TROUBLESHOOTING

If you encounter any issues with your SEDETA Computer Desk, please refer to the following common solutions:

Problem	Possible Cause	Solution
LED lights not working	Power not connected; remote/app issue; light strip damage.	Ensure desk is plugged in and power switch is on. Check remote/app connection. Inspect light strip for visible damage.
Power outlets/USB ports not functioning	Desk not plugged in; power switch off; circuit overload.	Verify power cord connection and power switch. Reduce number of connected devices if overloaded.
Drawers are stiff or not closing properly	Misalignment during assembly; debris in glides; overloaded drawer.	Check assembly instructions for proper drawer slide installation. Clear any obstructions from glides. Do not overload drawers.
Desk feels wobbly	Loose fasteners; uneven floor.	Tighten all assembly screws. Adjust desk levelers if present, or place shims under legs on uneven surfaces.

If the problem persists after attempting these solutions, please contact SEDETA customer service for further assistance.
