

ORICO B0CMTMT2T4

ORICO USB Hub 3.0 Clamp with Card Reader and Audio Jack - User Manual

Model: B0CMTMT2T4

1. INTRODUCTION

The ORICO USB Hub 3.0 is a versatile and convenient desktop accessory designed to expand your computer's connectivity. Featuring a unique clampable design, it provides easy access to 2 USB-A 3.0 data ports, a 3.5mm audio/microphone jack, and an SD/TF card reader. This hub is ideal for users seeking to streamline their workspace and enhance peripheral management.

2. PACKAGE CONTENTS

Please check the package for the following items:

- ORICO USB C Hub x 1
- Instruction manual x 1
- 2-in-1 USB data cable (1M) x 1

3. KEY FEATURES

- **New Clampable Hub Design:** The adjustable screw allows mounting on monitor screens or desk edges with thickness from 0.19 to 1.1 inches (5-28mm). It provides a firm, semi-permanent mount, preventing movement when devices are plugged in or out. Soft silicone pads protect surfaces from scratches.
- **USB-C Expander:** Connects to a single USB-C port on your desktop or laptop, providing 2 USB-A 3.0 ports (5Gbps), a 3.5mm AUX port, and an SD/TF card reader. This expands connectivity for smartphones, external hard drives, flash drives, keyboards, and other USB devices. The interface spacing is widened for easier simultaneous connection of multiple devices.

- **Extra Power Supply Port:** Includes an additional 5V power supply port to ensure stable operation for high-power devices and data safety. (Note: Power adapter not included).
- **2-in-1 USB Cable:** The included cable features both USB-A and USB-C connectors, ensuring compatibility with a wide range of devices including Apple MacBook Pro, Mac Air, iMac, PS4 Pro, Surface Pro, and other computers and laptops.
- **Stable and Secure:** Compatible with Windows 10/8/8.1/7/Vista/XP, Mac OS X, Linux, and Chrome OS. Plug & play functionality requires no driver installation. Constructed from premium aluminum alloy for durability and efficient heat dissipation.
- **LED Light:** A blue LED light indicates the connection status of the USB hub, allowing you to monitor its performance.

4. SETUP INSTRUCTIONS

1. **Choose a Mounting Location:** Identify a suitable edge on your desktop or monitor. The hub can be mounted on surfaces between 0.19 to 1.1 inches (5-28mm) thick.
2. **Mount the Hub:** Place the hub on the chosen edge. Turn the adjustable screw clockwise to tighten the clamp securely. Ensure the soft silicone pads are in contact with the surface to prevent scratches.

Easy Installation

(no extra tools or installation required)

5. OPERATING INSTRUCTIONS

Once the ORICO USB Hub is connected to your computer, it is ready for use without additional drivers.

1. **Using USB-A 3.0 Ports:** Plug your USB-A devices (e.g., flash drives, external hard drives, keyboards, mice) into the two blue USB-A ports on the hub. These ports support data transfer speeds up to 5Gbps.

6. MAINTENANCE

- Keep the hub clean by wiping it with a soft, dry cloth.
- Avoid exposing the hub to liquids, extreme temperatures, or direct sunlight.
- Do not attempt to disassemble or repair the device yourself. Refer to qualified service personnel if needed.

7. TROUBLESHOOTING

Q: The hub is not recognized by my computer.

A: Ensure the 2-in-1 USB data cable is securely connected to both the hub's PC IN port and your computer's USB port. Try connecting to a different USB port on your computer. Restart your computer if the issue persists.

Q: Devices connected to the hub are not working or are unstable.

A: If you are connecting high-power devices (e.g., external hard drives), ensure an optional 5V power adapter is connected to the hub's extra power supply port. Some devices require more power than can be supplied by a standard USB port alone.

Q: Data transfer speeds are slower than expected.

A: Ensure your computer's USB port supports USB 3.0 (often indicated by a blue port or SS symbol). The hub's ports are USB 3.0, but the overall speed is limited by the slowest component in the chain (e.g., your computer's USB 2.0 port or a USB 2.0 device). For optimal speeds, use USB 3.0 compatible devices and ports.

Q: Audio quality from the 3.5mm jack is poor.

A: The audio output quality of the hub's 3.5mm jack may differ from your computer's integrated audio ports. For critical audio applications, consider using your computer's direct audio output. Ensure your audio cable is fully inserted and not damaged.

Q: The hub disconnects and reconnects frequently.

A: This could be due to insufficient power. Connect an optional 5V power adapter to the hub. Also, ensure the hub is firmly clamped to the desk/monitor and the main data cable is securely connected to prevent accidental disconnections. Check for updated USB drivers for your computer's operating system.

8. SPECIFICATIONS

Feature	Detail
Brand	ORICO
Model	BOCMTMT2T4
Color	Black
Hardware Interface	USB 3.0
Special Feature	Memory Card Slot
Compatible Devices	Desktops, Laptops, MacBook Pro, Air, iMac, PS4, Surface, and other devices

Total USB Ports	2 (USB-A 3.0)
Data Transfer Rate	5 Gigabits Per Second
Number of Ports (Total)	5 (2x USB-A, 1x 3.5mm AUX, 1x SD, 1x TF)
Operating System	Mac OS 9, Windows 8.1, Windows Vista (and newer)
Enclosure Material	Aluminum
Item Dimensions (L x W x H)	7.08"L x 4.3"W x 1.18"H
Item Weight	99 Grams
