4. PRODUCT OVERVIEW

The SKG Cordless Knee Massager W3 Pro combines advanced features for comprehensive knee care:

- **Unique 4 Vibration Motors:** Equipped with four high-performance vibration motors and three massage modes for a robust and precise massage experience.
- **Large Area Heating:** Ergonomically designed for 100% coverage of the knee region, offering four heating levels (104°F-131°F) to promote blood circulation and relieve muscle tension.
- **Certified Quality:** CE and FCC-certified, ensuring high standards of quality and safety.
- **Ergonomic Design:** Features an ergonomic cut for a snug fit and is made with skin-friendly, breathable polyurethane material with adjustable Velcro straps.
- **Voice Broadcast:** Provides voice prompts for mode and setting changes.
- **15-Minute Auto-Off:** Automatically shuts off after 15 minutes of continuous use.

5. SETUP

- Charge the Device:** Before first use, fully charge the massager using the provided USB charging cable. The charging port is located on the control panel.
- Connect Massagers:** If using both massagers simultaneously, connect the secondary massager to the main massager's control unit using the small connecting cable.
- Positioning:** Place the massager around your knee, ensuring the central heating and vibration elements are directly over the kneecap.
- Secure with Straps:** Use the adjustable Velcro straps to secure the massager firmly but comfortably around your knee. An extender strap is included for larger leg sizes.

8. MAINTENANCE

- **Cleaning:** Wipe the surface of the massager with a soft, damp cloth. Do not immerse the device in water.
- **Storage:** Store the massager in a cool, dry place away from direct sunlight and extreme temperatures.
- **Battery Care:** To prolong battery life, avoid fully discharging the device frequently. Charge regularly even if not in constant use.

9. TROUBLESHOOTING

- **Device not turning on:** Ensure the device is fully charged. If the issue persists, contact customer support.
- **No heat/vibration:** Check if the respective functions are activated via the control panel. If the device is charged and functions are on but not working, contact customer support.
- **Unusual operation/discomfort:** Discontinue use immediately. If you suspect an electrical issue or malfunction, cease use and contact customer support.
