## Cubitt Tracking Technologies Cubitt VIVA Pro

# Cubitt Viva Pro Smartwatch Instruction Manual

Model: Cubitt VIVA Pro (CT-VIVAP5)

## INTRODUCTION

---

This manual provides detailed instructions for the setup, operation, and maintenance of your Cubitt Viva Pro Smartwatch. Please read this manual thoroughly to ensure proper use and to maximize the features of your device.

## 1. INITIAL SETUP

### 1.1 Package Contents

Verify that your package contains the following items:

- Cubitt Viva Pro Smartwatch

- Dual-tone silicone strap
- Charging cable
- Instruction Manual (this document)

## 1.2 Charging the Device

Before first use, fully charge your Cubitt Viva Pro Smartwatch. The device features a 350 mAh battery and typically charges completely within 90 minutes. Connect the charging cable to the designated charging port on the smartwatch and to a USB power source.

## 1.3 App Installation and Pairing

1. Download the **Cubitt Pro App** from your device's app store (available on Google Play Store and Apple App Store).
2. Install the application on your smartphone.
3. Open the Cubitt Pro App and follow the on-screen instructions to create an account or log in.
4. Ensure Bluetooth is enabled on your smartphone.
5. Within the app, search for your Cubitt Viva Pro Smartwatch and initiate the pairing process.
6. Confirm the pairing request on both your smartphone and the smartwatch.

## 2. OPERATING INSTRUCTIONS

---

### 2.1 Basic Navigation

The Cubitt Viva Pro features a 1.78-inch AMOLED touch screen for intuitive control. Swipe left, right, up, or down to navigate through menus and access different functions. Tap to select items or confirm actions. The side button typically serves as a power button or a return-to-home function.

### 2.2 Customizing the Display

The smartwatch offers a variety of customizable dial styles. You can change watch faces directly on the device or through the Cubitt Pro App. The device also supports an always-on display feature.

### 2.3 Bluetooth Calling and Notifications

Once paired with your smartphone, the Cubitt Viva Pro allows you to make and receive calls directly from your wrist. You will also receive notifications for messages and other applications. Ensure Bluetooth is active and the watch is within range of your phone for these features to function.

### 2.4 Additional Functions

The smartwatch includes various additional features:

- Weather forecast
- Breathing training
- Sedentary alerts
- Women's cycle control
- Music control
- Drink water reminder
- Camera remote control
- Find my phone function
- Timers and world clock

## 3. HEALTH MONITORING

---

The Cubitt Viva Pro is equipped with advanced sensors for continuous health tracking.

- **Heart Rate Tracking:** Monitors your heart rate in real-time throughout the day.
- **Blood Oxygen (SpO2) Monitoring:** Measures your blood oxygen saturation levels.
- **Stress Monitoring:** Tracks your stress levels and provides insights into your mental well-being.
- **Sleep Analysis:** Automatically monitors your sleep patterns, including awake, light, deep, and REM sleep stages, to help you understand and improve your sleep quality.
- **HRV (Heart Rate Variability):** Provides data related to your heart rate variability.

For accurate readings, ensure the smartwatch is worn snugly on your wrist, approximately one finger-width above your wrist bone.

## 4. FITNESS TRACKING

The smartwatch is designed to help you achieve your fitness goals with comprehensive activity tracking features.

- **60+ Sport Modes:** Select from over 60 different sport modes to accurately track your workouts.
- **Built-in GPS:** The integrated GPS provides precise tracking of your activity route, distance, and pace without needing your phone.
- **Activity Data:** Monitors key metrics such as heart rate, calories burned, steps taken, distance covered, and speed during your exercises.
- **Waterproof (3 ATM):** The device is waterproof up to 3 ATM, making it suitable for swimming and other water-based activities.

## 5. MAINTENANCE

### 5.1 Cleaning Your Smartwatch

Regularly clean your smartwatch and strap to prevent skin irritation and maintain device functionality. Use a soft, lint-free cloth. If necessary, dampen the cloth with a small amount of water. Avoid using harsh chemicals or abrasive materials.

## 5.2 Water Resistance

The Cubitt Viva Pro is rated 3 ATM waterproof. This means it can withstand splashes, rain, and is suitable for swimming. However, it is not recommended for diving or high-pressure water activities. After exposure to water, especially saltwater, rinse the watch with fresh water and dry it thoroughly.

## 5.3 Battery Care

To prolong battery life, avoid fully discharging the battery frequently. Charge the device using the provided cable and a standard USB power adapter. The typical battery life is up to 10 days with normal use.

## 6. TROUBLESHOOTING

Problem	Possible Cause / Solution
<b>Device will not turn on or charge.</b>	Ensure the charging cable is correctly connected to the watch's charging contacts and a working USB power source. Allow at least 10 minutes for charging before attempting to power on.
<b>Cannot pair with smartphone.</b>	<ul style="list-style-type: none"><li>• Ensure Bluetooth is enabled on your smartphone.</li><li>• Make sure the smartwatch is sufficiently charged.</li><li>• Restart both the smartwatch and your smartphone.</li><li>• Ensure the Cubitt Pro App is updated to the latest version.</li><li>• Try unpairing and re-pairing the device through the app.</li></ul>
<b>Inaccurate health or fitness data.</b>	<ul style="list-style-type: none"><li>• Ensure the watch is worn snugly on your wrist, not too loose or too tight.</li><li>• Clean the sensors on the back of the watch.</li><li>• Avoid wearing the watch over tattoos, which can interfere with sensor readings.</li></ul>
<b>Notifications not received.</b>	<ul style="list-style-type: none"><li>• Check notification settings within the Cubitt Pro App.</li><li>• Ensure your smartphone's Bluetooth is active and the watch is connected.</li><li>• Verify that your phone's operating system allows the Cubitt Pro App to send notifications.</li></ul>
