## LaView LV-PWF1P-4PKB-5G

# LaView 4MP 2K Indoor Security Camera Instruction Manual

Model: LV-PWF1P-4PKB-5G

## 1. PRODUCT OVERVIEW

The LaView 4MP 2K Indoor Security Camera provides advanced home monitoring with high-resolution video and versatile connectivity. Designed for indoor use, it offers features such as dual-band Wi-Fi, starlight color night vision, two-way audio, and real-time motion alerts, making it suitable for monitoring babies, elders, pets, or general home security.

### Key Features:

- Dual-Band WiFi Connectivity:** Supports both 5GHz and 2.4GHz networks for smoother streaming and reliable connection.
- Ultra 4MP 2K Resolution & Night Vision:** Delivers 2K HD (2304x1296P) clarity with 12x digital zoom and starlight color night vision without the need for spotlights.
- 24/7 Real-Time Motion Alert & Clear Two-way Audio:** Provides instant motion detection alerts and enables clear communication with noise cancellation.
- Multi-Platform & Multi-User Sharing:** View up to 16 cameras and share access with up to 20 users across mobile and PC platforms.
- Flexible Storage Options:** Offers a 30-day free trial for US Cloud Storage (AWS server) and supports local storage via microSD card (up to 128GB).

## 2. WHAT'S IN THE BOX

Upon opening the package, please ensure all the following components are present:

- Camera Body (4 units for 4-pack)
- Power Adapters (one for each camera)
- Mounting Screws and Anchors
- Quick Start Guide

## 3. SPECIFICATIONS

Detailed technical specifications for the LaView 4MP 2K Indoor Security Camera:

| Feature              | Specification |
|----------------------|---------------|
| Indoor/Outdoor Usage | Indoor        |

| Feature                     | Specification  |
|-----------------------------|--|
| Video Capture Resolution    | 2K (2304x1296P)  |
| Effective Still Resolution  | 4 MP   |
| Connectivity Protocol       | Wi-Fi (5GHz & 2.4GHz)  |
| Power Source                | Corded Electric  |
| Controller Type             | Amazon Alexa   |
| Mounting Type               | Ceiling Mount (or flat surface)  |
| Color                       | Black  |
| Item Dimensions (L x W x H) | 10 x 10 x 5 inches   |
| Item Weight                 | 1.34 pounds (0.61 Kilograms)   |
| Storage                     | Cloud Storage, Micro-SD (up to 128GB)  |
| Alert Type                  | Motion Only  |
| Water Resistance Level      | Waterproof (IP65) - <i>Note: Product is listed as Indoor Usage, IP65 rating typically indicates protection against water jets.</i> |

## 4. SETUP GUIDE

---

Follow these steps to set up your LaView Indoor Security Camera:

### 4.1. Powering On

1. Unpack the camera and its power adapter.
2. Connect the power adapter to the camera's power input port.
3. Plug the power adapter into a standard electrical outlet. The camera will power on and indicate readiness for setup (e.g., an LED indicator).

### 4.2. App Download and Account Creation

1. Download the LaView app from your mobile device's app store (iOS or Android).
2. Open the app and create a new account, or log in if you already have one.

### 4.3. Connecting to Wi-Fi

The LaView camera supports both 2.4GHz and 5GHz Wi-Fi networks for flexible and stable connectivity.

1. In the LaView app, tap the '+' icon to add a new device.
2. Select your camera model from the list.
3. Follow the on-screen prompts to connect the camera to your Wi-Fi network. This typically involves scanning a QR code displayed on your phone with the camera, or entering your Wi-Fi credentials.

4. Ensure your mobile device is connected to the same Wi-Fi network you intend to connect the camera to during the setup process.

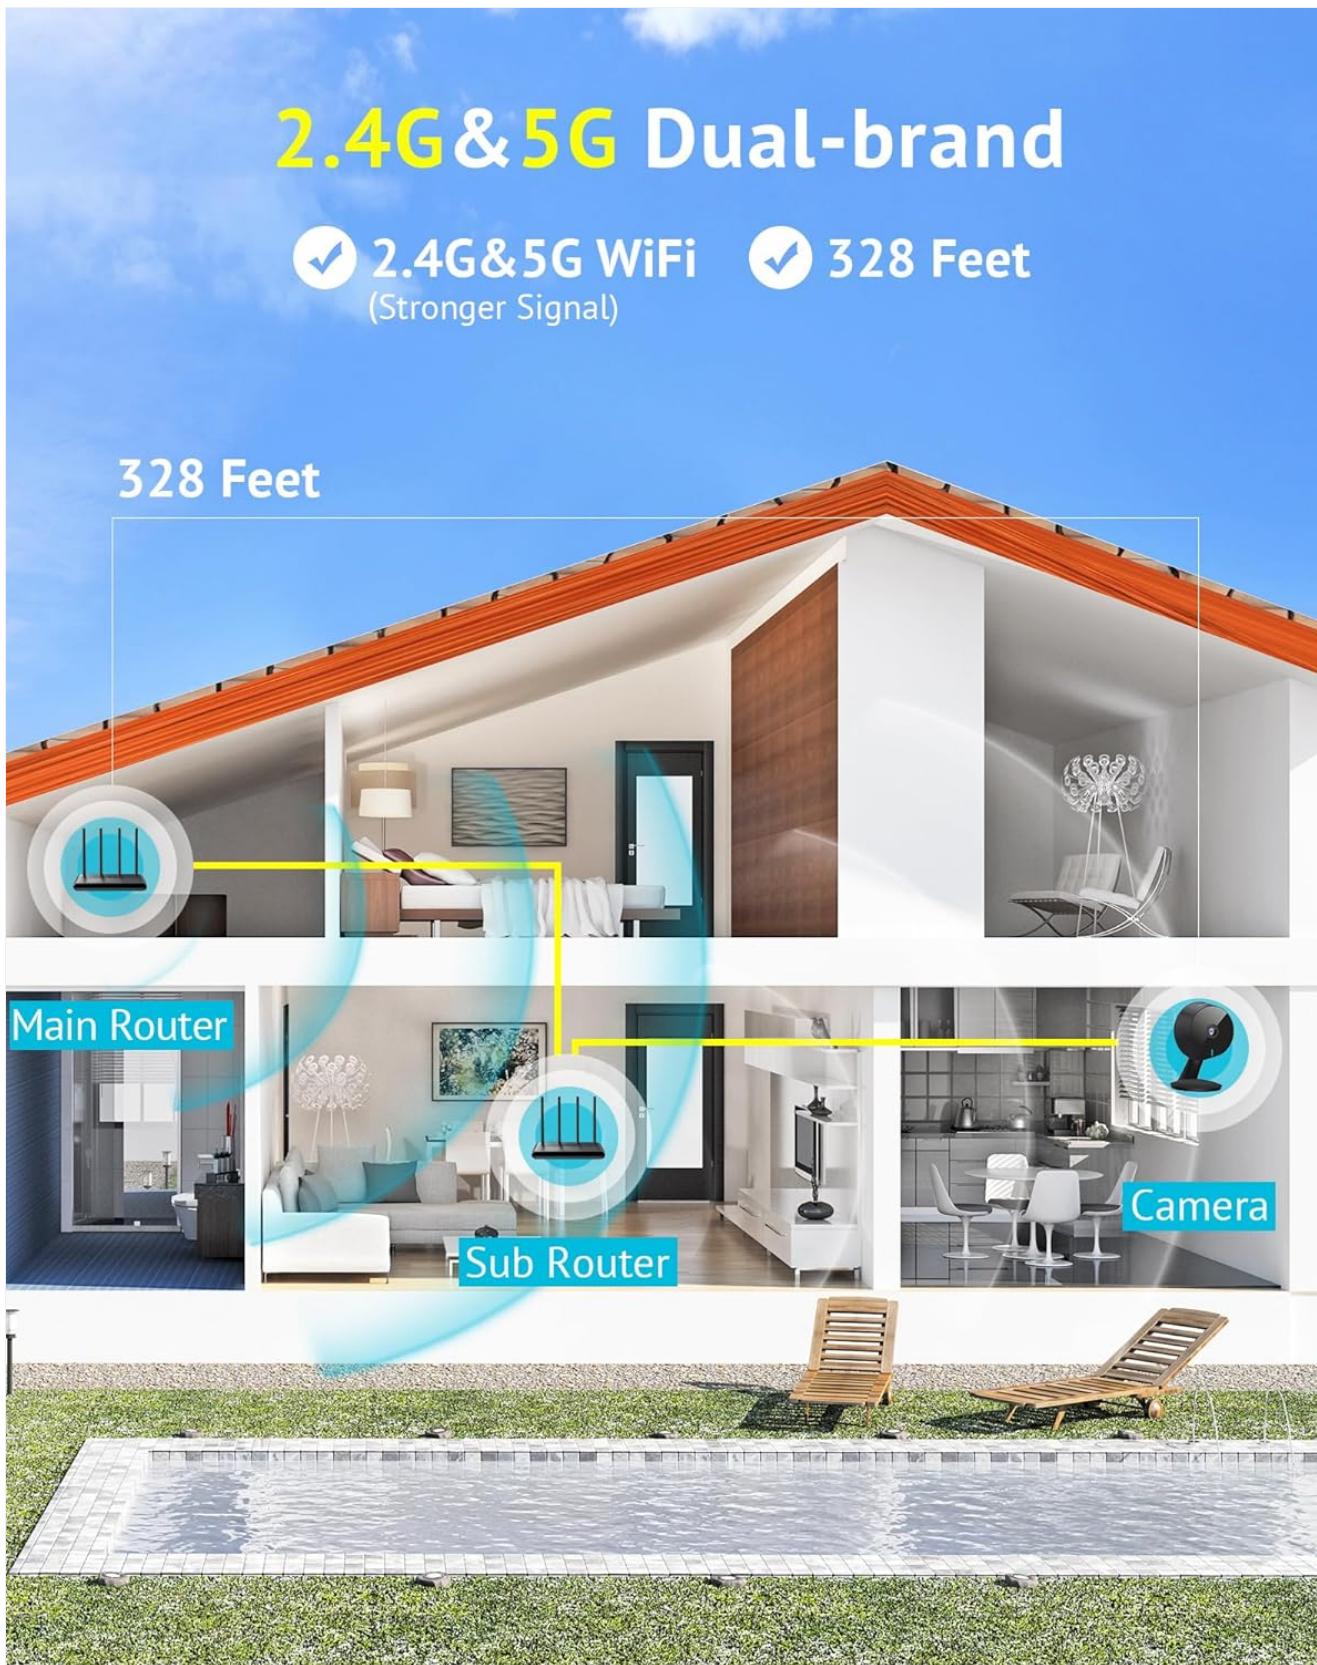

Figure 4.1: Dual-band Wi-Fi connectivity for extended range and stable connection.

#### 4.4. Mounting the Camera

The camera can be placed on a flat surface or mounted to a ceiling.

1. Choose a location that provides the desired viewing angle and is within range of your Wi-Fi network.

2. If mounting, use the provided screws and anchors to secure the camera base to the ceiling. Ensure the camera is securely fastened.

## 5. OPERATING INSTRUCTIONS

---

Once set up, you can utilize the various features of your LaView camera through the mobile app.

### 5.1. Live View and Multi-Platform Access

Access live video feeds from your camera anytime, anywhere.

- Open the LaView app to view live streaming from your camera(s).
- You can manage and view up to 9 camera feeds simultaneously within the app.
- The system supports multi-platform viewing, allowing access from mobile devices (iOS & Android) and PCs. You can share access with up to 20 authorized users.

# Multi-Platform & Multi-User

View up to 16 cameras & 20 users live view.

Figure 5.1: Multi-platform and multi-user viewing capabilities.

## 5.2. Motion Detection and Alerts

The camera is equipped with intelligent motion detection to keep you informed of activity.

- When motion is detected, the camera will send instant smart alerts to your mobile device.
- You can customize motion detection sensitivity and alert schedules within the app settings.

Figure 5.2: Motion detection and real-time alerts.

### 5.3. Two-Way Audio

Communicate with individuals near the camera using the two-way audio feature.

- From the live view screen in the app, tap the microphone icon to speak through the camera's speaker.
- The camera's built-in microphone with noise cancellation allows you to hear audio from the camera's location.

# 2-Way Audio

Listen and talk to family or children anytime and anywhere.

Figure 5.3: Two-way audio communication.

## 5.4. Starlight Color Night Vision

The camera provides clear video even in low-light conditions.

- The starlight sensor enables the camera to capture color video in very low ambient light, superior to traditional infrared black-and-white night vision.
- This feature operates without emitting sudden bright lights, ensuring minimal disturbance, especially in

environments like a baby's room.

## 5.5. Voice Control Integration

Integrate your LaView camera with smart home assistants for convenient voice control.

- The camera is compatible with Amazon Alexa.
- Link your LaView account to your Alexa app to enable voice commands, such as requesting to view the live feed on compatible smart displays.

# Works with Alexa & Google

Use the voice command to control devices to show you the live-feed of camera.

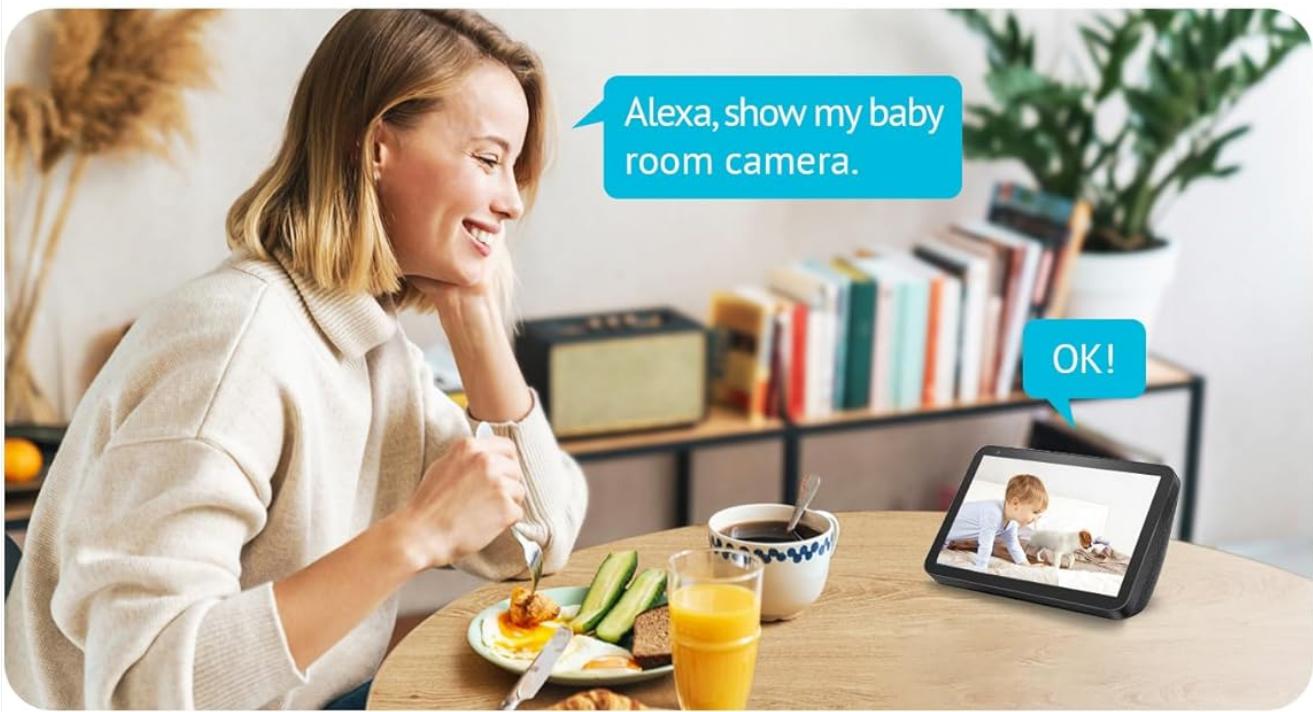

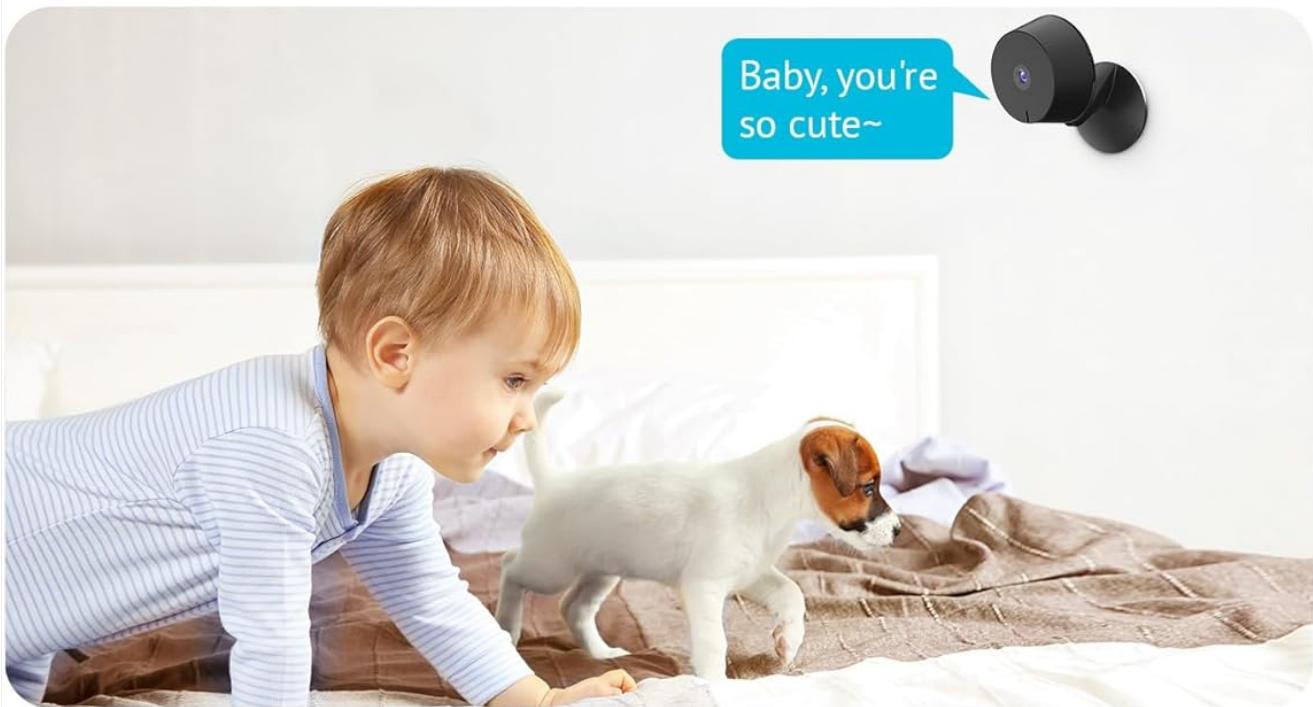

Figure 5.4: Integration with Amazon Alexa for voice control.

## 5.6. Storage Options

Your camera offers flexible options for storing recorded video footage.

- **Cloud Storage:** A 30-day free trial of US cloud storage is available. This service is based on AWS servers in the US, designed to encrypt your data and prevent video clip loss.
- **Micro-SD Storage:** The camera includes a microSD slot supporting cards up to 128GB for local storage of

recordings.

## 6. MAINTENANCE

---

Proper maintenance ensures the longevity and optimal performance of your LaView camera.

- **Cleaning:** Gently wipe the camera lens and body with a soft, dry cloth. Avoid using harsh chemicals or abrasive cleaners.
- **Firmware Updates:** Regularly check the LaView app for available firmware updates. Keeping your camera's firmware updated ensures you have the latest features, security patches, and performance improvements.
- **Power Supply:** Use only the original power adapter provided with the camera to prevent damage.

## 7. TROUBLESHOOTING

---

If you encounter issues with your LaView camera, refer to the following common problems and solutions:

| Problem                                  | Possible Solution  |
|--|--|
| Camera offline / Cannot connect to Wi-Fi | <ul style="list-style-type: none"><li>• Ensure the camera is powered on and within Wi-Fi range.</li><li>• Verify your Wi-Fi password is correct.</li><li>• Try restarting your Wi-Fi router and the camera.</li><li>• Confirm your phone is connected to the same 2.4GHz or 5GHz Wi-Fi network during setup.</li><li>• If using a dual-band router, ensure the camera is connecting to the correct band.</li></ul> |
| Poor video quality / Lagging video       | <ul style="list-style-type: none"><li>• Check your internet connection speed. A stable and fast connection is required for 2K streaming.</li><li>• Move the camera closer to your Wi-Fi router or consider a Wi-Fi extender.</li><li>• Reduce the video quality setting in the app if your network bandwidth is limited.</li></ul>   |
| Motion alerts not received               | <ul style="list-style-type: none"><li>• Ensure motion detection is enabled in the app settings.</li><li>• Check your phone's notification settings for the LaView app.</li><li>• Adjust motion detection sensitivity.</li><li>• Verify the camera has a stable internet connection.</li></ul>  |
| Two-way audio not working                | <ul style="list-style-type: none"><li>• Ensure your phone's microphone is enabled for the LaView app.</li><li>• Check the volume settings on your phone and within the app.</li><li>• Verify the camera's microphone and speaker are not obstructed.</li></ul>   |

| Problem                     | Possible Solution   |
|-----------------------------|---|
| MicroSD card not recognized | <ul style="list-style-type: none"><li>Ensure the microSD card is inserted correctly.</li><li>Format the microSD card using the option in the LaView app.</li><li>Verify the microSD card is not damaged and is within the supported capacity (up to 128GB).</li></ul> |
