Bibilock ZI9928

Bibilock Magic Castle Micro Mini Building Blocks Instruction Manual

Model: ZI9928

Introduction

This instruction manual provides detailed guidance for assembling your Bibilock Magic Castle Micro Mini Building Blocks set. This creative building set features over 3000 micro-sized pieces designed to form an intricate castle structure. The set is crafted from environmentally friendly ABS materials, ensuring a safe and enjoyable building experience. Due to the small size of the blocks, patience and attention to detail are recommended for assembly.

Safety Information

This product contains small parts and is not suitable for children under 6 years of age due to choking hazards. Adult supervision is recommended for younger builders. Keep all packaging materials away from children. The product is made of ABS environmental protection materials, non-toxic, and non-irritating.

What's in the Box

- Over 3000 Micro Mini Building Blocks
- Instruction Manual
- Numbered bags containing sorted pieces

Setup and Assembly

Before beginning assembly, ensure you have a clean, well-lit, and spacious work area. It is crucial to sort the micro blocks carefully to avoid losing any pieces. The building process is divided into steps, with pieces separated into numbered bags for easier management.

Step 1: Unpacking and Sorting

Carefully open the product packaging. You will find several numbered bags containing the building blocks. It is highly recommended to sort the pieces from each bag before starting the assembly for that particular section. This will significantly reduce the chance of missing pieces and streamline the building process.

Step 2: Following the Instructions

The instruction manual provides accurate and detailed steps for assembly. Each step typically corresponds to a layer or a specific section of the castle. Pay close attention to the diagrams and the number of studs/holes indicated for each connection. The blocks are designed to connect tightly, ensuring the stability of the finished model.

Image: The Magic Castle model is designed to be built in three main parts, which are then connected.

Step 3: Connecting Sections

Once individual sections are completed, follow the instructions to connect them to form the complete Magic Castle. Ensure all connections are firm to maintain the structural integrity of the model.

Operating (Building Process)

The "operation" of this product is its assembly. The process involves precise placement of micro blocks according to the provided visual instructions. Each step builds upon the previous one, gradually forming the detailed castle structure. Take your time and enjoy the intricate process.

Maintenance

To maintain the quality and appearance of your assembled Magic Castle:

- **Cleaning:** Use a soft, dry cloth or a small brush to gently remove dust from the model. Avoid using water or chemical cleaners, as these may damage the plastic.
- **Storage:** Store the assembled model in a stable location away from direct sunlight and extreme temperatures to prevent discoloration or warping of the plastic.

- **Handling:** Handle the model with care, especially when moving it, to prevent pieces from detaching.

Troubleshooting

- **Missing Pieces:**
  Carefully re-check your work area and the contents of all bags. The set often includes a few extra small pieces. If a critical piece is missing and cannot be substituted, please contact customer support.
- **Difficulty Connecting Pieces:**
  Ensure the pieces are correctly oriented and aligned with the studs. Apply firm, even pressure. If a piece is particularly stubborn, double-check the instruction manual to confirm correct placement.
- **Model Instability:**
  Review the recently assembled sections to ensure all blocks are firmly pressed together. Loose connections can lead to instability. The design ensures tight connections when correctly assembled.
- **Instructions Unclear:**
  The instructions are visual. If a step is unclear, try looking ahead to the next few steps to understand the overall structure being built. Online communities or videos (like the one provided) might offer additional visual guidance.

Specifications

Product Name	Magic Castle Micro Mini Building Blocks
Brand	Bibilock
Model Number	ZI9928
Number of Pieces	3000+ PCS
Product Dimensions	9.45 x 2.36 x 14 inches (assembled)
