:** Periodically check the door hinges for tightness and smooth operation. If necessary, gently lubricate with a silicone-based spray.

## TROUBLESHOOTING

This section addresses common issues you might encounter with your medicine cabinet.

Problem	Possible Cause	Solution

Problem	Possible Cause	Solution
LED lights not turning on or flickering	Power connection issue, faulty wiring, damaged LED component.	Check the power supply and all electrical connections. Ensure the circuit breaker is on. If the issue persists after checking connections, contact customer support.
Defogger not working	Power connection issue, faulty defogger element.	Verify the power supply to the cabinet. Ensure the defogger switch is activated. If the problem continues, contact customer support.
Mirror fogs up quickly after shower	Defogger not activated, high humidity in bathroom.	Activate the defogger function. Ensure proper bathroom ventilation during and after showering.
Cabinet door is stiff or noisy	Hinge adjustment needed, debris in hinge, lack of lubrication.	Clean hinges of any debris. Apply a small amount of silicone-based lubricant to the hinges. Adjust hinge screws if necessary for smoother operation.
Cabinet not stable on the wall	Improper mounting, loose hardware, inadequate wall support.	Re-check all mounting hardware and wall anchors. Ensure they are securely fastened into appropriate wall studs or robust anchors. If unsure, consult a professional installer.
Power plug does not fit standard US outlets	Regional electrical standard difference.	Consult a qualified electrician for proper wiring or adapter installation to ensure safe and compliant electrical connection.
