XIAOMI Poco C65 Smartphone User Manual

Model: c65

INTRODUCTION

The XIAOMI Poco C65 is a powerful smartphone featuring a MediaTek Helio G85 processor, a 50MP AI triple camera system, and a large 5000mAh battery. It boasts an immersive 6.74-inch HD+ display with a 90Hz refresh rate and Corning Gorilla Glass for enhanced durability. Designed for a smooth user experience, the Poco C65 includes features like TÜV Low Blue Light and Flicker-Free certifications for eye comfort, and an 8MP front camera with a soft-light ring for improved selfies.

WHAT'S IN THE BOX

Upon unboxing your Poco C65, please verify that all the following items are included:

- Poco C65 Smartphone
- Fast 33W Car Charger
- Phone Case
- SIM Tray Ejector
- USB Cable

SETUP

1. SIM Card and Micro SD Card Installation

The Poco C65 supports dual Nano-SIM cards and a Micro SD card for expanded storage. Follow these steps to install them:

1. Locate the SIM tray slot on the side of your device.

2. Insert the provided SIM tray ejector tool into the small hole next to the SIM tray and press gently until the tray pops out.
3. Carefully place your Nano-SIM cards and Micro SD card into their respective slots on the tray, ensuring the gold contacts face downwards.
4. Gently push the SIM tray back into the slot until it is flush with the device's body.

2. Initial Power On

To power on your device for the first time:

1. Press and hold the power button, located on the side of the device, until the XIAOMI logo appears on the screen.
2. Follow the on-screen instructions to complete the initial setup process, which includes selecting your language, connecting to a Wi-Fi network, and setting up your Google account.

3. Network Connectivity

This device is designed to operate on T-Mobile, Mint, Tello, or any carrier utilizing the T-Mobile network within the USA. For international use, it is compatible with any GSM carrier SIM. Ensure your SIM card is active and has a valid plan. If you experience network issues, verify your APN settings with your network provider.

OPERATING YOUR DEVICE

Display Features

The Poco C65 features a 6.74-inch HD+ Dot Drop display with a resolution of 1600x720 pixels and a pixel density of 260 ppi. It offers a typical brightness of 450 nits, with a High Brightness Mode (HBM) of 600 nits. The display supports a refresh rate of up to 90Hz for smoother visuals and includes a Reading mode. DC dimming is also supported. The screen is protected by Corning Gorilla Glass. For eye comfort, it has TÜV Rheinland Low Blue Light certification (Software Solution) and TÜV Rheinland Flicker Free certification.

Camera System

The device is equipped with a versatile 50MP AI triple camera system. The main camera features a 5P lens with an f/1.8 aperture. It also includes a 2MP macro camera (f/2.4) and an auxiliary lens. Camera features include Film Camera modes, HDR mode, Night mode, Portrait mode, and a dedicated 50MP mode. Video recording supports 1080P at 30fps and 720P at 30fps. The front camera is 8MP and features an upgraded soft-light ring for enhanced selfies in various lighting conditions.

Performance

The Poco C65 is powered by a MediaTek Helio G85 processor, built on a 12nm process with an octa-core CPU (Arm Cortex-A75 @ 2.0GHz, Arm Cortex-A55 @ 1.8GHz) and an Arm Mali-G52 MC2 GPU. This configuration ensures efficient performance for daily tasks and gaming.

Security Features

For enhanced security, the Poco C65 includes a side-mounted fingerprint sensor and AI face unlock functionality. These features allow for quick and secure access to your device.

Audio and Connectivity

The device features a 3.5mm headphone jack and supports FM radio (when headphones are connected). Wireless connectivity includes Wi-Fi (2.4GHz and 5GHz) and Bluetooth 5.3, supporting AAC and SBC codecs. For navigation, it supports GPS, Glonass, Galileo, and Beidou.

MAINTENANCE

To ensure optimal performance and longevity of your Poco C65, follow these maintenance guidelines:

- **Cleaning:** Use a soft, lint-free cloth to clean the screen and body. Avoid harsh chemicals or abrasive materials.
- **Battery Care:** To prolong battery life, avoid exposing the device to extreme temperatures. Charge the device using the provided charger or a compatible 18W fast charger. The 5000mAh battery provides up to 23 hours

of video streaming.

- **Software Updates:** Regularly check for and install system updates to ensure your device has the latest features, security patches, and performance improvements. The operating system is MIUI 14 for POCO, based on Android 12.
- **Storage Management:** Periodically clear unnecessary files, uninstall unused applications, and manage your media to maintain optimal performance. The device comes with 128GB of internal storage and 6GB RAM.

TROUBLESHOOTING

If you encounter issues with your Poco C65, consider the following common troubleshooting steps:

- **Device Not Powering On:** Ensure the battery is charged. Connect the device to the charger and wait a few minutes before attempting to power it on again. If it still doesn't turn on, try holding the power button for 10-15 seconds.
- **Network Connectivity Issues:** Check if your SIM card is properly inserted and activated. Verify that mobile data or Wi-Fi is enabled in your settings. Restart the device. If issues persist, contact your network provider for assistance.
- **Application Performance:** If an application is unresponsive or crashing, force close it from the recent apps menu. If the issue continues, clear the app's cache and data in settings, or reinstall the application.
- **Screen Unresponsive:** If the touchscreen is not responding, perform a forced restart by holding the power button for an extended period (typically 10-15 seconds) until the device reboots.
- **Battery Draining Quickly:** Check for background apps consuming power. Adjust screen brightness, disable unnecessary features like GPS or Bluetooth when not in use, and ensure your software is up to date.

SPECIFICATIONS

Model Name	c65
Brand	XIAOMI
Operating System	MIUI 14 for POCO, based on Android 12
CPU Model	MediaTek Helio G85
