Livarno LED Table Lamp

Livarno LED Table Lamp User Manual

INTRODUCTION

Welcome

Thank you for choosing the Livarno LED Table Lamp. This manual provides important information regarding the setup, operation, and maintenance of your new lamp. Please read this manual thoroughly before using the product and keep it for future reference.

Product Overview

The Livarno LED Table Lamp is designed with an elegant chrome finish, offering high light output with low heat development. It features a durable and energy-saving integrated LED module and a rotatable and swiveling spot head for adjustable illumination. The solid base includes an anti-slip pad to protect your furniture.

Figure 1: Livarno LED Table Lamp. This image shows the lamp's elegant chrome design, featuring a curved arm extending from a stable base to a movable lamp head.

IMPORTANT SAFETY INSTRUCTIONS

To ensure safe operation and prevent damage, please observe the following safety precautions:

- Always disconnect the lamp from the power supply before cleaning or performing any maintenance.
- Do not expose the lamp to moisture or extreme temperatures. Use indoors only.
- Ensure the lamp is placed on a stable, level surface to prevent tipping.
- Do not attempt to modify or repair the lamp. Repairs should only be performed by qualified personnel.
- The LED module is integrated and not replaceable. Do not attempt to remove or replace it.
- Keep the lamp away from flammable materials.
- Do not look directly into the light source when the lamp is on, as this may cause eye strain.

PACKAGE CONTENTS

Please check that all items are present and in good condition:

- Livarno LED Table Lamp (with integrated LED module)
- Power Cable (approx. 1.5 m)
- User Manual (this document)

SETUP

Follow these steps to set up your Livarno LED Table Lamp:

1. **Unpack the Lamp:** Carefully remove all components from the packaging. Retain packaging for future transport or storage.
2. **Position the Lamp:** Place the lamp on a flat, stable, and dry surface. Ensure the anti-slip pad on the base is in full contact with the surface to prevent scratches and provide stability.
3. **Connect to Power:** Insert the power cable plug into a standard 230-240 V, 50 Hz electrical outlet.

OPERATING INSTRUCTIONS

Operating your Livarno LED Table Lamp is straightforward:

- **Turning On/Off:** Locate the power switch, typically on the power cable or the lamp base. Press the switch to turn the lamp on or off.
- **Adjusting the Light:** The lamp features a rotatable and swiveling spot head. Gently adjust the lamp head to direct the light as desired. Do not force the head beyond its natural range of motion.

CARE AND MAINTENANCE

Proper care will ensure the longevity of your Livarno LED Table Lamp:

- **Cleaning:** Before cleaning, always unplug the lamp from the power outlet. Wipe the lamp with a soft, dry, lint-free cloth. Do not use abrasive cleaners, solvents, or chemical sprays, as these can damage the chrome finish.
- **LED Module:** The LED module in this lamp is integrated and designed for a long lifespan (20,000 hours). It is not dimmable and cannot be replaced. If the LED module fails, the entire lamp should be replaced.
- **Storage:** If storing the lamp for an extended period, disconnect it from power and store it in a clean, dry place, preferably in its original packaging.

TROUBLESHOOTING GUIDE

If you encounter issues with your lamp, please refer to the following table:

Problem	Possible Cause	Solution
Lamp does not turn on.	No power supply. Lamp switch is off. Faulty outlet.	Ensure the power cable is securely plugged into a working outlet. Press the power switch to the "ON" position. Test the outlet with another device.

Problem	Possible Cause	Solution
Light output is weak or flickering.	Integrated LED module issue.	The LED module is not replaceable. If the issue persists, the lamp may need to be replaced. Contact customer support.
Lamp is unstable.	Not on a flat surface. Anti-slip pad not properly positioned.	Place the lamp on a completely flat and stable surface. Ensure the anti-slip pad on the base is clean and fully in contact with the surface.

If the problem persists after trying these solutions, please contact customer support.

TECHNICAL SPECIFICATIONS

Brand	Livarno
Model	LED Table Lamp
Design	Elegant chrome finish
Light Source	Integrated LED module (not dimmable, not replaceable)
Operating Voltage	230-240 V~, 50 Hz
Power Consumption	4 W
Luminous Flux	300 lm
Color Temperature	3000 K (Warm White)
Color Rendering Index (Ra)	>80
Lifespan	Approx. 20,000 hours
Switching Cycles	Approx. 15,000 x
Cable Length	Approx. 1.5 m
Dimensions (Overall Height)	Approx. 39 cm
Dimensions (Base Diameter)	Approx. 12.5 cm
Material	Metal
Color	Silver / Chrome
Energy Savings	Up to 86% compared to a 30 Watt incandescent bulb

WARRANTY INFORMATION

Specific warranty terms may vary by region and retailer. Please refer to the purchase documentation or contact your retailer for detailed warranty information. Generally, products are covered against manufacturing defects for a specified

period from the date of purchase.

Keep your proof of purchase (receipt) as it will be required for any warranty claims.

CUSTOMER SUPPORT

If you have any questions, require technical assistance, or need to report a problem that cannot be resolved using the troubleshooting guide, please contact the retailer or manufacturer's customer service department.

When contacting support, please have the following information ready:

- Product Name: Livarno LED Table Lamp
- Model Number: (Refer to product packaging or purchase details)
- Date of Purchase
- Description of the issue
