SETUP

Charging the Device

The BORUIT V15 flashlight is equipped with a USB-C charging port for convenient and fast charging. Before initial use, ensure the device is fully charged.

1. Locate the USB-C charging port on the flashlight.
2. Connect the provided USB A-C charging cable to the flashlight and a compatible USB power source.
3. During charging, a red indicator light will be visible.
4. Once fully charged, the indicator light will turn green. Charging typically takes approximately 3 hours.

The BORUIT V15 Flashlight connected for USB-C charging, indicating charging status with red and green lights.

OPERATING INSTRUCTIONS

Main Light Modes

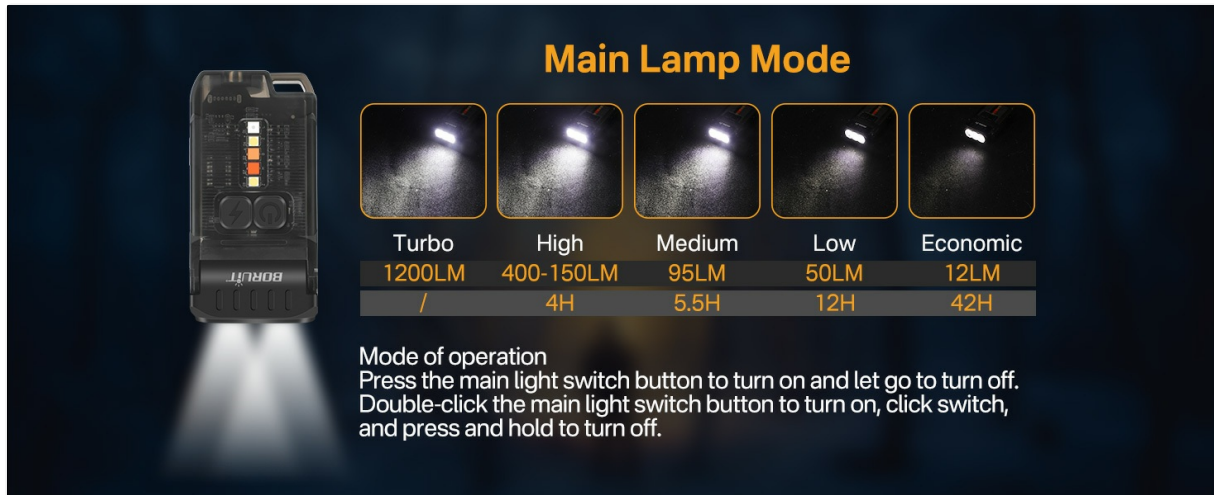

The main light offers five distinct brightness modes:

- **Turbo:** 1200 Lumens
- **High:** 400-150 Lumens (4 hours runtime)
- **Medium:** 95 Lumens (5.5 hours runtime)

- **Low:** 50 Lumens (12 hours runtime)
- **Economic:** 12 Lumens (42 hours runtime)

To operate the main light:

1. **Turn On/Off:** Press the main light switch button to turn on. Release to turn off.
2. **Cycle Modes:** Double-click the main light switch button to turn on, then click repeatedly to cycle through the modes (Turbo, High, Medium, Low, Economic).
3. **Turn Off from Cycle:** Press and hold the main light switch button to turn off while cycling modes.

Main light modes and their operational details.

Side Light Modes

The side COB panel offers various light modes for different situations:

- **Warm:** 35 Lumens (6.5 hours runtime)
- **White:** 50 Lumens (8.5 hours runtime)
- **Red:** 12 Lumens (6.5 hours runtime)
- **Red Flash:** 12 Lumens (19 hours runtime)
- **Red Blue Flash:** (9 hours runtime)

To operate the side light:

1. **Turn On/Off Warm Light:** Press the long side light switch to turn on the warm light. Press again to turn it off.
2. **Cycle Modes:** Double-click the side light switch to turn on the side light mode, then click repeatedly to cycle through the modes (Warm, White, Red, Red Flash, Red Blue Flash).
3. **Turn Off from Cycle:** Press and hold the side light switch button to turn off while cycling modes.
4. **Red Blue Flash:** A three-stroke press of the side light switch will activate the red and blue flashing mode.

Side Light Mode

Warm	White	Red	Red Flash	Red Blue Flash
35LM	50LM	12LM	12LM	/
6.5H	8.5H	6.5H	19H	9H

Mode of operation

Press the long side light switch, turn on the warm light, and turn it off. Double-click the side light switch to turn on the side light mode, then click to switch gears, and press and hold to turn off. Three-stroke side light switch turns on and flashes red and blue.

Side light modes and their operational details.

Swivel Head Function

The BORUIT V15 features an 80-degree swivel head, allowing you to adjust the beam direction as needed. Simply rotate the head to your desired angle.

The 80-degree swivel head allows for flexible light direction.

Clip and Magnetic Base

For hands-free use, the BORUIT V15 includes a two-way clip and a magnetic base.

- **Two-way Clip:** Attach the flashlight to your hat brim, pocket, or belt for convenient illumination.
- **Magnetic Base:** Securely attach the flashlight to any metallic surface, such as a car hood or metal shelving, to direct light where you need it.

Hands-Free Use

Its magnetic base attaches to any iron surface, and the two-way clip easily attaches to your hat, clothes; freeing up your hands to get things done efficiently.

The two-way clip allows for hands-free attachment to clothing or gear.

The magnetic base allows for secure attachment to metal surfaces.

MAINTENANCE

Water Resistance

The BORUIT V15 flashlight has an IP67 waterproof rating, meaning it is protected from dust and can withstand immersion in water up to 1 meter for 30 minutes. This makes it suitable for use in various weather conditions, including rain.

Sturdy Flashlight

The IP67 rating meets the daily waterproof needs, and the sturdy shell is not afraid of falling from your hand.

The flashlight's IP67 water resistance ensures reliable performance in wet conditions.

Durability

Constructed from high-quality ABS and aluminum, the V15 is designed to be sturdy and impact-resistant. While durable, avoid unnecessary drops or harsh impacts to prolong its lifespan.

Ultra-long Battery Life

In economy mode, the Boruit V15 lasts up to **42 hours**, making it perfect for use in the field, where you can't recharge often.

The flashlight offers an ultra-long battery life of up to 42 hours in economic mode.

TROUBLESHOOTING

Battery Indicator

The flashlight features a simple battery indicator:

- **Red Light:** Indicates the battery is charging.
- **Green Light:** Indicates the battery is fully charged.

If the flashlight is not turning on or holding a charge, ensure it is properly connected to a power source and the charging indicator is active. If issues persist, contact customer support.
