Bestway Steel Pro Rectangle Above Ground Pool Instruction Manual

Model: 26-56404-new | Brand: Bestway

INTRODUCTION

This manual provides essential information for the safe assembly, operation, and maintenance of your Bestway Steel Pro Rectangle Above Ground Pool. Please read all instructions carefully before setting up and using the pool. Retain this manual for future reference.

SAFETY INFORMATION

WARNING: Failure to follow these instructions can result in serious injury or death.

- Adult supervision is required at all times when children are in or near the pool.
- Do not dive or jump into the pool. The pool is shallow.
- Ensure the pool is set up on a level surface to prevent collapse.
- Keep children away from the pool cover to prevent drowning.
- Always secure the pool when not in use.
- Review local HOA rules and restrictions before purchasing and setting up the product. Not all housing agencies permit private above-ground pools.

PACKAGE CONTENTS

Verify that all components listed below are present in your package:

- Rectangular Pool Liner (DuraPlus™ material)
- Steel Frame Components (with FrameLink™ System joints)
- Filter Pump (as per specifications)
- Repair Patch

INCLUDED ITEMS

RECTANGULAR
POOL

SETUP AND ASSEMBLY

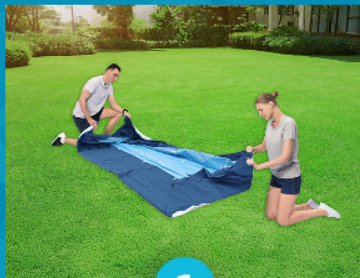

The Bestway Steel Pro pool is designed for easy, no-tool setup. Assembly typically takes 40 minutes with 1-2 people, not including water fill time.

1. **Prepare the Site:** Choose a solid, level surface free of debris. Ensure adequate drainage and proximity to a water source and electrical outlet (if using a filter pump).
2. **Lay Liner Flat:** Unfold the pool liner and spread it out in the chosen location. Ensure the drain valve is positioned correctly.
3. **Assemble Frame:** Connect the steel frame components using the FrameLink™ System joints. These snap-together connectors prevent metal-on-metal contact, enhancing rust resistance and stability.
4. **Fill with Water:** Once the frame is fully assembled and stable, begin filling the pool with water. Smooth out any wrinkles in the bottom of the liner as it fills.

EASY, NO-TOOL SETUP

Ready for water in 40 minutes*
with the help of 1-2 people.

video shows the pool's dimensions, easy setup process, durable Trittech liner, FrameLink joints, and corrosion-resistant steel frame.

OPERATION

Once assembled and filled, your Bestway Steel Pro pool is ready for use. Ensure proper water chemistry is maintained for safe and enjoyable swimming.

- **Water Filling:** Fill the pool to the recommended level, typically indicated by a fill line on the liner. The pool holds 872 gallons at 90% capacity.
- **Filter Pump Usage:** If a filter pump is included or purchased separately, connect it according to its specific instructions to ensure continuous water circulation and filtration.
- **Draining:** The pool features a built-in flow control drain valve. Connect a garden hose to the valve to quickly and efficiently drain the pool water away from the pool area.

MAINTENANCE

Regular maintenance is crucial for extending the life of your pool and ensuring water quality.

- **Water Treatment:** Use appropriate pool chemicals (e.g., chlorine, pH adjusters) to maintain balanced water chemistry. Test water regularly.
- **Cleaning:** Regularly remove debris from the water surface and bottom using a skimmer net and pool vacuum. Clean the pool liner as needed.
- **Filter Maintenance:** Clean or replace the filter cartridge in your pump as recommended by the pump manufacturer to ensure efficient filtration.
- **Liner Inspection:** Periodically inspect the DuraPlus™ liner for any signs of wear, tears, or punctures. Use the provided repair patch for minor damages.
- **Frame Inspection:** Check the steel frame and FrameLink™ joints for any signs of corrosion or damage. Ensure all connections remain secure.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Water is cloudy or green	Improper chemical balance, insufficient filtration, algae growth.	Test water chemistry and adjust as needed. Run filter pump longer. Shock treat the pool.
Pool is leaking	Puncture in liner, loose hose connection.	Locate the leak and use the provided repair patch. Tighten all hose connections.
Filter pump not working	Power issue, clogged filter, motor malfunction.	Check power supply. Clean or replace filter cartridge. Refer to pump manual for specific troubleshooting.
Pool frame unstable	Uneven ground, incorrect assembly of FrameLink™ joints.	Ensure pool is on a perfectly level surface. Recheck all FrameLink™ connections for proper seating.

SPECIFICATIONS

Brand: Bestway

Model Number: 26-56404-new

Product Dimensions (L x W x H): 118 inches x 78 inches x 26 inches (9 ft 10 in x 6 ft 7 in x 26 in)

Water Capacity (90% full): 872 Gallons

Shape: Rectangular

Color: Blue

Material Type: Alloy Steel (frame), DuraPlus™ Liner

Item Weight: 15 Kilograms

Indoor/Outdoor Usage: Outdoor

Special Features: FrameLink™ System, DuraPlus™ liner, Flow control drain valve

Included Components: Filter Pump, Repair Patch

STORAGE

Proper storage during off-season periods will prolong the life of your pool.

1. **Drain Completely:** Ensure all water is drained from the pool using the flow control drain valve.
2. **Clean and Dry:** Thoroughly clean the pool liner and frame components. Allow all parts to dry completely to prevent mold and mildew.
3. **Disassemble:** Carefully disassemble the frame by reversing the assembly steps.
4. **Store Safely:** Store the pool and all accessories in a dry, cool place, away from direct sunlight and extreme temperatures.

WARRANTY AND SUPPORT

For warranty information, technical support, or to order replacement parts, please refer to the contact information provided in your product packaging or visit the official Bestway website. Keep your proof of purchase for warranty claims.
