K&F CONCEPT 5-in-1 Light Reflector with Grip (22 inch / 60cm) Instruction Manual

Brand: K&F CONCEPT | Model: KF18.0004

1. INTRODUCTION

The K&F CONCEPT 5-in-1 Light Reflector with Grip is a versatile tool designed to enhance lighting in photography and videography. This collapsible reflector provides five different reflective surfaces to control and modify light, suitable for both studio and outdoor environments. Its compact and portable design makes it an essential accessory for photographers on the go.

2. PRODUCT COMPONENTS

The K&F CONCEPT 5-in-1 Light Reflector system includes the following components:

- 1x Translucent Light Reflector (main diffusion panel)
- 1x Black Light Reflector cover
- 1x White Light Reflector cover
- 1x Silver Light Reflector cover
- 1x Gold Light Reflector cover
- 1x Carrying Bag

5-IN-1 Light Reflector

Consists of 1 panel and 4 covers

3. FEATURES

- **5-in-1 Versatility:** Includes gold, silver, white, black, and translucent surfaces to achieve various lighting effects.
- **Multiple Light Effects:**
 - **Gold:** Reflects a warm light, ideal for enhancing skin tones.
 - **Silver:** Reflects a cool, bright light, increasing contrast and highlights.
 - **White:** Provides a soft, neutral fill light without altering color temperature.
 - **Black:** Blocks unwanted light, creating shadows and adding depth.
 - **Translucent:** Diffuses harsh light, softening shadows and reducing contrast.
- **Integrated Grip:** Features a comfortable handle for easy holding and positioning during use.
- **Collapsible and Portable:** Designed for quick folding into a compact size, fitting into the included carrying bag for convenient transport and storage.
- **Durable Construction:** Made from high-quality fabric with smooth zippers for long-lasting performance.

Five Light Effects

Before Use

Translucent Panel

Hold above the subject to soften the natural sunlight

White Cover

Brighten up the shadow and soften the light

Gold Cover

Reflect warm fill light

Silver Cover

Brighten both shadows and highlights

Black Cover

Subtract light and create shadows

4. SETUP AND OPERATION

4.1 Unfolding the Reflector

1. Remove the reflector from its carrying bag.
2. Hold the reflector firmly with both hands. It will spring open to its full size.
3. Ensure the reflector is fully expanded and taut.

4.2 Changing Reflector Covers

The main reflector unit is a translucent diffusion panel. The four colored surfaces (gold, silver, white, black) are provided as a single reversible zippered cover. To change the reflective surface:

1. Locate the zipper along the edge of the cover.
2. Unzip the cover completely to remove it from the translucent panel.
3. Flip the cover to the desired color (e.g., from silver to gold).
4. Carefully place the cover back onto the translucent panel, aligning the edges.
5. Zip the cover securely around the translucent panel.

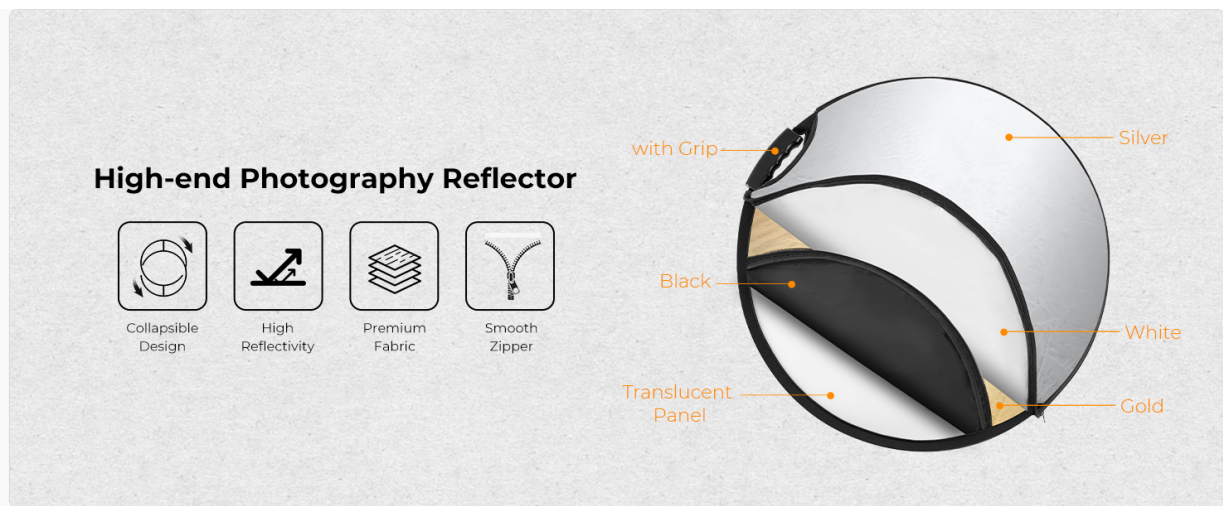

Image 4: Illustration of the reflector's construction, showing the translucent panel and the interchangeable zippered covers.

4.3 Using the Reflector

Position the reflector to direct or diffuse light onto your subject. The integrated grip allows for easy handheld use. For stationary setups, the reflector can be mounted on a light stand using an appropriate clamp (not included).

- **Gold Surface:** Use to add warmth to portraits or scenes, especially in cooler lighting conditions.
- **Silver Surface:** Ideal for increasing contrast and specular highlights, providing a crisp, bright light.
- **White Surface:** Provides a soft, natural fill light, reducing shadows without altering the color of the light.
- **Black Surface:** Used to block light and deepen shadows, enhancing dramatic effects or controlling spill.
- **Translucent Panel:** Position between the light source and the subject to soften harsh light, creating a more even and flattering illumination.

4.4 Folding the Reflector for Storage

To fold the reflector back into its compact size:

1. Hold the reflector with one hand at the top and the other at the bottom.
2. Twist your hands in opposite directions, forming an "8" shape.
3. Fold the reflector inwards into three layers.
4. Place the folded reflector into its carrying bag.

Easy Folding

5. MAINTENANCE

To ensure the longevity and optimal performance of your K&F CONCEPT Light Reflector:

- **Cleaning:** Gently wipe the reflective surfaces with a soft, damp cloth if they become dirty. Avoid abrasive cleaners or harsh chemicals.
- **Storage:** Always fold the reflector and store it in its carrying bag when not in use. Store in a cool, dry place away from direct sunlight and extreme temperatures.
- **Handling:** Avoid sharp objects that could puncture or tear the fabric. Do not apply excessive force when folding or unfolding.

6. TROUBLESHOOTING

If you encounter any issues with your K&F CONCEPT Light Reflector, please consider the following:

- **Difficulty Folding:** Refer to the folding instructions in Section 4.4. Practice the "8" shape twist to master the technique.
- **Damaged Fabric/Zipper:** Inspect the reflector for any tears or zipper malfunctions. If the damage affects functionality, contact customer support.

For further assistance, please contact K&F CONCEPT customer support.

7. SPECIFICATIONS

Attribute	Detail
