Setup and Preparation

Before wearing your new swimsuit, it is recommended to try it on to ensure the correct fit and make any necessary adjustments.

1. **Unpack:** Carefully remove the swimsuit from its packaging.
2. **Inspect:** Check for any manufacturing defects or loose threads.
3. **Adjust Straps:** The over-the-shoulder straps are adjustable. Locate the adjusters on the straps and slide them to achieve your desired level of support and comfort. Ensure the straps are not too tight, which could cause discomfort, or too loose, which could compromise support.
4. **Fit Check:** The swimsuit should feel snug but not restrictive. The tummy control feature is designed to provide a smooth look without excessive compression.

Care and Maintenance

Proper care will extend the life of your swimsuit and maintain its appearance. Always follow the care instructions.

- **Washing:** Hand wash only. Use cold water and a mild detergent.
- **Rinsing:** After each use, especially after swimming in chlorinated or salt water, rinse your swimsuit thoroughly with fresh, cool water.
- **Drying:** Lay flat to dry in the shade. Avoid direct sunlight, as it can fade colors and damage fabric elasticity. Do not tumble dry.
- **Bleaching:** Do not bleach.
- **Ironing:** Do not iron.
- **Storage:** Store your swimsuit clean and dry in a cool, well-ventilated area. Avoid storing it wet or in plastic bags for extended periods.

Troubleshooting

If you encounter any issues with your swimsuit, consider the following common solutions:

- **Fit feels too tight or loose:** Re-adjust the shoulder straps. Ensure you have selected the correct size according to the Tommy Bahama size guide.
- **Fabric fading or losing elasticity:** This often occurs due to improper care. Ensure you are hand washing with cold water, avoiding harsh chemicals, and drying in the shade. Exposure to high chlorine levels or prolonged sun can also contribute to this.

- **Strap adjusters slipping:** Ensure the straps are threaded correctly through the adjusters. If persistent, contact customer support.
