1. WHAT'S IN THE BOX

The LABIGO 3-in-1 Pet Grooming Kit includes a versatile set of tools designed for comprehensive pet care. Please ensure all components listed below are present in your package.

Image: Overview of the LABIGO 3-in-1 Pet Grooming Kit showing the main unit, hose, and various attachments.

- **Main Unit:** Combines vacuum and dryer functions.
- **Hose:** Flexible hose, detachable for switching between vacuum and blow functions.
- **Grooming Brush:** For gentle removal of loose hair and detangling.
- **Shedding Tool:** Effectively removes shedding hair.
- **Electric Pet Clipper:** For trimming pet hair.

- **Dog Paw Trimmer:** Specialized for delicate paw area trimming.
- **Nail Grinder:** For safe and smooth nail care.
- **Crevice Nozzle:** For collecting pet hair and dust from surfaces.
- **Comb Dryer Nozzle:** For drying pet hair.
- **Guard Combs (3):** Bi-directional combs in sizes 3mm/6mm, 9mm/12mm, and 15mm/18mm for varied hair lengths.
- **Cleaning Brush:** For maintaining the tools.
- **Charging Cable:** For the cordless clipper/nail grinder.
- **Accessory Bag:** For convenient storage of attachments.

2. SETUP

Before using your LABIGO Pet Grooming Kit, follow these steps to ensure proper assembly and functionality.

2.1 Connecting the Hose

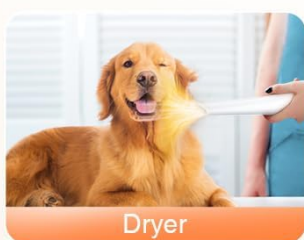

1. Identify the desired function: **Vacuum** or **Blow Dryer**.
2. Locate the corresponding port on the main unit. The vacuum intake is typically on one side, and the blow dryer air outlet on the other.
3. Align the hose connector with the chosen port and push firmly until it clicks into place. Ensure a secure connection to prevent air leakage.

2.2 Attaching Grooming Tools

1. Select the appropriate grooming tool (e.g., grooming brush, shedding tool, crevice nozzle, comb dryer nozzle).
2. Attach the selected tool to the free end of the hose. Push until it locks securely.
3. For the electric pet clipper and nail grinder, these can be used independently (cordless) or attached to the vacuum hose for hair collection.

3 in 1 Grooming & Vacuum & Dryer

Speically designed for pet family

Dryer

2.3 Powering On

1. Plug the power cord into a suitable electrical outlet.
2. Press the power button on the main unit to turn on the device.

3. OPERATING INSTRUCTIONS

Familiarize yourself with the various functions of your LABIGO grooming kit to provide the best care for your pet.

Video: A demonstration of the LABIGO 3-in-1 Pet Grooming Kit in use, showcasing the vacuum and blow dryer functions with various attachments on a pet.

3.1 Blow Dryer Function

1. Ensure the hose is connected to the blow dryer air outlet.

2. Press the 'Blow' button on the control panel. You can select from 3 adjustable wind speeds (10/18/26.3 ft/s).
3. Adjust the temperature using the heat settings (105/122/140 °F) to suit your pet's comfort.
4. Use the comb dryer nozzle to dry and comb your pet's hair simultaneously. The crevice nozzle can be used for targeted drying.

Adjustable Flow Speed & Temperature

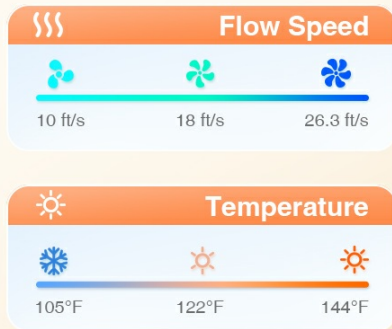

Image: A dog being dried with the comb dryer nozzle, illustrating the blow dryer function.

3.2 Vacuum Function

1. Ensure the hose is connected to the vacuum air intake.
2. Press the 'Vacuum' button on the control panel. Select from 3 suction levels based on your grooming needs.
3. Use the grooming brush or shedding tool to remove loose hair while the vacuum collects it directly into the dust cup.
4. The crevice nozzle can be used to clean pet hair from furniture, carpets, and other surfaces.

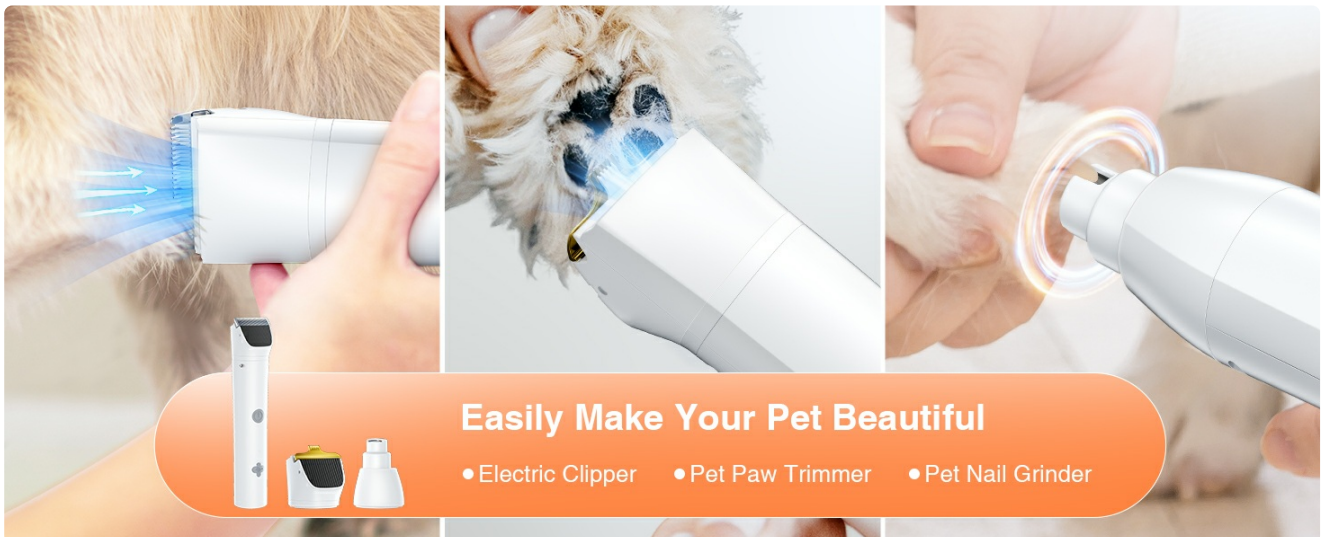

Image: A pet owner using the vacuum grooming tool to remove hair from a dog, showing hair being collected.

3.3 Clipper & Nail Grinder Usage

1. The electric pet clipper, paw trimmer, and nail grinder can be used independently without the hose, offering flexibility.
2. For clippers, attach the desired guard comb (3mm/6mm, 9mm/12mm, or 15mm/18mm) for the appropriate hair length.
3. If using with the vacuum, attach the clipper/grinder to the hose for hair collection.

4. **Pet Desensitization:** To prevent nervousness, gradually introduce your pet to the device's sound and sensation before full grooming sessions. Refer to the manual for detailed desensitization steps.

Clippers Can Be Used Independently

Without connecting the hose

4. MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your grooming kit.

4.1 Emptying the Dust Cup

1. Ensure the device is turned off and unplugged.
2. Detach the 2.7L dust cup from the main unit.
3. Empty the collected pet hair and debris into a waste bin.
4. Reattach the dust cup securely to the main unit.

2.7L Large Capacity Dust Cup

No need to empty frequently

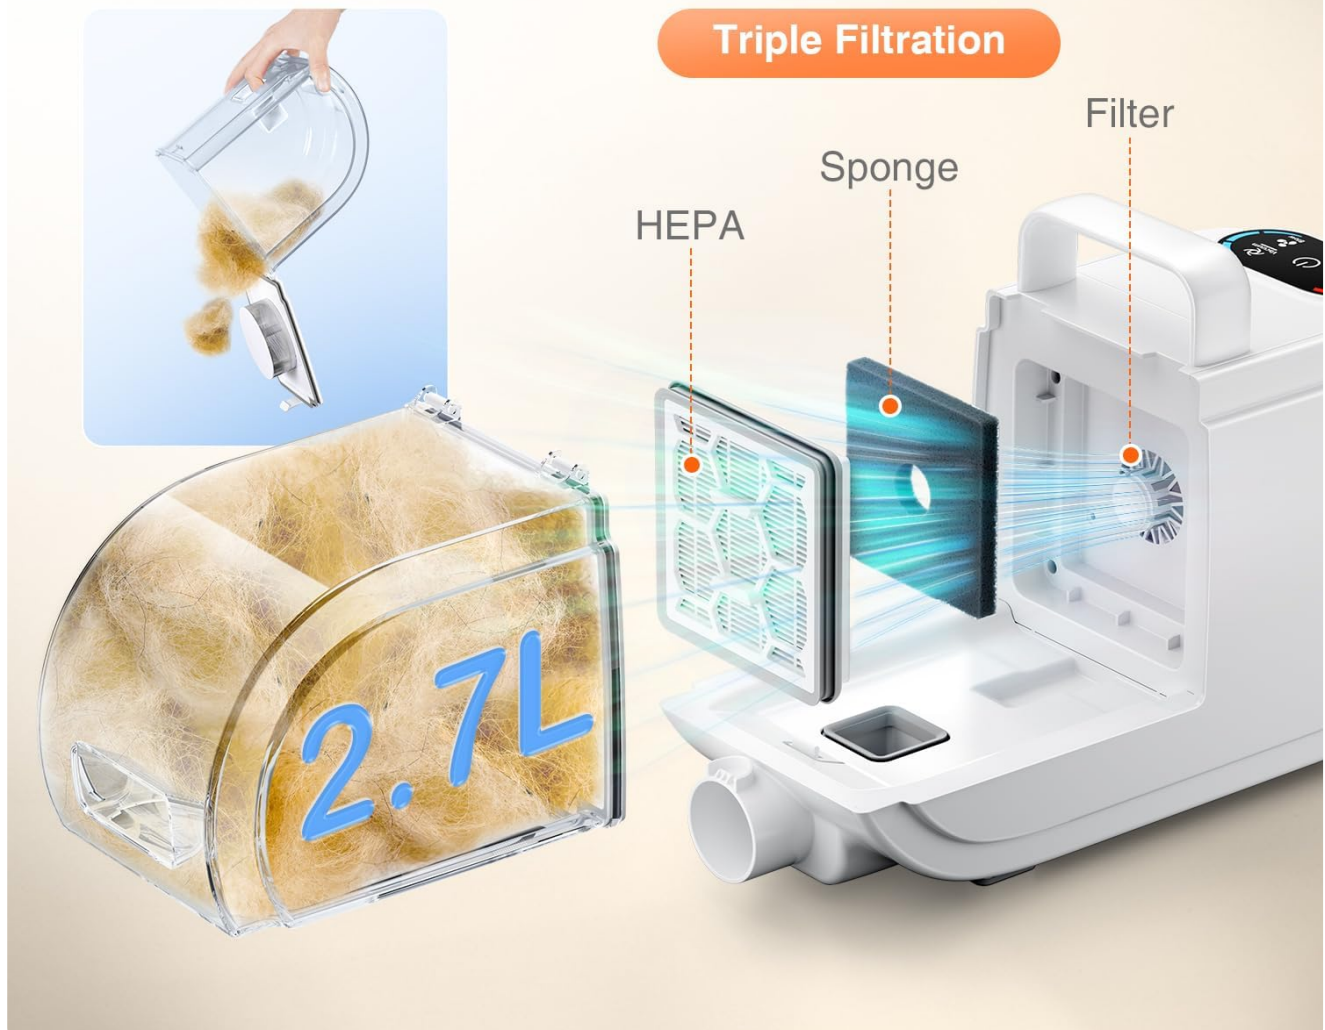

Image: The 2.7L large capacity dust cup, showing its transparent design and triple filtration system (Filter + Sponge + HEPA).

4.2 Cleaning Filters

1. The device features a triple filtration system (Filter + Sponge + HEPA). Periodically remove and clean these filters to maintain suction efficiency.
2. Rinse washable filters with water and allow them to air dry completely before reinserting.

4.3 Cleaning Clipper Blades

1. After each use, use the provided cleaning brush to remove any trapped hair from the clipper blades.
2. For optimal performance, apply a small amount of clipper oil to the blades regularly.

5. TROUBLESHOOTING

Refer to this section for common issues and their solutions.

Problem	Possible Cause	Solution
Device does not turn on.	Not plugged in; Power button not pressed.	Ensure power cord is securely plugged into an outlet. Press the power button firmly.
Low suction/airflow.	Dust cup full; Clogged hose/filters; Incorrect hose connection.	Empty the dust cup. Check hose and attachments for blockages. Clean or replace filters. Ensure hose is securely connected to the vacuum intake.
Clipper blades are dull or not cutting effectively.	Blades are dirty; Blades are worn.	Clean blades with the provided brush and apply clipper oil. If blades are worn, contact customer support for potential solutions.
Pet is nervous or scared by the device.	Unfamiliarity with sound/sensation.	Begin with desensitization. Introduce the device gradually, allowing the pet to get used to the sound and vibration before direct contact. Use treats and positive reinforcement.
