De'Longhi Rivelia EXAM440 FEB4455 R5

De'Longhi LatteCrema Hot Milk Carafe Instruction Manual

Model: Rivelia Series (EXAM440, FEB4455, R5)

Brand: De'Longhi

Introduction

This manual provides essential information for the proper use and maintenance of your De'Longhi LatteCrema Hot Milk Carafe. This original De'Longhi replacement part is designed for seamless compatibility and optimal performance with Rivelia super-automatic coffee machines. It features the LatteCrema Hot system, which delivers a dense, velvety milk foam for an enhanced coffee experience.

Compatibility

This milk carafe is compatible with De'Longhi Rivelia super-automatic coffee machines. Please verify your machine's model number on its ID plate, typically located on the underside of the appliance, to confirm compatibility. Compatible models include:

- EXAM440.55.B S11
- EXAM440.55.BG S11
- EXAM440.55.G S11
- EXAM440.55.W S11
- FEB4455.B S11
- FEB4455.BG S11
- FEB4455.G S11
- FEB4455.W S11
- R5GR S11
- R5W S11

Setup

Before first use, disassemble the milk carafe components and wash them thoroughly. The carafe and its components are dishwasher safe for convenient cleaning. Ensure all parts are completely dry before reassembly.

1. Unpack all components from the packaging.
2. Separate the clear milk reservoir from the black top unit.
3. Remove the milk frothing tube and any other detachable parts.
4. Wash all parts with warm soapy water or place them in the dishwasher.
5. Rinse thoroughly and allow to air dry completely, or dry with a clean cloth.
6. Reassemble the carafe, ensuring all connections are secure.

Operating Instructions

The LatteCrema Hot system allows you to prepare various milk-based beverages with ease. Refer to your specific Rivelia coffee machine's manual for detailed instructions on selecting beverage types and adjusting milk foam settings.

1. Fill the milk carafe with fresh, cold milk. Do not exceed the 'MAX' fill line indicated on the carafe.
2. Ensure the lid is securely closed. The carafe features an elongated design and an included lid to keep milk fresh and hygienic.
3. Attach the milk carafe to your De'Longhi Rivelia coffee machine according to the machine's instructions.
4. Select your desired milk-based beverage from your coffee machine's menu.
5. The LatteCrema Hot system will automatically froth and dispense milk into your cup.
6. After use, always clean the milk carafe promptly to prevent milk residue buildup.

Maintenance and Cleaning

Regular cleaning of the milk carafe is crucial for hygiene and optimal performance of the LatteCrema Hot system. The milk carafe is designed for easy cleaning.

Daily Cleaning:

- After each use, remove the milk carafe from the coffee machine.
- Empty any remaining milk.
- Rinse the carafe and its components under running water.
- For thorough cleaning, disassemble the carafe (reservoir, top, frothing tube) and wash all parts.
- The milk carafe and its components are **dishwasher safe**. Place them on the top rack of your dishwasher.
- Ensure all parts are completely dry before reassembling and storing.

Deep Cleaning:

Periodically, or if you notice reduced frothing performance, perform a deep clean:

- Disassemble all parts of the milk carafe.
- Soak the components in warm water with a mild detergent for 15-30 minutes.
- Use a small brush (often included with coffee machines or milk frothers) to clean inside the frothing tube and any small crevices.
- Rinse thoroughly to remove all soap residue.
- Allow to air dry completely before reassembly.

Troubleshooting

If you encounter issues with your milk carafe, consider the following common solutions:

Problem	Possible Cause	Solution
No milk foam or poor quality foam	Milk carafe not clean; milk too warm; incorrect milk type; carafe not properly attached.	Thoroughly clean all carafe components. Use fresh, cold milk (preferably semi-skimmed or whole milk). Ensure carafe is securely connected to the machine.
Milk not dispensing	Carafe empty; frothing tube blocked; air intake blocked.	Refill milk. Disassemble and clean the frothing tube and air intake holes on the carafe top.
Carafe leaking	Components not assembled correctly; seals damaged.	Ensure all parts are correctly assembled and tightened. Check rubber seals for damage and replace if necessary.

If the problem persists after attempting these solutions, please refer to your coffee machine's main instruction manual or contact De'Longhi customer support.

Specifications

Brand: De'Longhi

Model Name: Rivelia (Compatible with EXAM440, FEB4455, R5 series)

Material: Glass (Carafe), Plastic/Metal (Top and components)

Color: Silverton (Carafe components), Black (Top)
