SETUP

Charging the Earbuds and Case

Before first use, fully charge the earbuds and the charging case.

1. Place the earbuds into the charging case. Ensure they are correctly seated in their respective slots (L for left, R for right).
2. Connect the USB-C charging cable to the charging port on the case and the other end to a USB power source (e.g., wall adapter, computer USB port).
3. The indicator lights on the earbuds and/or case will illuminate to show charging status. Once fully charged, the lights will typically turn off or change color. The charging case takes approximately 120 minutes to fully charge.

Initial Pairing

Follow these steps to pair your earbuds with your Bluetooth-enabled device:

1. Ensure the earbuds are charged.
2. Open the charging case. The earbuds will automatically enter pairing mode, and their indicator lights will flash.
3. On your device (smartphone, tablet, etc.), go to the Bluetooth settings.
4. Search for available devices and select "Clarity 101" from the list.
5. Once connected, the earbud indicator lights will stop flashing, and you will hear a confirmation tone.

The earbuds will automatically reconnect to the last paired device when removed from the case, provided Bluetooth is enabled on your device and it is within range.

OPERATING INSTRUCTIONS

Touch Controls

The Monster Clarity 101 AirLinks feature multi-function touch controls on each earbud:

Action	Control	Description
Play/Pause	Single tap on either earbud	Plays or pauses audio playback.
Next Track	Double tap on the right earbud	Skips to the next song.
Previous Track	Double tap on the left earbud	Goes back to the previous song.
Volume Up	Triple tap on the right earbud	Increases the volume.
Volume Down	Triple tap on the left earbud	Decreases the volume.
Answer/End Call	Single tap on either earbud	Answers an incoming call or ends an active call.
Reject Call	Press and hold either earbud for 2 seconds	Rejects an incoming call.
Activate Voice Assistant	Press and hold either earbud for 3 seconds	Activates your device's voice assistant (Siri, Google Assistant, etc.).

Using a Single Earbud

You can use either the left or right earbud independently for calls or music. Simply remove one earbud from the charging case, and it will automatically connect to your device. The other earbud can remain in the case or be used simultaneously for stereo sound.

MAINTENANCE

Proper care ensures the longevity and optimal performance of your earbuds.

- **Cleaning:** Regularly clean the earbuds, especially the ear tips and charging contacts, with a soft, dry, lint-free cloth. Do not use harsh chemicals or abrasive materials.
- **Water Resistance:** The earbuds are IPX5 water-resistant, meaning they can withstand splashes and sweat. They are not designed for submersion in water. Ensure the earbuds are dry before placing them back in the charging case to prevent damage to the charging contacts.
- **Storage:** When not in use, store the earbuds in their charging case to protect them and keep them charged. Store the case in a cool, dry place away from extreme temperatures.
- **Battery Care:** To preserve battery life, avoid fully discharging the earbuds and case frequently. Charge them regularly, even if not in constant use.

TROUBLESHOOTING

If you encounter issues with your Monster Clarity 101 AirLinks, try the following solutions:

Earbuds Not Pairing/Connecting

- Ensure both earbuds are charged.
- Turn off and then turn on Bluetooth on your device.
- Place both earbuds back into the charging case, close the lid, wait a few seconds, then open the lid again to re-initiate pairing mode.
- If the issue persists, forget "Clarity 101" from your device's Bluetooth list and attempt to pair again from scratch.

No Sound or Low Volume

- Check the volume levels on both your device and the earbuds (using touch controls).
- Ensure the earbuds are properly seated in your ears and the ear tips provide a good seal. Try different sized ear tips.
- Clean any debris from the earbud nozzles.
- Reconnect the earbuds to your device.

Charging Issues

- Ensure the charging cable is securely connected to both the case and the power source.
- Try a different USB-C cable or power adapter.
- Clean the charging contacts on both the earbuds and inside the case with a dry cotton swab.

Earbuds Disconnecting Frequently

- Ensure your device is within the Bluetooth range (up to 10 meters) and there are no significant obstacles between the earbuds and your device.
- Avoid strong electromagnetic interference from other devices.
- Ensure the earbuds are fully charged.
