Remove the protective seals from both the cushion and the essence bottle. The cushion compact contains a mirror and an applicator puff. The essence bottle has a pump dispenser.

3. Operating Instructions

Follow these steps for optimal application of the TIRTIR Handy Base Routine:

HOW TO USE

Foundation-Free Makeup

Apply evenly to all areas of the face in need of an evening of skin tone and UV protection, and let the product fully absorb into the skin.

Minimal Makeup

Use concealer on any areas needing more coverage to create flawless-looking skin.

Perfect Makeup

Use it as a moisturizing base before applying makeup for a hydrated and polished look.

Figure 3: Application methods for TIRTIR Mask Fit Tone Up Essence.

Step 1: Prepare with Mask Fit Tone Up Essence

1. Dispense a small amount of Mask Fit Tone Up Essence onto your fingertips.
2. Apply evenly to all areas of the face. Gently pat until fully absorbed into the skin.
3. This essence can be used as a moisturizing base before applying makeup for a hydrated and polished look.

Step 2: Apply Mask Fit Red Cushion

1. Open the Mask Fit Red Cushion compact. Gently press the included puff onto the cushion to pick up a small amount of product.
2. Lightly dab the puff onto your skin, starting from the center of your face and blending outwards.
3. For areas requiring more coverage, such as blemishes or redness, apply an additional thin layer by gently patting.
4. Build coverage as desired. The formula is designed to be buildable without feeling heavy.

4. Maintenance

Cushion Puff Care:

- Regularly clean the applicator puff with a mild soap and lukewarm water.
- Gently squeeze out excess water and allow it to air dry completely before placing it back into the compact.
- Replace the puff periodically for hygienic application.

Storage:

- Store both products in a cool, dry place, away from direct sunlight and extreme temperatures.
- Ensure the cushion compact is tightly closed after each use to prevent the product from drying out.

5. Troubleshooting

Common Issues and Solutions:

- **Uneven Application:** Ensure your skin is well-prepped with the Tone Up Essence and that you are using a clean puff. Apply in thin, even layers.
- **Product Appears Too Light/Dark:** Shade #21N Ivory is designed for very light skin tones. If the shade does not match, consider trying a different shade from the TIRTIR range.
- **Excessive Oiliness (for oily skin types):** While the cushion offers various finishes, some oily skin types may require additional mattifying powder or setting spray for extended wear, especially in humid conditions.
- **Creasing:** Ensure not to apply too much product, especially around the eyes. Gently pat and blend thoroughly.
